This report provides an overview of juvenile court dispositions in Pennsylvania during 2011 and preceding years, and summarizes juvenile court statistical data provided by county juvenile probation departments. Without the support of the courts and juvenile probation departments, this report would not be possible.

Although the report focuses primarily on delinquency dispositions, information has again been included on dependency cases that have been referred to juvenile probation departments. While county children and youth agencies handle the overwhelming majority of cases involving dependent children in the Commonwealth, some juvenile probation departments provide services to children who are alleged to be dependent on the basis of ungovernability or chronic truancy.

The information contained in this report is of value to all individuals, agencies and organizations having an interest in the Pennsylvania juvenile justice system. However, it is not intended to reflect the total workload of juvenile courts or juvenile probation departments.

It is with great pleasure that we dedicate this report to the judges, probation officers, victim advocates, district attorneys, service treatment providers, and other professionals who work on a daily basis in the Pennsylvania juvenile court system.

Respectfully submitted,

*James E. Anderson
Executive Director*

*Honorable Arthur E. Grim
Chairman*

In addition to this annual disposition report, another source of information on juvenile court delinquency dispositions is the Pennsylvania Juvenile Delinquency Data Analysis Tool (JDDAT). The JDDAT application was developed to facilitate independent analysis of annual dispositions reported to the Juvenile Court Judges' Commission (JCJC) by juvenile probation departments throughout the Commonwealth and can be accessed at www.jcjc.state.pa.us.

Please note, the data contained in JDDAT is updated on a regular basis by all sixty-seven juvenile probation departments and therefore may not match the information contained in this report.

The JDDAT was developed for the JCJC by the National Center for Juvenile Justice, with funding from the Office of Juvenile Justice and Delinquency Prevention (OJJDP), Office of Justice Programs, U.S. Department of Justice and it is maintained by the Juvenile Court Judges' Commission's Center for Juvenile Justice Training and Research.

The format and presentation of the data in this year's report are intended to help summarize various trends in juvenile court processing throughout the Commonwealth. In addition to the graphs and charts, narrative is included that is intended to help readers more quickly recognize various statewide trends, as well as highlight information not reflected in the visual displays.

Please note that some 2010 data has been updated since the publication of the 2010 Pennsylvania Juvenile Court Dispositions. Those updates are reflected in the relevant charts and graphs, as well in the narrative on year-to-year comparisons.

The data within this year's report is generally organized in a manner that reflects the chronological processing of juvenile court delinquency cases. With the exception of pages 3-5 (*Delinquency Dispositions through Frequencies of Statewide Delinquency Dispositions*), the data presented flows logically from allegation source through placement.

Within this report, some of the data is organized and presented in graphs by Class County. This will help readers make comparisons across counties of similar size and demographic composition.

While some county-specific data is presented within the body of the report, all of the raw data for each of Pennsylvania's 67 counties remains available for viewing. For each section within the report, please reference the appendices to review county specific data on that topical area.

We draw your attention to the following statistical highlights of 2011:

- There were 32,544 delinquency-related dispositions in Pennsylvania during 2011. This represents an 11.2% decrease from 2010, and a 28.6% decrease since 2007 (page 4).
- Statewide secure detention admissions have declined each year since 2007. This represents a 20.4% overall decrease since 2007, and a 7.8% decrease since 2010 (page 14).
- Statewide, delinquency placements have declined each year since 2007, and have decreased by 29.1% since 2007 (page 19).
- Seventeen year olds represented the most dispositions for any age group in 2011, accounting for 26.8% of all dispositions, followed in descending order by sixteen year olds (22.0%) and fifteen year olds (16.2%) (page 26).
- Youth whose biological parents were reported as "never married" represents almost 44% of all delinquency dispositions, while youth whose parents were reported as "married" represents approximately 17% (page 28).
- Almost 47% of youth were reported as residing only with their mother, while 17.8% of youth resided with both biological parents (page 28).
- The majority of all delinquency dispositions involved White Non-Hispanic youth (45.6%), followed in descending order by Black Non-Hispanic youth (38.8%) and Hispanic youth (11.6%) (page 30).

This report is a compilation of the data collected from the juvenile probation departments in the Commonwealth of Pennsylvania.

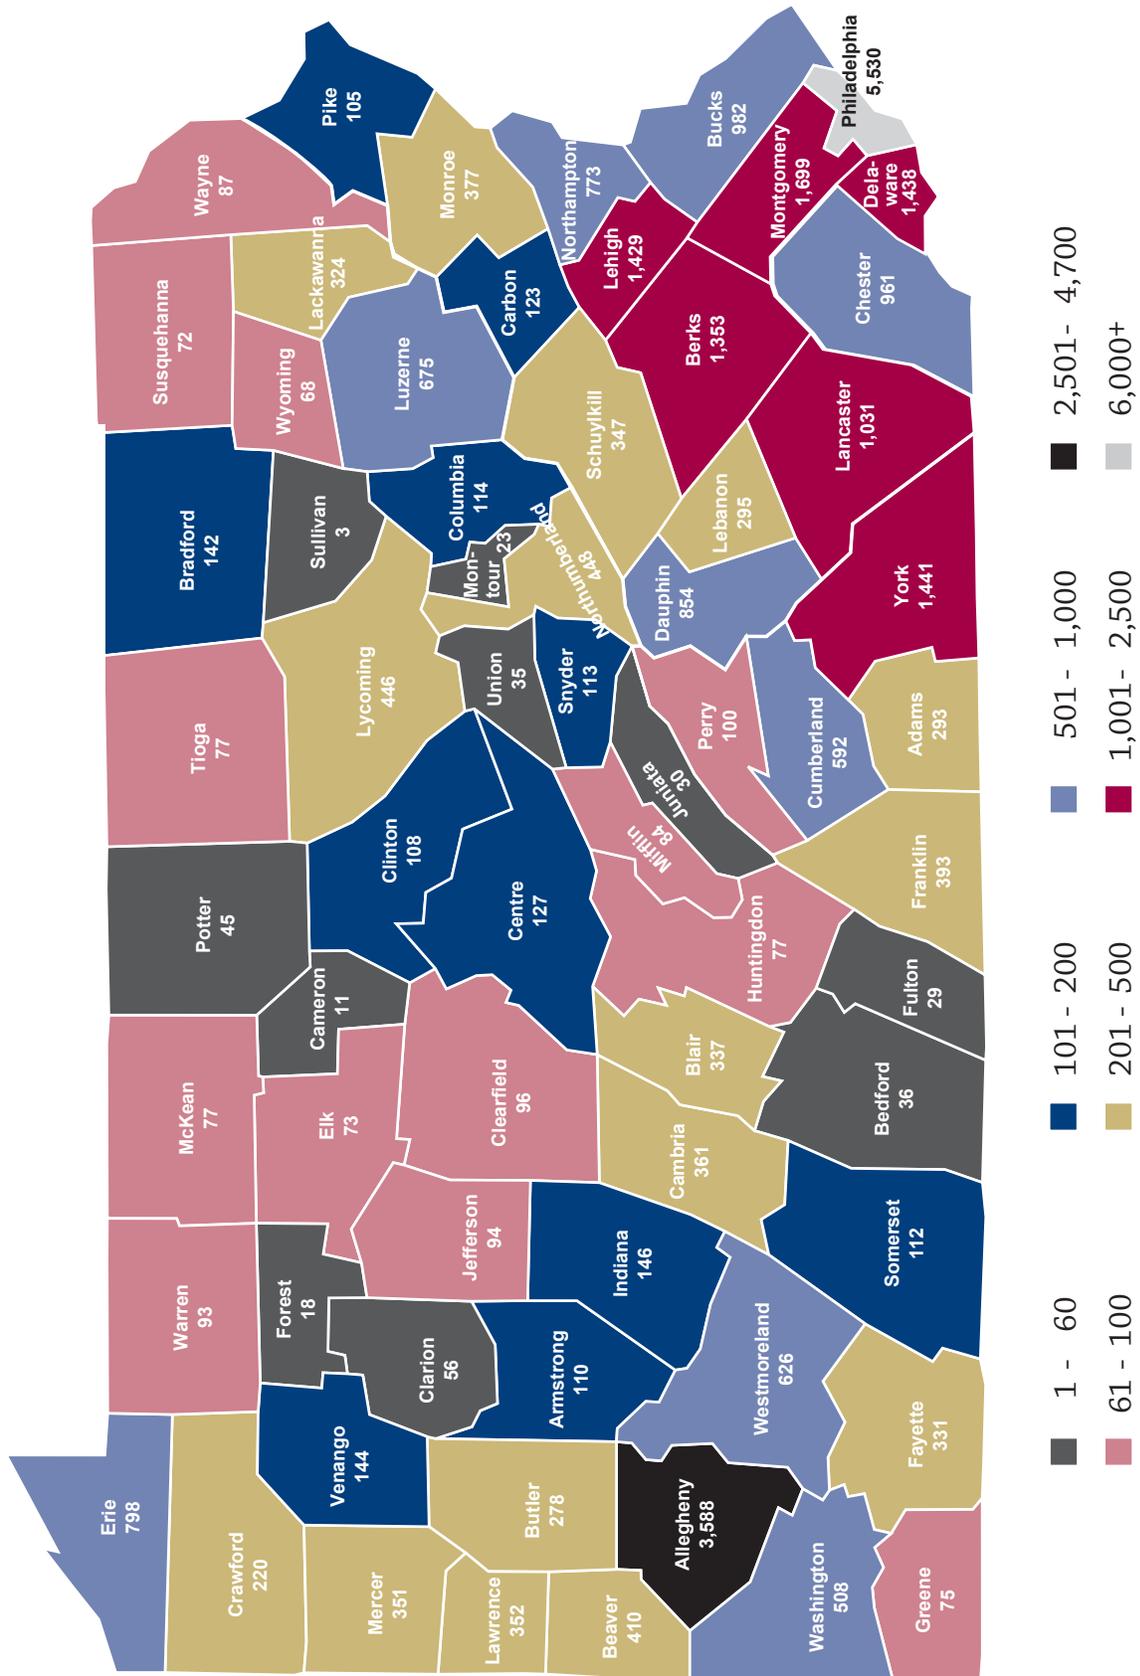

As in the past, to avoid confusion regarding the unit of count used in tabulating juvenile court statistics and to improve the understanding of how data can be interpreted, please note:

1. The primary unit of count is the *disposition*. A *disposition* is defined as an allegation disposed of by the juvenile probation department and/or the court. Within a single delinquency allegation, a youth may be charged with a number of offenses that may result in multiple petitions. Any one youth may be involved in a number of dispositions within a calendar year. In addition, a youth may be referred on more than one occasion and receive only one disposition. Dependency dispositions include only those referrals to probation departments alleging dependency that are not accompanied by allegations of delinquency. Therefore, one is cautioned NOT to attempt to interpret dispositions as the number of youth who are processed by the court or the number of offenses charged to juveniles.
2. There are times when you will see the word *case* used to describe the data. In this report, the word *case* is used interchangeably with the word *disposition*;
3. The *unit of count* refers to a case disposed of by a juvenile court and/or juvenile probation department. The term *disposed* means that a definite action/decision has been implemented or that a treatment plan has been decided upon or begun;
4. The statistical system is constructed to collect up to the seven (7) most serious offenses per delinquency disposition;
5. The Commission collects additional information on *placement reviews*, *disposition reviews*, and selected special conditions attached to a disposition. A *disposition review* is a hearing conducted before the court regarding a previous disposition which did not result in out-of-home placement. A *placement review* is a hearing conducted before the court regarding a previous disposition which did involve out-of-home placement.
6. The data in the secure detention section of this report were collected in conjunction with the JCJC Secure Detention Monitoring Program. This information should not be compared with detention data collected and reported prior to 1989.
7. The reader is cautioned that in the tables containing rows with “percent of total”, the row may not total 100 percent due to rounding.

Custom reports, including any information contained in tables included in previous reports that are not included in this report, can be obtained by contacting the Director of the Information and Technology Division at the Center for Juvenile Justice Training & Research at Shippensburg University, 717-477-1412. The report is available on the Juvenile Court Judges’ Commission’s website at www.jcjc.state.pa.us.

Delinquency Dispositions, 2011

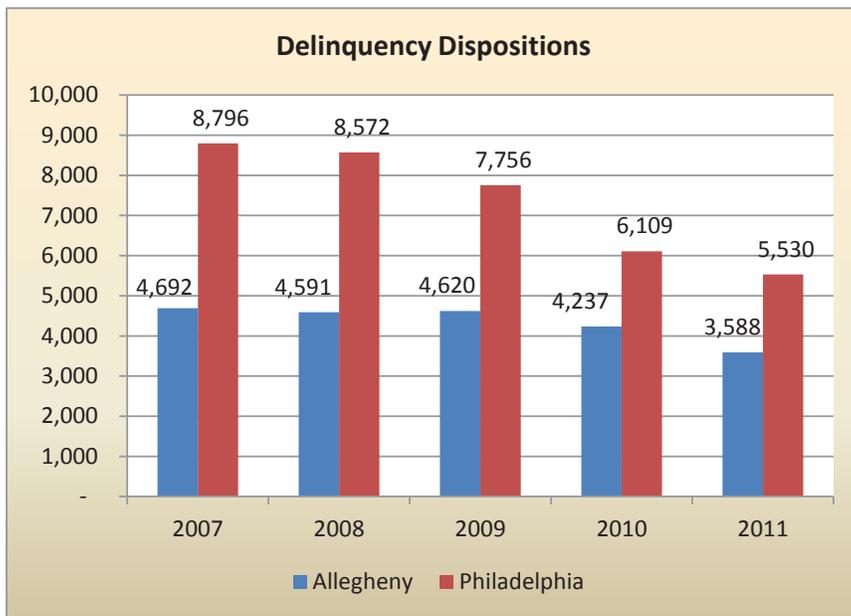

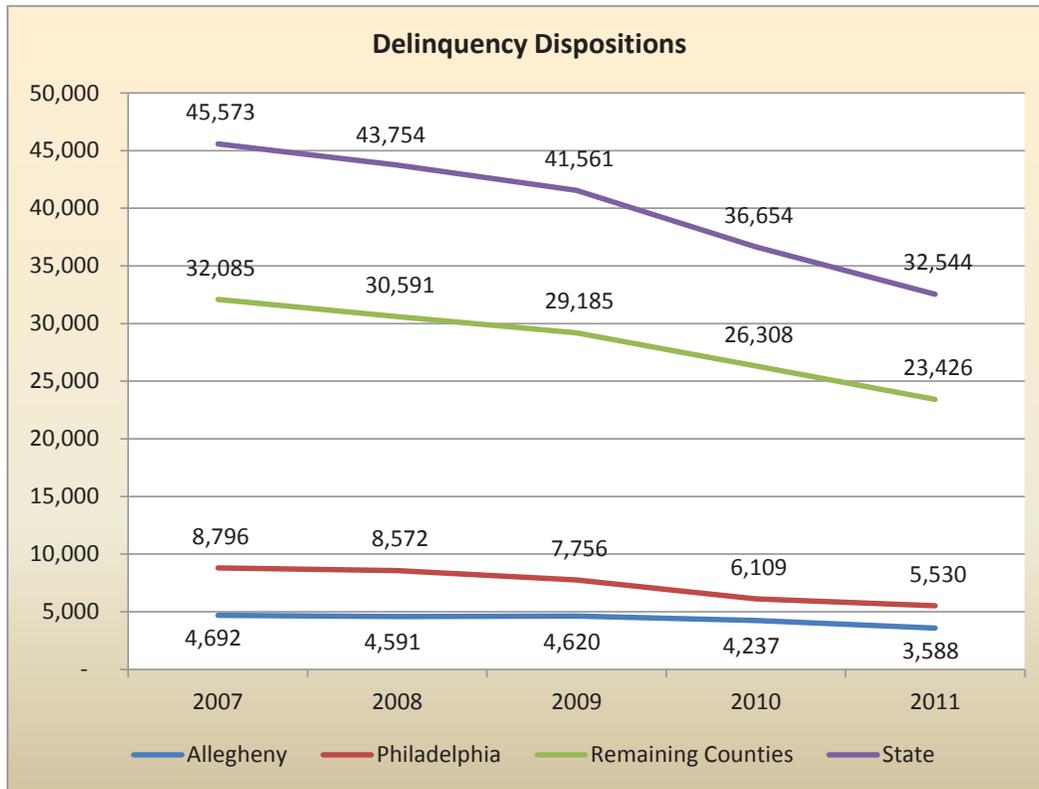

Delinquency Dispositions

Delinquency Dispositions, 2007-2011

There were 32,544 delinquency-related dispositions in Pennsylvania during 2011. This represents an 11.2% decrease from 2010 and a 28.6% decrease since 2007. A majority (54%) of the total dispositions occurred in the eight jurisdictions reporting more than 1,000 dispositions (see map on page 3).

Dispositions resulting from Disposition and Placement Reviews, and Dependency referrals are not included.

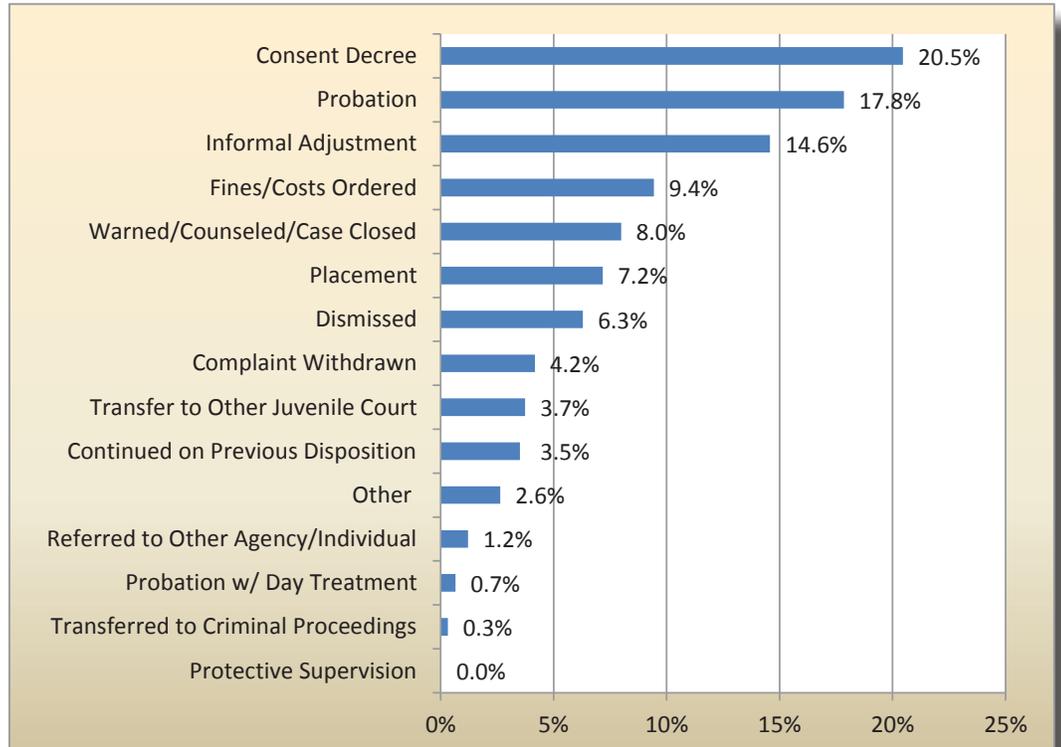

In the Commonwealth's largest jurisdictions, Allegheny County reported a decrease from 2010 of 15.3%, while Philadelphia reported a decrease of 9.5%.

Frequencies of Statewide Delinquency Dispositions

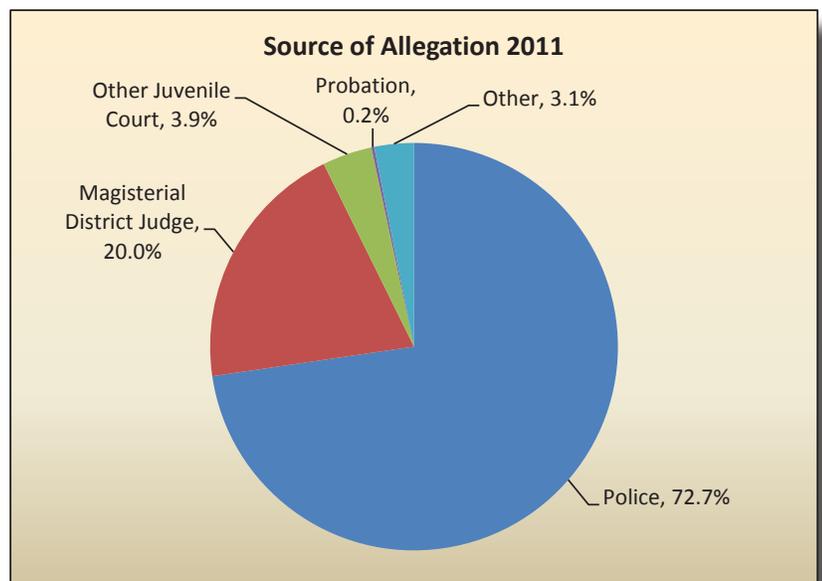

Consent Decree, Probation, and Informal Adjustment continue to be the most frequent dispositions, representing more than half (52.9%) of all dispositions. Informal Adjustment, Fines/Costs Ordered, and Complaint Withdrawn each decreased from 2010 levels of 15.6%, 10.6%, and 5.9%, respectively. Dispositions of Dismissed increased from 3.5% in 2010 to 6.3% in 2011, while Placement utilization remained relatively stable – 6.8% to 7.2% - from 2010 to 2011.

This data does not include dispositions resulting from Disposition or Placement Review hearings.

Source of Allegation

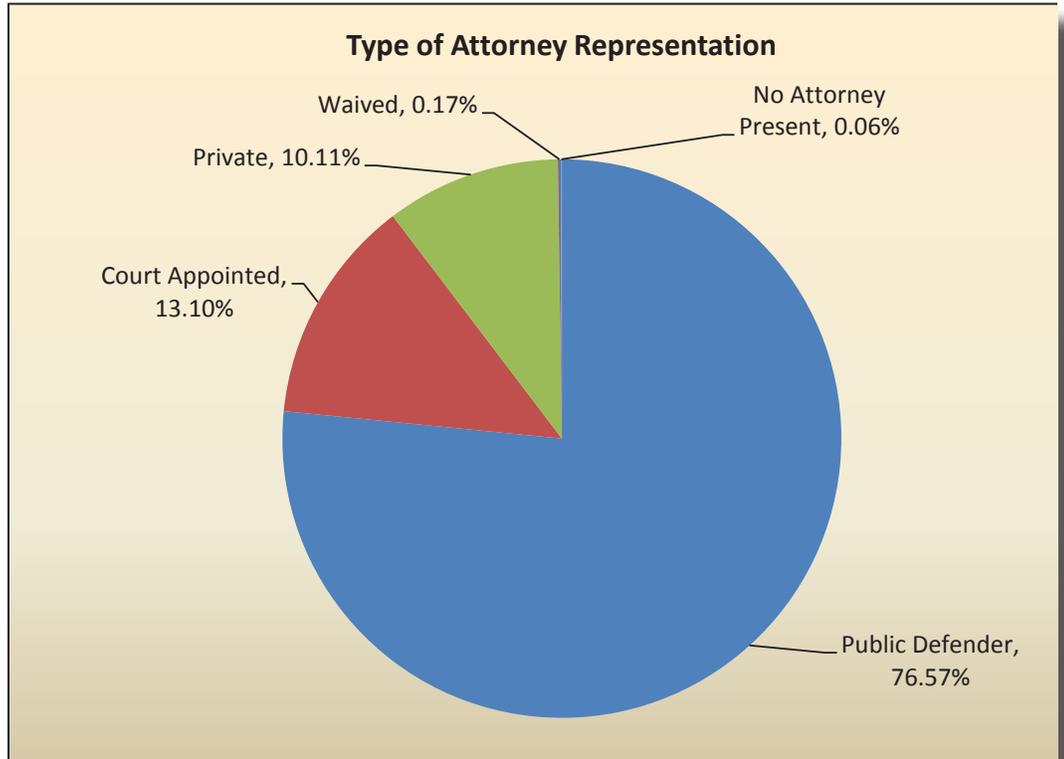

The Police and Magisterial District Judges continue to be the primary sources of delinquency allegations – 72.7% and 20% respectively. While Police referrals increased from 70.3% in 2010, Magisterial District Judge referrals decreased from 21.7%.

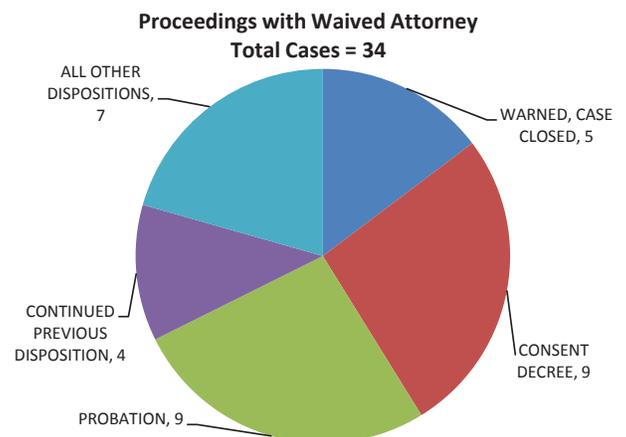

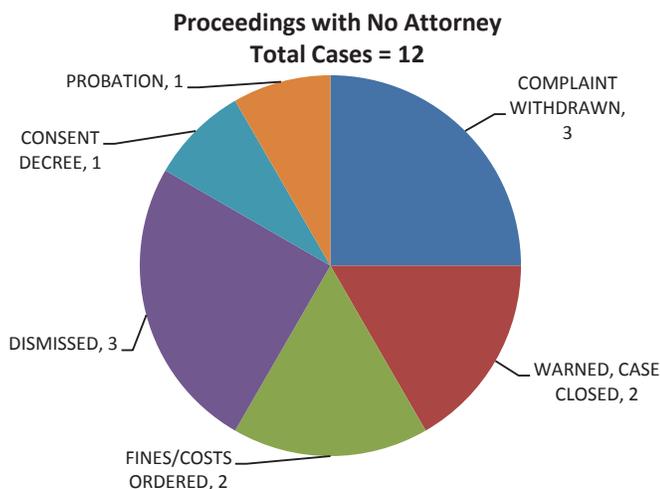

Attorney Representation in Formal Delinquency Proceedings, 2011

Legal representation provided by Public Defenders continued to be the most common form of representation in delinquency proceedings during 2011. Legal representation was provided by Court Appointed or Private Counsel in a little less than 1/4 of delinquency proceedings. (An entry of Court Appointed includes cases where counsel, other than the public defender, was appointed by the court.) Delinquency proceedings were conducted without defense counsel (waived or not present) in less than 1% of all delinquency proceedings.

A breakdown of dispositions where attorney representation was waived and where no attorney was present is shown in the accompanying charts. Of the 34 cases in 2011 in which an attorney was waived, 53% (18) of those cases resulted in a disposition of Consent Decree or Probation. Of the 12 cases in which an attorney was not present, approximately 83% (10) of those cases resulted in a disposition of Complaint Withdrawn, Warned, Case Closed, Fines/Costs Ordered, or Dismissed.

The data on attorney representation include only the dispositions that occurred at a formal proceeding, defined as a hearing held before a judge or master, after the filing of a petition. Informally handled cases, reviews, and dependency cases are not included.

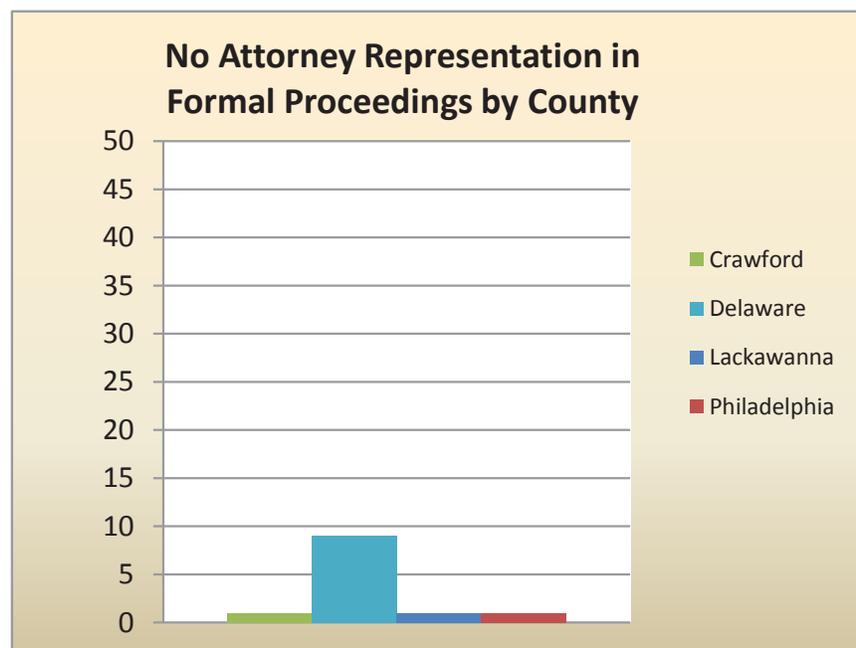

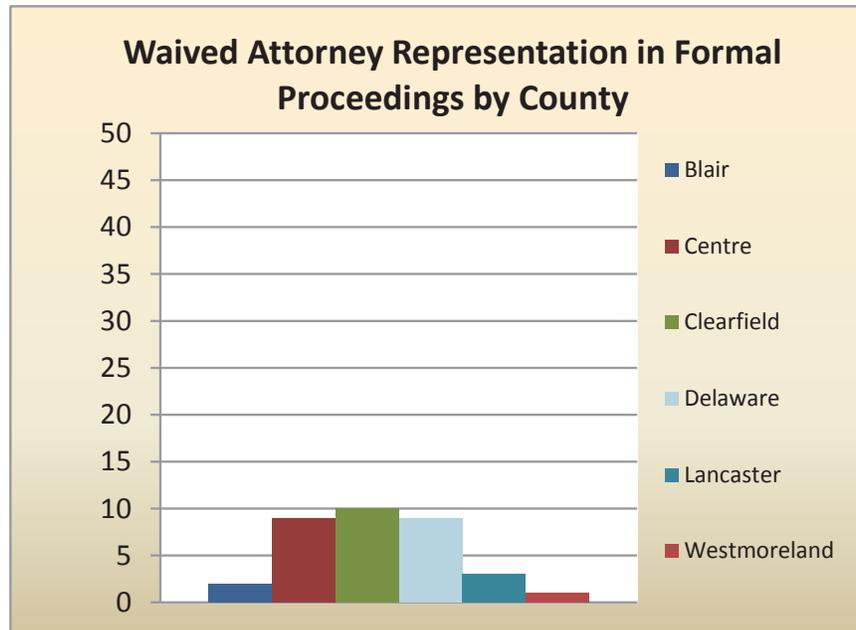

Counties with Dispositions Involving Formal Proceedings with Waived Attorney or No Attorney, 2011

Shown below are the counties that reported any dispositions with waived attorney or no attorney present. With the exception of Clearfield and Centre counties, the percentage of proceedings with waived representation is less than 2% of all formal proceedings in each of those counties.

The percentage of proceedings with no attorney present is less than 1% of all formal proceedings in the counties listed.

Median Time Lapse for Formal vs. Informal Proceedings by Type of Disposition, 2011

Statewide, cases handled through informal proceedings (48 days) were disposed of sooner than cases handled through formal proceedings (90 days). Significant distinctions in time lapse occurred with cases resulting in dispositions of Fines/Costs Ordered (almost 3 times as long for formal proceedings) and Continued on Previous Disposition (more than 4 times as long for formal proceedings).

A formal proceeding is defined as a hearing held before a judge or master, after the filing of a petition. The time lapse is measured from the Date of Allegation to the Date of Disposition.

NOTE: Does not include disposition and placement reviews.

Formal

(Note: In the 43 cases resulting in a disposition of Informal Adjustment, the petition was withdrawn at the hearing.)

TYPE OF DISPOSITION	NUMBER OF DISPOSITIONS	MEDIAN DAYS
TRANSFERRED TO CRIMINAL PROCEEDINGS	103	50.5
PROTECTIVE SUPERVISION	5	57.5
PLACEMENT	2,332	59.0
CONSENT DECREE	5,456	76.5
TRANSFER TO OTHER COURT	1,066	82.0
WARNED,CASE CLOSED	925	83.0
REFERRED TO AGENCY/INDIVIDUAL	16	84.0
PROBATION W/DAY TREATMENT	212	88.0
INFORMAL ADJUSTMENT	43	90.0
PROBATION	5,801	93.0
FINES/COSTS ORDERED	348	97.0
OTHER DISPOSITIONS	105	105.0
DISMISSED	1,924	114.0
COMPLAINT WITHDRAWN	649	117.5
CONTINUED PREVIOUS DISPOSITION	982	136.0
TOTAL	19,967	90.0

Informal

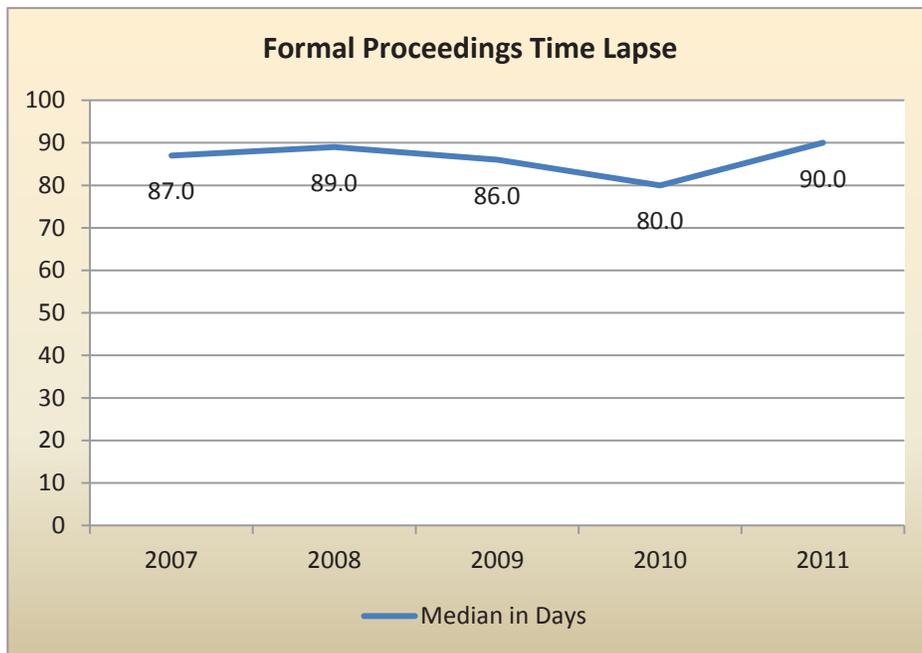

In cases resulting in a disposition of Probation (7) or Placement (3), the disposition was ordered by the court but no post-petition hearing was held.

TYPE OF DISPOSITION	NUMBER OF DISPOSITIONS	MEDIAN DAYS
REFERRED TO AGENCY/INDIVIDUAL	379	1.0
CONTINUED PREVIOUS DISPOSITION	158	28.5
FINES/COSTS ORDERED	2,722	35.0
TRANSFER TO OTHER COURT	149	38.5
PROTECTIVE SUPERVISION	1	42.0
OTHER DISPOSITIONS	752	46.0
INFORMAL ADJUSTMENT	4,700	55.0
WARNED, CASE CLOSED	1,673	64.0
COMPLAINT WITHDRAWN	707	70.0
CONSENT DECREE	1,202	71.0
DISMISSED	124	75.5
PROBATION	6	140.5
PLACEMENT	3	353.5
PROBATION W/ DAY TREATMENT	1	807.0
TOTAL	12,577	48.0

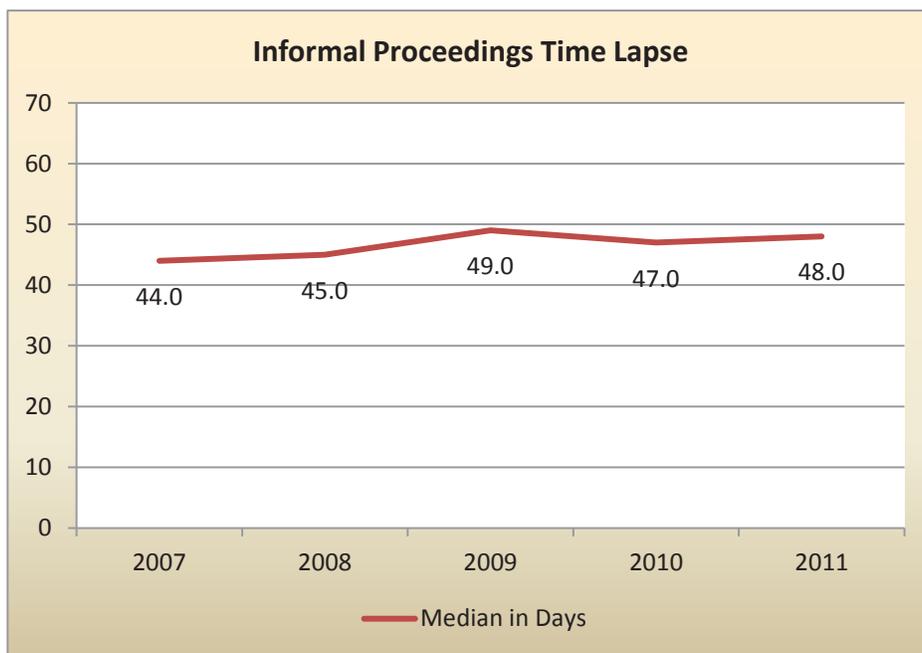

Median Time Lapse for Formal vs. Informal Proceedings, 2007-2011

As shown in the charts, the time lapse for formal proceedings has increased by 12.5% since 2010. This increase is related to specific increases in time lapse from 2010 for dispositions of Complaint Withdrawn (88 days in 2010) and Continued on Previous Disposition (79 days in 2010).

The time lapse for informal proceedings has remained fairly consistent since 2007.

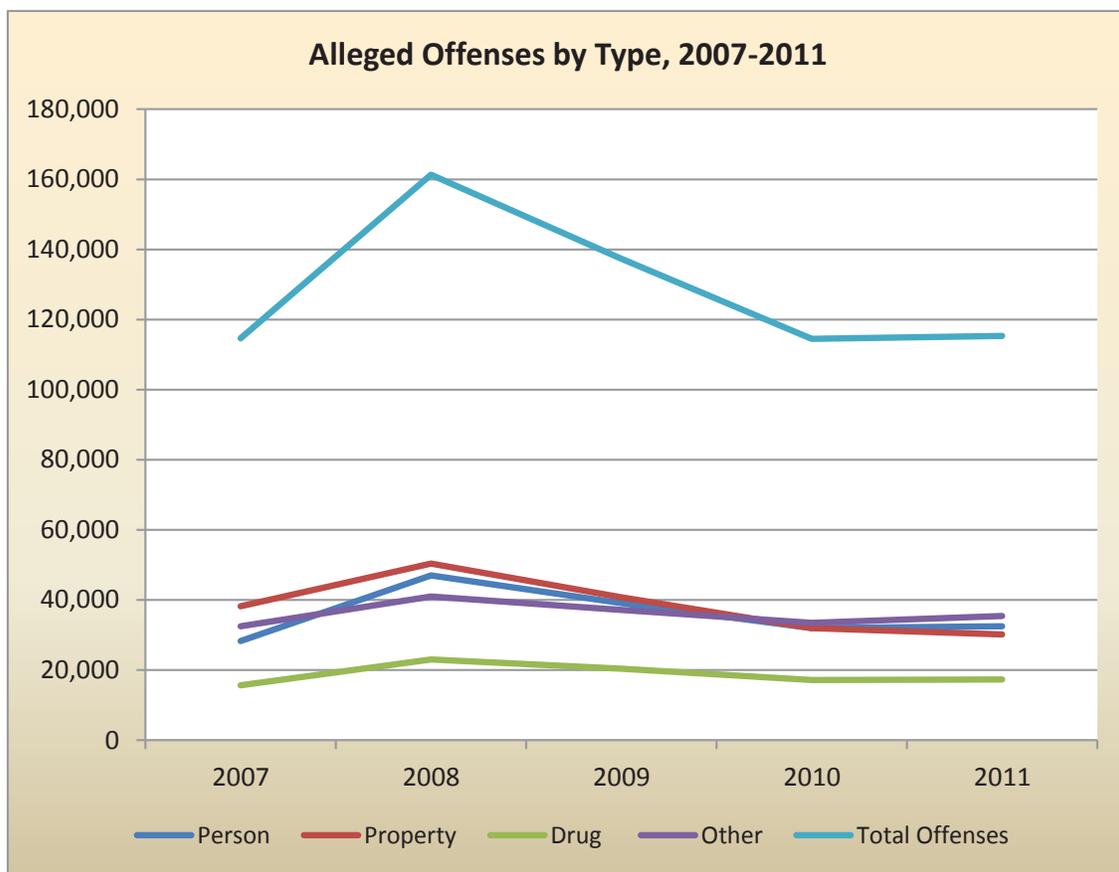

Alleged Offenses, 2007-2011

Alleged offenses have decreased by 9.6% from 2010 to 2011, and have decreased by 35.9% since 2008. Property offenses have shown the largest decrease (13.1%) from 2010, followed by Person offenses (12.6%) and Drug offenses (11.2%); “Other” offenses showed the smallest decrease (2.7%) from 2010. (*The “Other” offenses category includes, but is not limited to: Public Order offenses such as Disorderly Conduct or Weapon on School Property; Firearms Offenses; and Certifications from the minor judiciary that a juvenile failed to comply with a lawful sentence imposed for a summary offense*).

Overall, Person and Property offenses have shown the sharpest decline – decreases of 40.5% and 44.8% respectively – since 2008. Drug offenses have also declined significantly over the same time period, 33.9% overall. The decrease in all “Other” offenses has been less drastic, 20.6% since 2008.

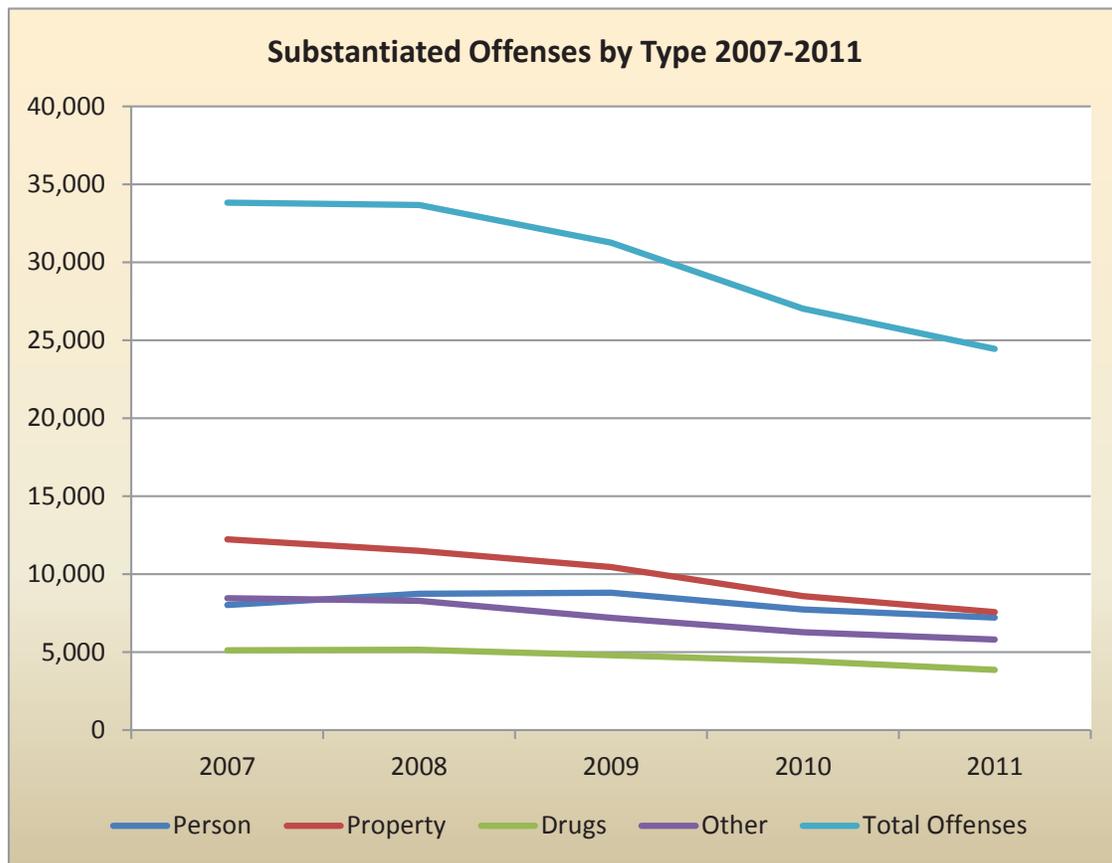

Note: (Beginning with the 1997 juvenile court dispositions report, the seven most serious charges per disposition have been collected. For this reason, the reader is cautioned not to compare the 2011 charge information to reports prior to 1997.)

Substantiated Offenses, 2007-2011

Substantiated offenses have decreased by 14.2% from 2010 to 2011. The largest decline occurred in the Drug offenses category (18.1%). Property offenses decreased 14.8%, while Person offenses decreased 13.7% and “Other” offenses decreased 11.4%. (The “Other” offenses category includes, but is not limited to: Public Order offenses such as Disorderly Conduct or Weapon on School Property; Firearms Offenses; and Certifications from the minor judiciary that a juvenile failed to comply with a lawful sentence imposed for a summary offense).

Similar to alleged offenses, the total number of substantiated offenses has steadily declined in recent years - 31.2% overall since 2008. Substantiated Property and all “Other” offenses have seen the most significant decline (36.3% and 32.9% respectively since 2008). Drug offenses have declined by 29.7% since 2008, while Person offenses have declined by 23.7% during the same time period.

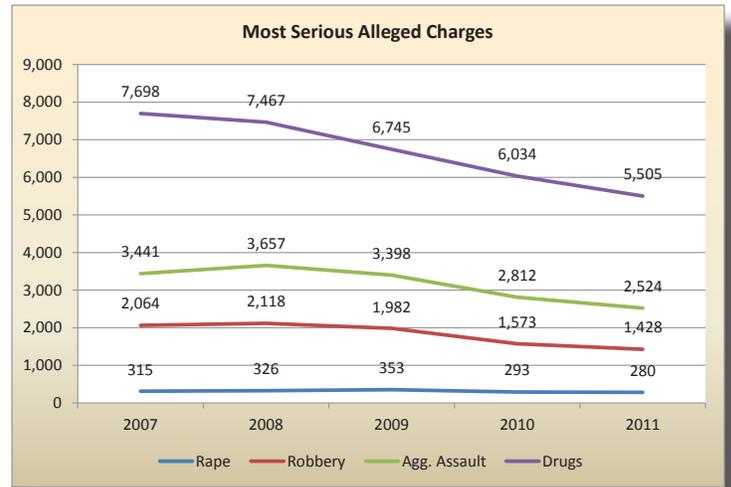

Note: (Beginning with the 1997 juvenile court dispositions report, the seven most serious charges per disposition have been collected. For this reason, the reader is cautioned not to compare the 2011 charge information to reports prior to 1997.)

Most Serious Offenses, 2007-2011

The chart at top right shows the statewide total of the most serious alleged charges from 2007-2011. Only the most serious of these charges per disposition is depicted. The Crime Severity key to the right shows the crime severity ranking employed for coding purposes. For instance, a disposition with an alleged drug charge and none of the other listed alleged charges (rape, robbery, aggravated assault) was counted in the drug category. A disposition with an alleged aggravated assault charge, and no alleged rape or robbery charges was counted in the aggravated assault category. A disposition with an alleged robbery charge and no alleged rape charge was counted in the robbery category. Any disposition with an alleged rape charge was counted in the rape category.

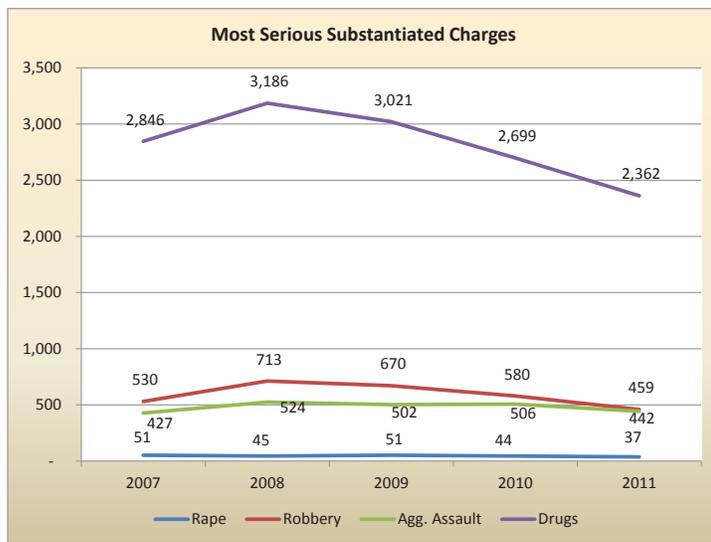

There were decreases in each of the most serious alleged charge categories from 2010 to 2011. Alleged aggravated assaults decreased by 10.2%, robbery and drug charges decreased by 9.2% and 8.8% respectively, while rape charges decreased by 4.4%.

Note: (Beginning with the 1997 juvenile court dispositions report, the seven most serious charges per disposition have been collected. For this reason, the reader is cautioned not to compare the 2011 charge information to reports prior to 1997.)

CRIME SEVERITY

1. Rape
2. Robbery
3. Aggravated Assault
4. Drug

Note: (Beginning with the 1997 juvenile court dispositions report, the seven most serious charges per disposition have been collected. For this reason, the reader is cautioned not to compare the 2011 charge information to reports prior to 1997.)

The chart at left shows the most serious substantiated charges. The same Crime Severity Ranking methodology utilized for coding alleged offenses was employed here.

Similar to alleged charges, each category of substantiated offenses also decreased from 2010 to 2011. Substantiated robberies decreased by 20.9%, and rape charges decreased by 15.9%, while aggravated assault and drug charges decreased by 12.6% and 12.5% respectively.

Secure Detention Overview

The Juvenile Court Judges' Commission's "Standards Governing the Use of Secure Detention Under the Juvenile Act" were developed to guide decision making regarding juvenile detention usage in Pennsylvania's juvenile justice system. Compliance with these standards is required for counties participating in the Commission's Grant-in-Aid Program, with the exception of Philadelphia.

In accordance with the Standards Governing Secure Detention, all counties report their secure detention admissions to the Juvenile Court Judges' Commission. Detention information appearing in this Disposition Report was extracted from either the Pennsylvania Juvenile Case Management System or the secure detention database at the Center for Juvenile Justice Training and Research. The secure detention database is populated with data reported directly from juvenile detention centers each month.

When interpreting the data contained in these tables, the reader should note the following:

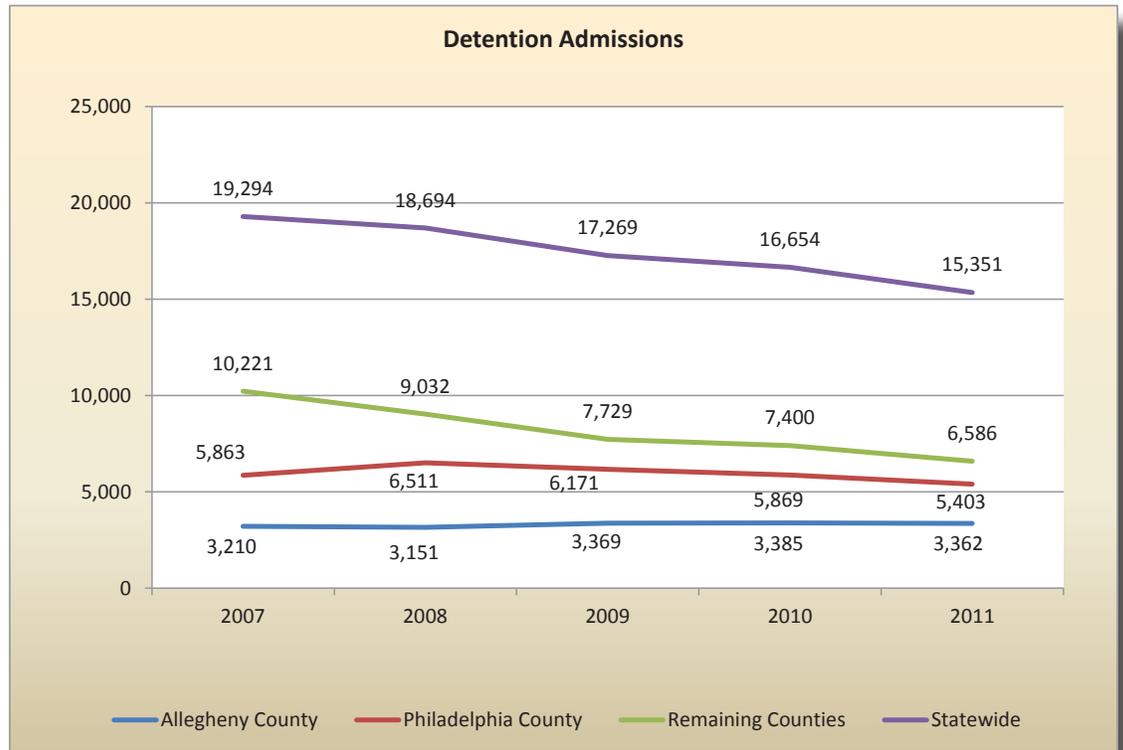

1. The unit of count is the admission of a juvenile to a secure detention center;
2. A juvenile who is admitted to a secure detention center and subsequently transferred to another secure detention center without release is counted as two admissions.

Secure Detention Admissions, 2007-2011

Statewide, detention admissions have declined each year since 2007. This represents a 20.4% overall decrease since 2007. Admissions in all counties other than Allegheny and Philadelphia also decreased each year, representing an even more significant overall decrease - 35.6% since 2007.

Philadelphia and Allegheny County account for 35.2% and 21.9%, respectively, of all secure detention admissions.

Detention admission trends in Allegheny County and Philadelphia were not as stable over this time period as in other jurisdictions. While Allegheny County and Philadelphia reported similar net increases in detention admissions from 2007 to 2009 (5.0% and 5.3%, respectively), in 2008 Allegheny County had a low in detention admissions, while Philadelphia reported its highest number, for the time period. From 2007 to 2011, there was a 4.7% increase in detention admissions in Allegheny County, and a 7.8% decrease in Philadelphia.

PERCENTAGE CHANGE OF DETENTION ADMISSIONS				
	07-08	08-09	09-10	10-11
STATEWIDE	-3.1	-7.6	-3.6	-7.8%
ALLEGHENY	-1.8	+6.9	+0.5	-0.7%
PHILADELPHIA	+11.1	-5.2	-4.9	-7.9%
REMAINING COUNTIES	-11.6	-14.4	-4.3	-11.0%

Length of Stay in Secure Detention, 2011

In 2011, the statewide median length of stay in secure detention was 6 days, which is a decrease of 3 days from 2010. The table below shows the median length of stay by county, from greatest to least number of days. Multiple counties with identical length of stay are listed alphabetically. This data, sorted by greatest to least number of admissions, can be found in the appendix.

COUNTY	NUMBER OF ADMISSIONS	MEDIAN LENGTH OF STAY IN DAYS
SULLIVAN	2	51.0
BUTLER	7	48.0
PIKE	14	35.5
UNION	4	26.5

NOTE: This table only includes those admissions for which a date of release was reported.

* Includes 334 secure detention admissions to Jefferson Detention Center in Ohio by the following counties: Beaver (100);Butler (7);Fayette (28);Washington (199).

Codes Related to JCJC Standards Governing the Use of Secure Detention Under The Juvenile Act

Each month, all juvenile detention centers, with the exception of the Youth Study Center in Philadelphia, report a Statement of Facts and Reasons that must accompany every probation-authorized admission to secure detention. Below are the Section Codes related to this process. Philadelphia data is not included in any charts presenting information pertaining to particular JCJC Detention Standard Codes.

- 100 Codes** Circumstances under which secure detention may be authorized on the basis of an alleged offense or on the basis of an alleged offense and the child's current status with the court or prior record.

- 200 Codes** Circumstances under which secure detention may be authorized on the basis of a child's status as an absconder or fugitive; on the basis of a child's record of failing to appear at previous juvenile proceedings; or because of extraordinary circumstances which require secure detention to prevent a child from absconding.

- 300 Codes** Circumstances under which secure detention may be authorized on the written request of the child or child's attorney.

- 400 Codes** Circumstances under which secure detention may be ordered pending disposition, subsequent to a finding that a child committed a delinquent act or is a delinquent child.

- 500 Codes** Circumstances under which secure detention may be ordered following disposition pending transfer to placement.

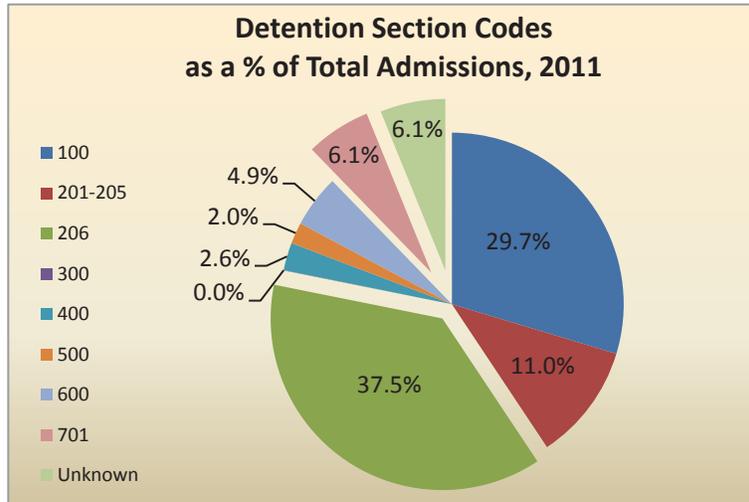

- 600 Codes** Circumstances under which secure detention may be authorized on the basis of the child's status, pending or subsequent to a disposition review proceeding.

- Code 701** Circumstances under which secure detention may be authorized on the basis of extraordinary and exceptional circumstances.

Secure Detention Admissions by Standard Section Codes

In 2011, the overwhelming majority of secure detention admissions were authorized under the 100 and 200 Codes – 29.7 and 48.5% respectively. This trend has remained constant since 2007.

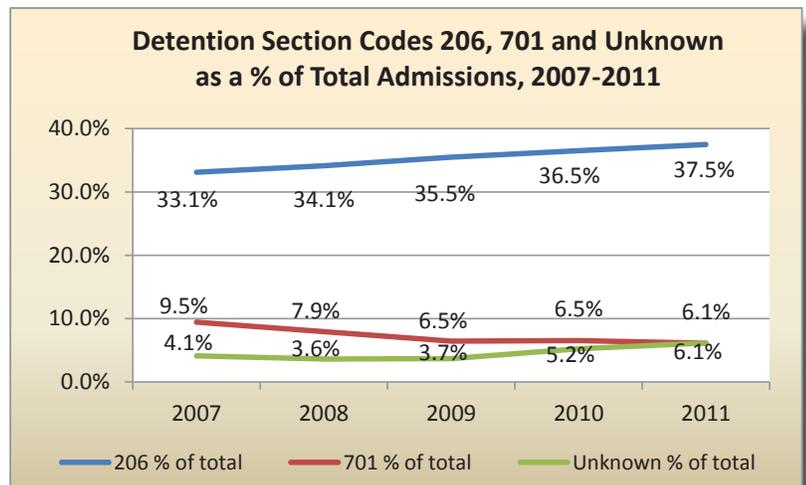

Special attention is given to the utilization of Codes 206, 701, and Unknown. In instances where secure detention is authorized under Codes 206 or 701, the juvenile probation officer is required to provide a detailed written explanation of the reasons that necessitate secure detention. These codes were intended to be utilized in limited circumstances where none of the other codes are applicable.

Code 206 - The child presents extraordinary circumstances requiring secure detention to prevent him/her from absconding. (Such circumstances may include, but are not limited to: the child's age, character, mental condition, ties to the community, the nature of the child's family relationships, drug or alcohol addiction and substance abuse.)

Code 701 - Circumstances under which secure detention may be authorized on the basis of extraordinary and exceptional circumstances.

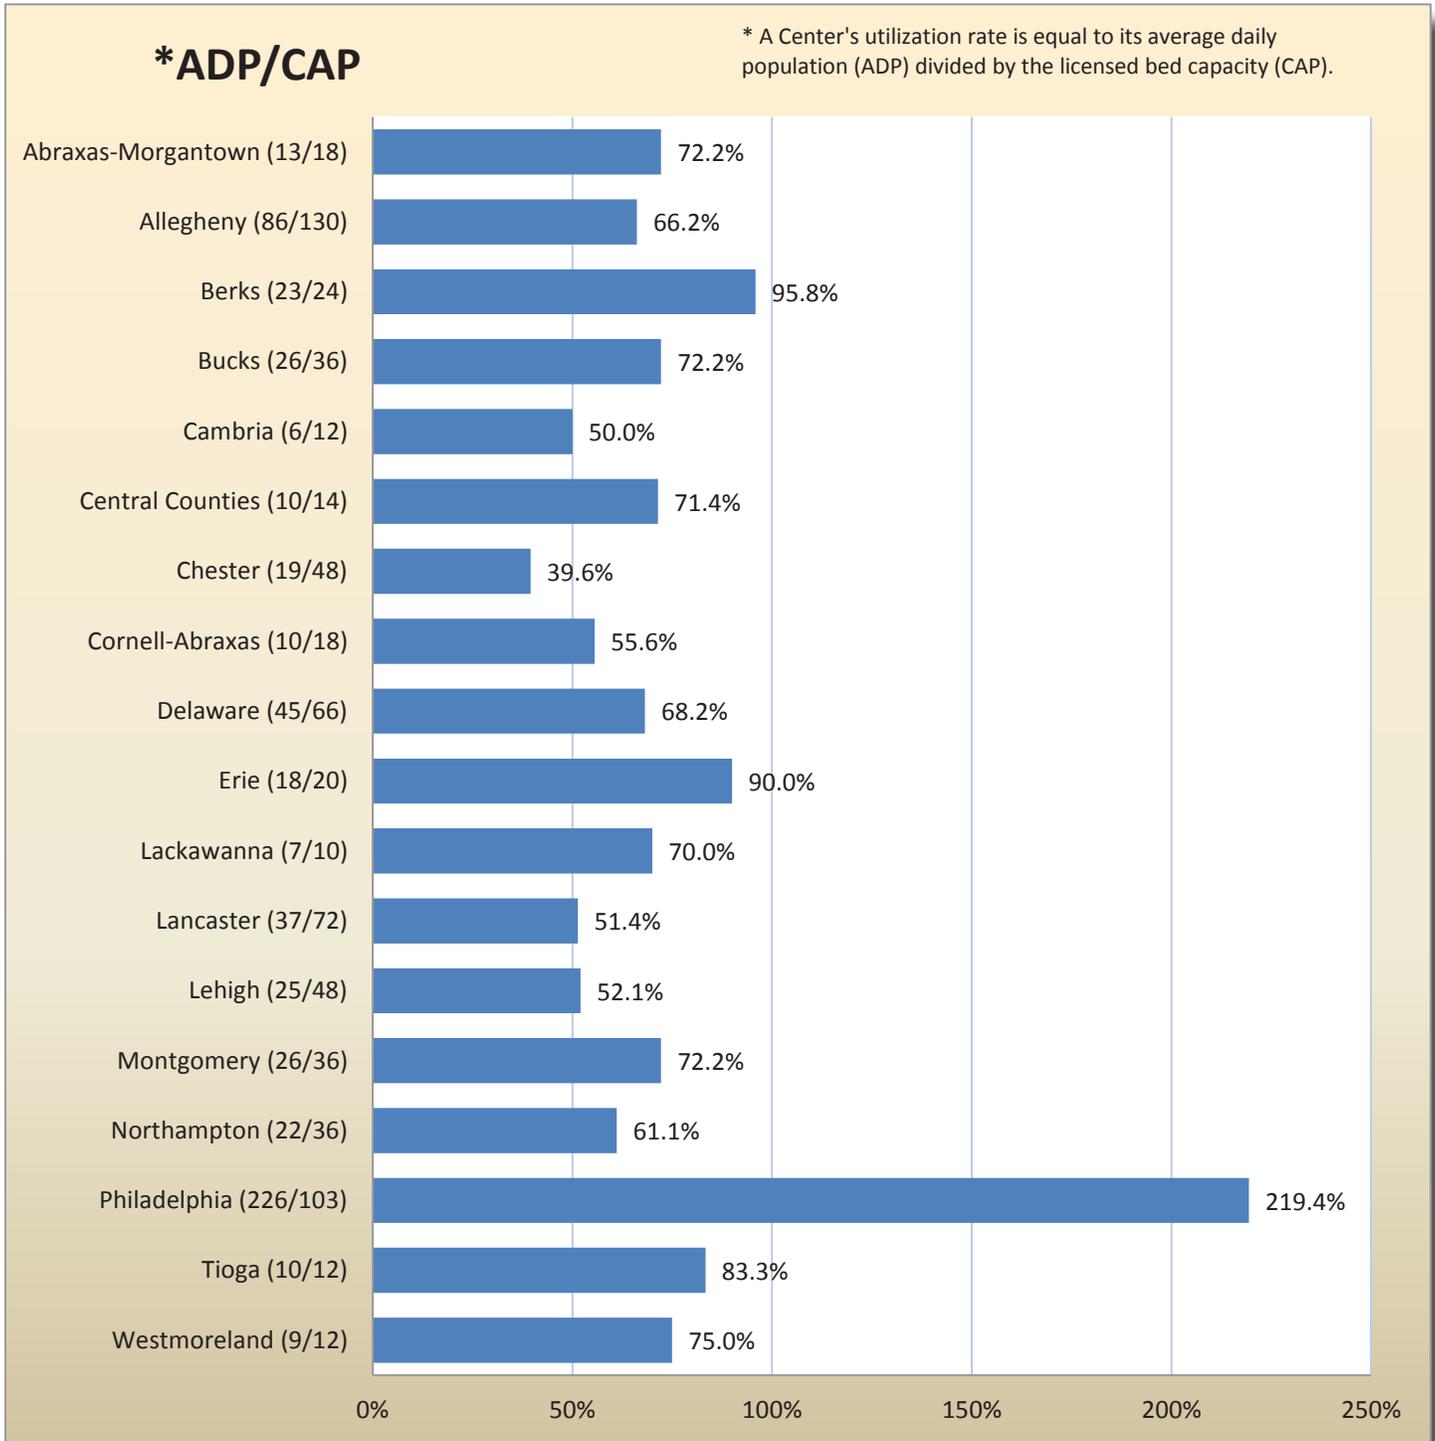

The reporting of Unknown, as shown in this report, indicates that a code was not reported to the JCJC. Secure detention admissions that are authorized without codes are not in compliance with JCJC Standards.

The utilization of Codes 206, 701, as well as admissions with an Unknown code, accounted for 49.7% of all secure detention admissions in 2011. Since 2007, the utilization of Code 206 has increased each year – from 33.1% of total admissions in 2007 to 37.5% in 2011. Conversely, however, the utilization of Code 701 as a percentage of total admissions has decreased over the same time period – from 9.5% in 2007 to 6.1% in 2011.

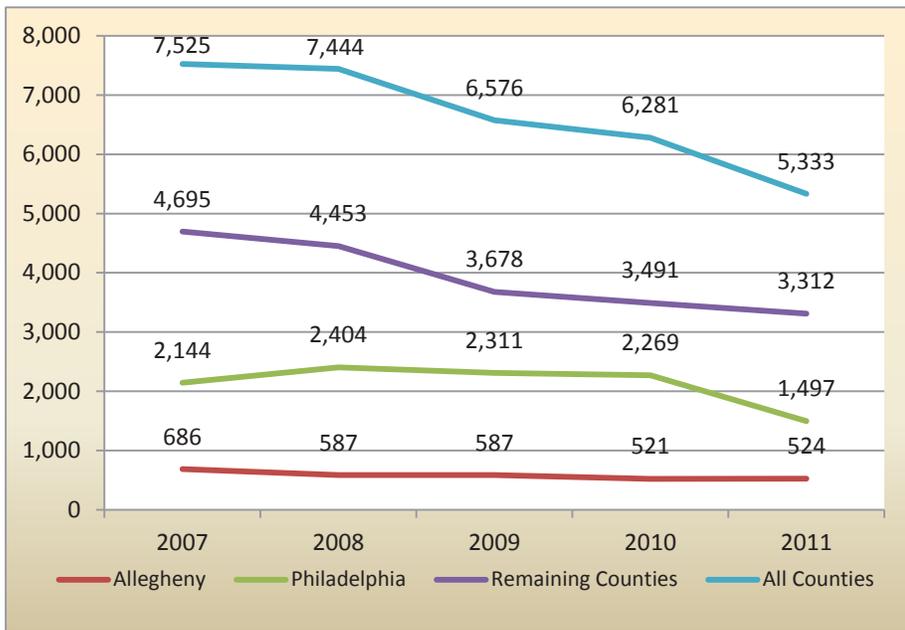

Utilization Rates for Pennsylvania Juvenile Detention Centers, 2011

Delinquency Placements including Disposition Reviews, 2007-2011

Statewide, delinquency placements have declined each year since 2007, with an overall decrease of 29.1%. Placements in all counties other than Allegheny and Philadelphia decreased each year since 2007 representing an overall decrease of 29.5% in these jurisdictions. Delinquency placements in Allegheny County increased slightly (0.6%) from 2010 to 2011; however, since 2007, placements show a decrease of 23.6%. Placements in Philadelphia peaked in 2008, and then decreased significantly (34.0%) from 2010 to 2011.

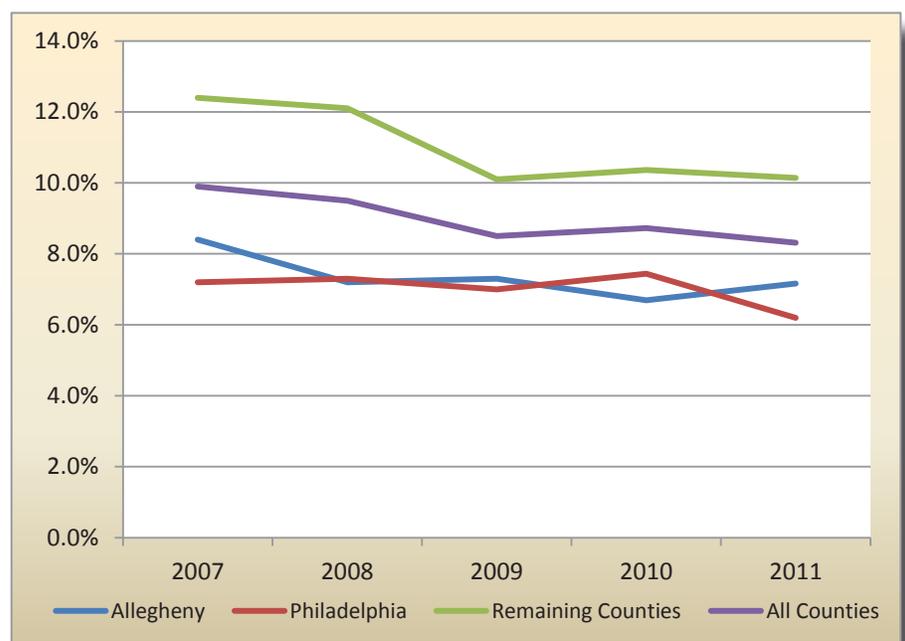

Statewide, delinquency placements have declined each year since 2007, with an overall decrease of 29.1%. Placements in all counties other than Allegheny and Philadelphia decreased each year since 2007 representing an overall decrease of 29.5% in these jurisdictions. Delinquency placements in Allegheny County increased slightly (0.6%) from 2010 to 2011; however, since 2007, placements show a decrease of 23.6%. Placements in Philadelphia peaked in 2008, and then decreased significantly (34.0%) from 2010 to 2011.

Delinquency Placements as a Percent of Dispositions, 2007-2011

The number of placements as a percentage of total dispositions, including disposition reviews, decreased from 2010 (8.7%) to 2011 (8.3%). The largest decrease occurred in Philadelphia - 7.4% to 6.2%. Allegheny County placements, as a percentage of total dispositions, increased only slightly from 6.7% in 2010 to 7.2% in 2011. In all other counties other than Allegheny and Philadelphia, the percentage has remained fairly stable, at approximately 10% since 2009.

See the map on the next page for individual county delinquency placements as a percentage of total dispositions.

New Allegation Placements vs. Disposition Review Placements

The following chart depicts the relative percentage of placements that resulted from new allegations versus disposition review proceedings. A *disposition review* is a hearing conducted by the court regarding a previous disposition which did not result in out-of-home placement.

The percentage of both new allegations and disposition reviews of total placements is shown for each county by Class County.

Statewide, the majority of delinquency placements (56.2%) were ordered as a result of a disposition review. This figure, however, is significantly impacted by Philadelphia, which accounts for 28.1% of all delinquency placements statewide, and where 81.3% of all delinquency placements were ordered as a result of a disposition review.

Across all other Class County groups, the average distribution of delinquency placements is 53.6% from new allegations and 46.4% from disposition reviews. Philadelphia, Allegheny and Class 7 are the only Class County groups with a majority of delinquency placements originating from disposition reviews.

Sullivan County is not shown because this county reported zero delinquency placement dispositions in 2011.

Total Delinquency Placements by Type, 2011 Including Disposition Reviews

Delinquency placements to private institutions continue to represent the most frequent type of delinquency placements in 2011 - more than 46% of all placements. Commitments to group homes, as well as drug and alcohol programs, represented 25% of all delinquency placements, while wilderness-based, boot camp and all secure programs (private and DPW/YDC) comprised another 17.7%.

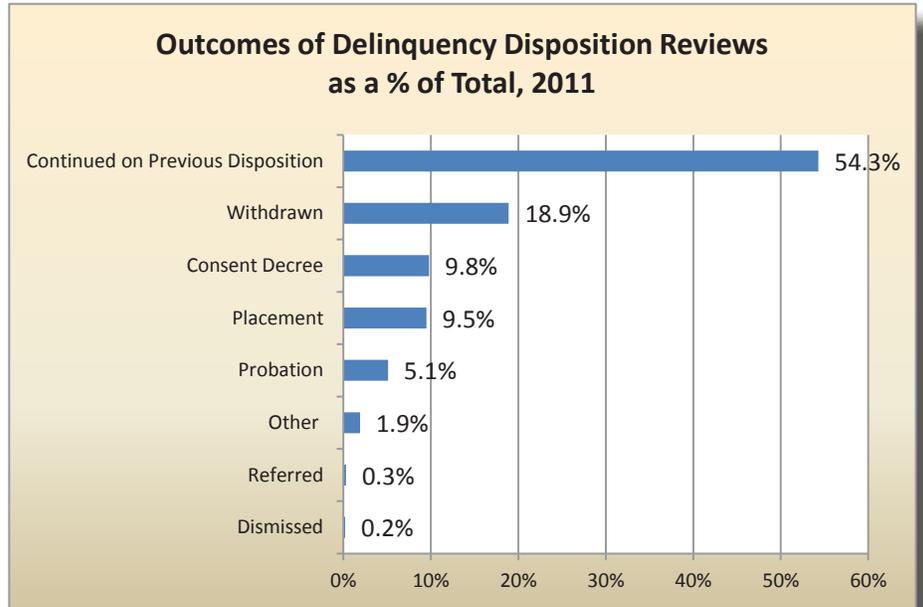

These percentages remained consistent with the 2010 placements.

Outcomes of Delinquency Disposition Reviews, 2011

Although the majority of delinquency placements resulted from disposition reviews (see page 21), only 1 in 10 disposition review proceedings resulted in a delinquency placement. The vast majority of disposition reviews resulted in an order of Continued on Previous Disposition. “Withdrawn” indicates that the motion for review was withdrawn at the hearing.

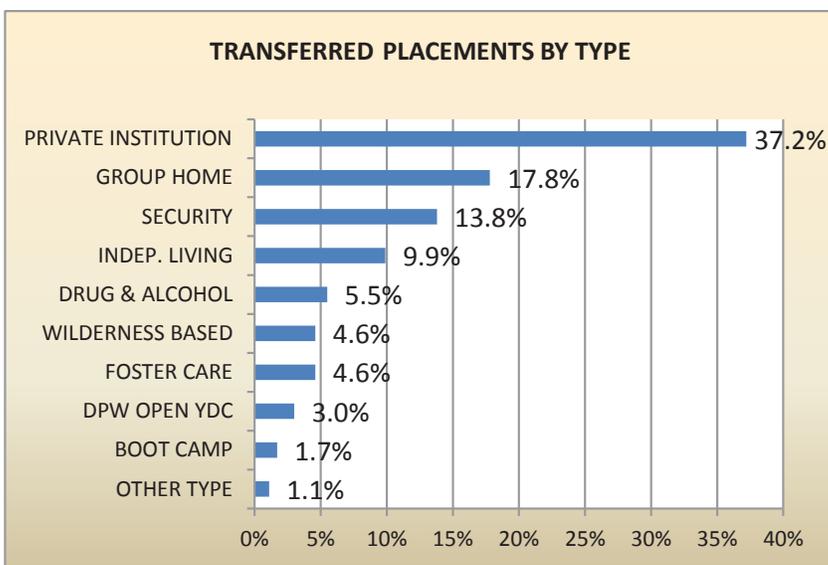

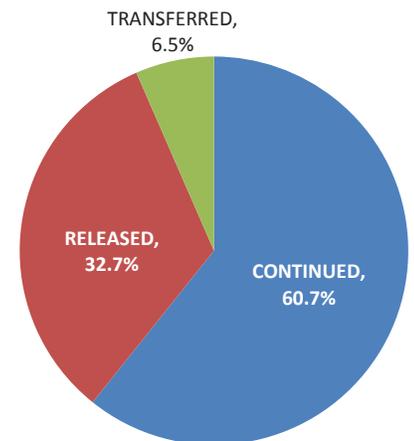

Outcomes of Delinquency Placement Reviews, 2011

A placement review is a hearing conducted by the court regarding a previous disposition which resulted in out-of-home placement.

The majority of delinquency placement review proceedings resulted in an order of “Continued in Previous Placement”.

In the small percentage of placement reviews in which a transfer to another placement was ordered, most transfers were to a “private institution”.

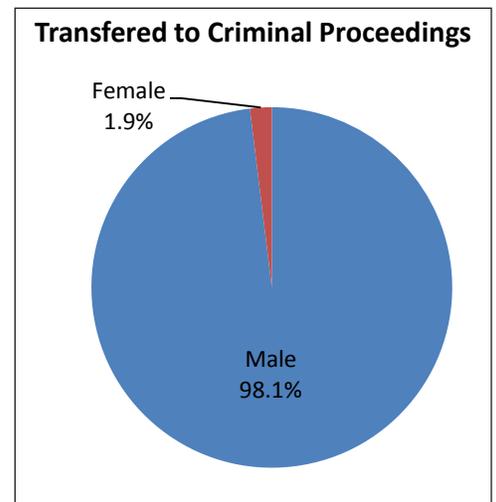

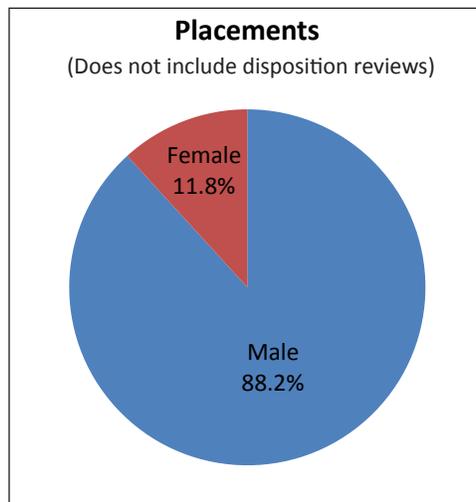

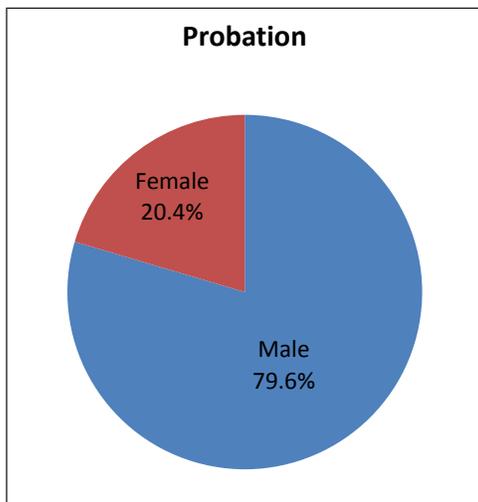

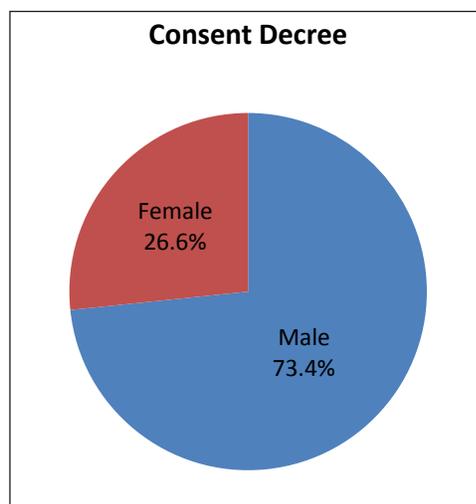

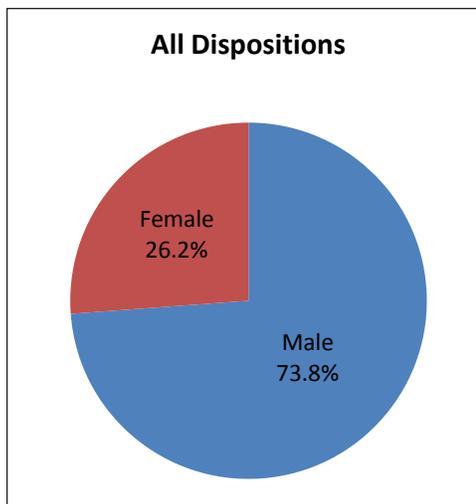

Selected Dispositions by Gender, 2011

Juvenile Court dispositions in Pennsylvania continue to primarily involve males. As reflected in the charts, the proportion of delinquency dispositions involving males increases as a case penetrates further through the juvenile justice system. The distribution of dispositions by gender for 2011 has remained relatively stable from 2010 figures.

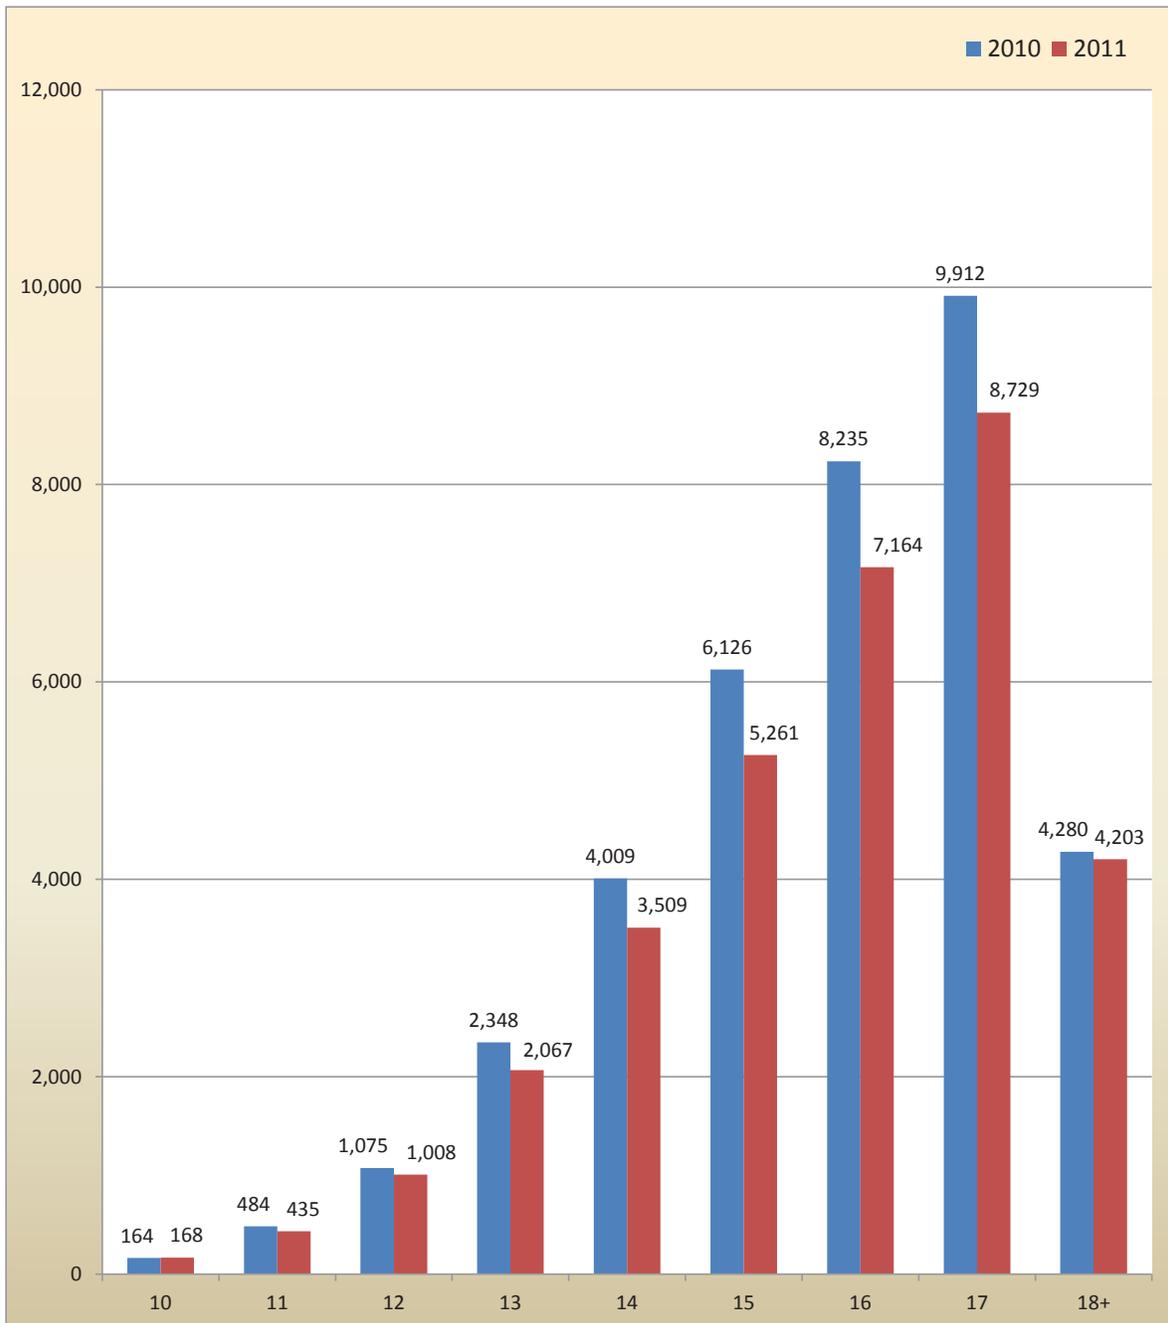

SELECTED DISPOSITIONS	TOTAL
ALL DISPOSITIONS	32,544
CONSENT DECREE	6,658
PROBATION	6,020
PLACEMENTS	2,335
TRANSFERRED TO CRIMINAL PROCEEDINGS	103

Total Dispositions by Age, 2010-2011

Seventeen-year olds accounted for 8,729 (26.8%) of all juvenile delinquency dispositions in 2011, representing the most dispositions for any age group. Juveniles who were age 16 accounted for 7,164 (22.0%), while juveniles who were age 15 accounted for 5,261 (16.2%) of the dispositions. This data remains consistent with that of 2010, in which seventeen year olds accounted for 25.4%, sixteen year olds accounted for 21.1% and fifteen year olds accounted for 15.7% of juvenile delinquency dispositions. Ten-year olds is the only age group in which there was an increase in the number of dispositions in 2011.

This table reflects the age of the juvenile at the time of disposition.
 Note: Does not include disposition and placement reviews.

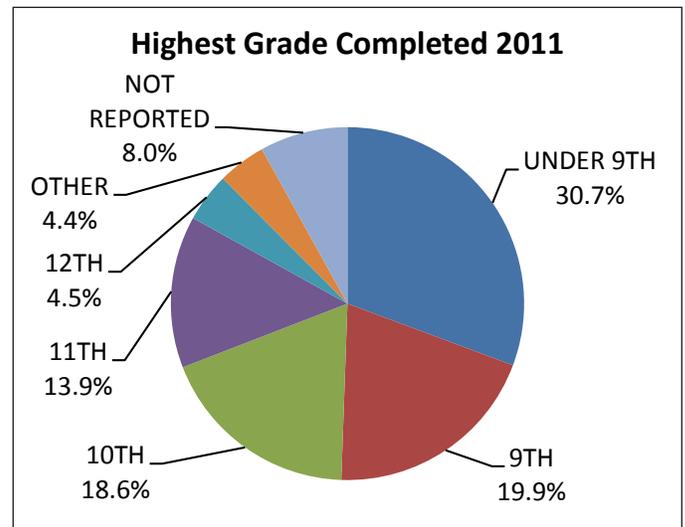

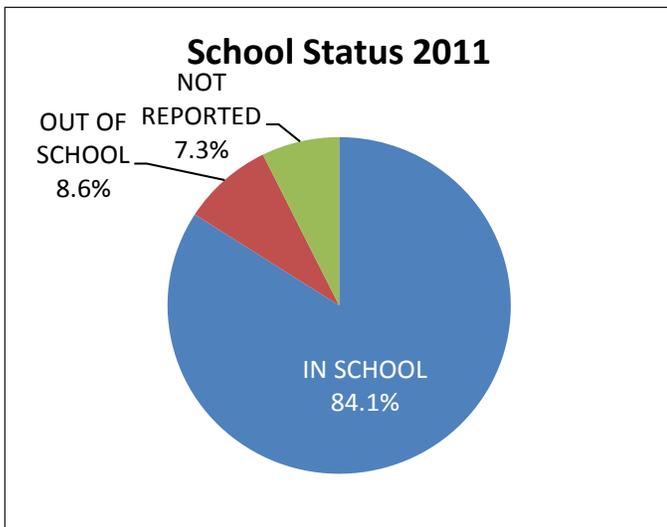

Total Dispositions by Selected Variables, 2011

The following charts reflect the distribution for all juvenile delinquency dispositions in 2011 by the selected variables. JCJC only requires the reporting of educational status and family status variables when a hearing occurs and/or the juvenile is seen by a juvenile probation officer. Therefore, the category “Not Reported” is listed.

Note: The data on pages 27 and 28 does not include disposition and placement reviews.

Educational Status

The vast majority of delinquency dispositions in 2011 were for youth reported as “In School” at the time of disposition. Nearly 61% of youth were reported as having completed grades 9, 10, 11 or 12 or as being in an “Other” educational program. This figure is interesting when contrasted with the data on dispositions by age, where 78% of all dispositions were for youth ages 15-18 or older (typical ages for grades 9, 10, 11 or 12). This gap of 17% could be indicative of low academic performance, and falling behind grade level, which is a common correlate of delinquency. The category of “Other” could include a college or technical school, or an alternative education setting such as home schooling or night classes.

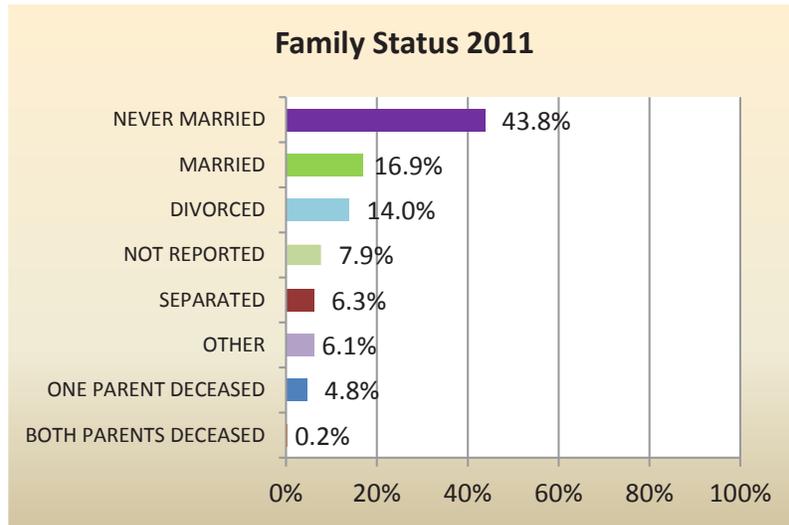

Total Dispositions by Selected Variables, 2011

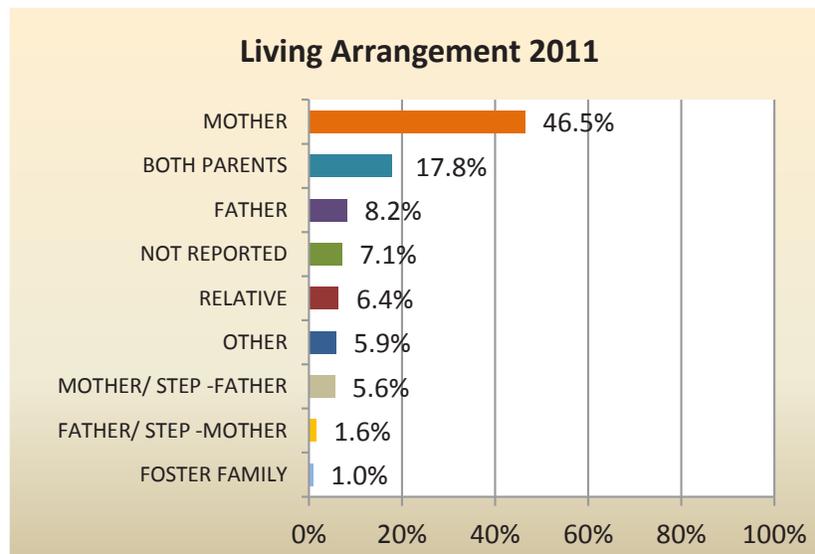

Family Status

In juvenile delinquency dispositions, youth whose biological parents were reported as Never Married represents the largest group – more than 43%. In only 17% of cases, the biological parents were reported as Married at the time of disposition.

Note: The data on pages 27 and 28 does not include disposition and placement reviews.

The trends regarding the living arrangements of juveniles are as glaring. Nearly 47% of youth resided only with their mother, while only 17.8% of juveniles reside with both biological parents.

Race and Ethnicity

On the following pages, data on race and ethnicity trends related to Juvenile Court dispositions are provided. A few points of clarification regarding the reading and interpreting of this data should be noted.

The Juvenile Court Judges' Commission's Center for Juvenile Justice Training and Research collects data on race and ethnicity from each of Pennsylvania's 67 counties. The collection of this data is done in concert with the protocols outlined in *Guidelines for Collecting & Recording the Race and Ethnicity of Juveniles in Conjunction with Juvenile Delinquency Disposition Reporting to the Juvenile Court Judges' Commission* (National Center for Juvenile Justice, 2006). As such, race and ethnicity are collected and recorded as two separate and distinct sets of data.

For the purposes of this disposition report, and for the convenience of the reader to be able to more readily note trends related to both, race and ethnicity are presented within the same charts, graphs, and tables. References to racial or ethnic groups are defined as follows:

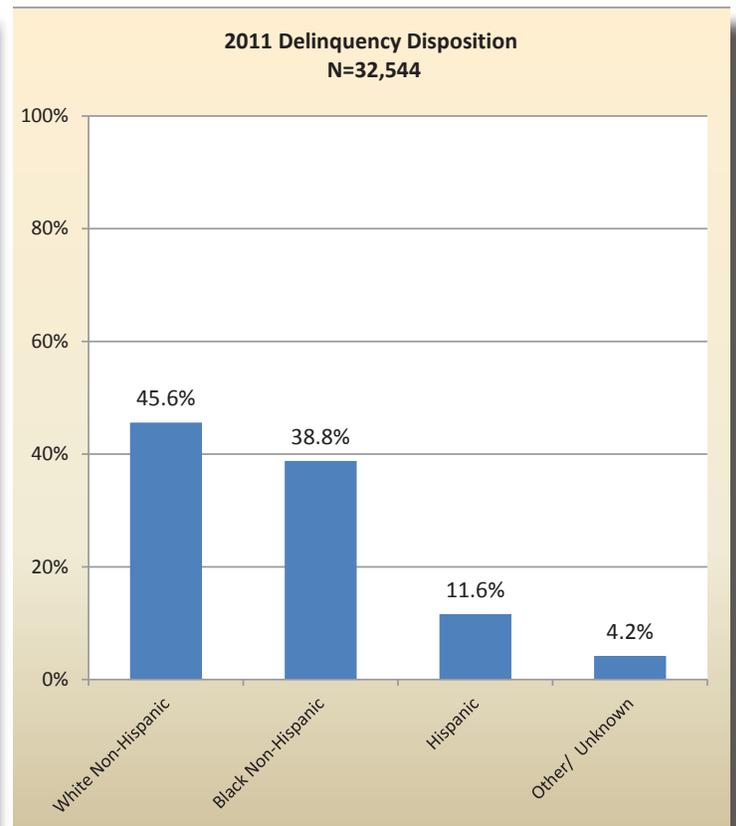

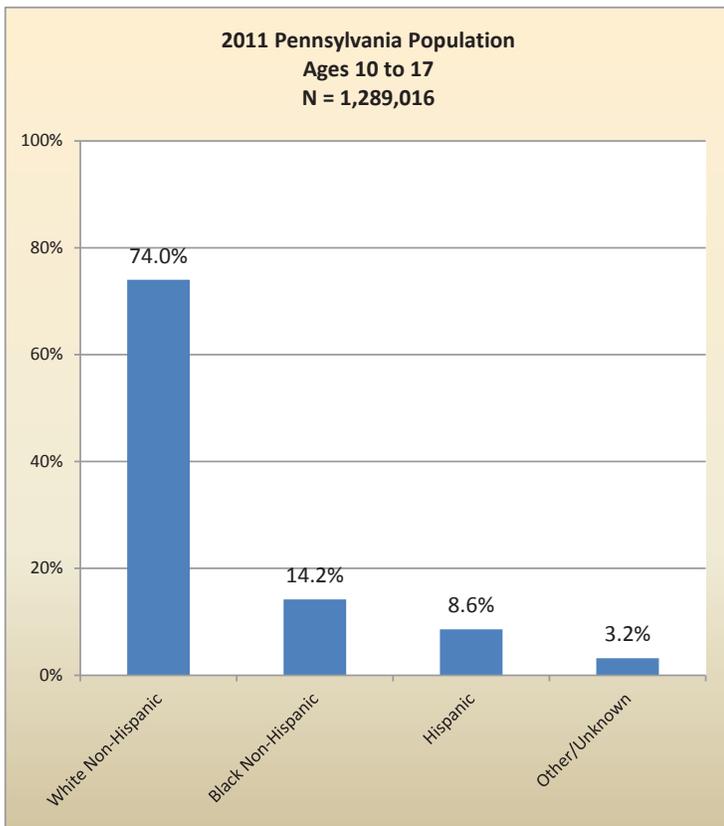

<i>White Non-Hispanic</i>	reported as non-Hispanic for ethnicity and White for race
<i>Black Non-Hispanic</i>	reported as non-Hispanic for ethnicity and Black for race
<i>Multi-Racial Non-Hispanic</i>	reported as non-Hispanic for ethnicity and one or more categories for race
<i>Hispanic</i>	reported as Hispanic for ethnicity regardless of reported race
<i>Other and Unknown</i>	reported as non-Hispanic for ethnicity and one of the following races: Asian, Pacific Islander, Native Hawaiian, Native Alaskan, or Native American; or race and ethnicity was reported as unknown

The population data that is included (page 30 and appendix 1) is retrieved from The Center for Disease Control. The category of Multi-Racial is only collected in a census year; therefore this category is not included in the graphs on page 30. However, data on Multi-Racial youth is collected within the Pennsylvania Juvenile Case Management System (PaJCMS), and this category is included in the graphs on pages 31-33.

Total Delinquency Dispositions by Race and Ethnicity

In 2011, White Non-Hispanic youth represented the largest racial/ethnic category for all delinquency dispositions. However, in comparison to the racial/ethnic distribution of all youth in Pennsylvania, ages 10-17, the representation of Black Non-Hispanic youth is disproportionate: 14.2% of the population versus 38.8% of all dispositions. When excluding Philadelphia and Allegheny County, Black Non-Hispanic youth represent 8% of the youth population, but 26.7% of all delinquency dispositions. Please see the appendix for the percentage of delinquency dispositions by race and ethnicity for each county and by Class County.

In Philadelphia, Black Non-Hispanic youth represented 52.9% of the total youth population and 71.8% of all delinquency dispositions. Allegheny County reported an even more significant disproportion, with Black Non-Hispanic youth representing 19.9% of the total youth population but 66.4% of all delinquency dispositions.

While statewide rates of disproportionality are not evident among Hispanic youth, the sparse distribution of the Commonwealth's Hispanic population impacts the statewide aggregate figures. Counties with significant Hispanic populations should review the appendix for county specific data on total and selected dispositions by race and ethnicity.

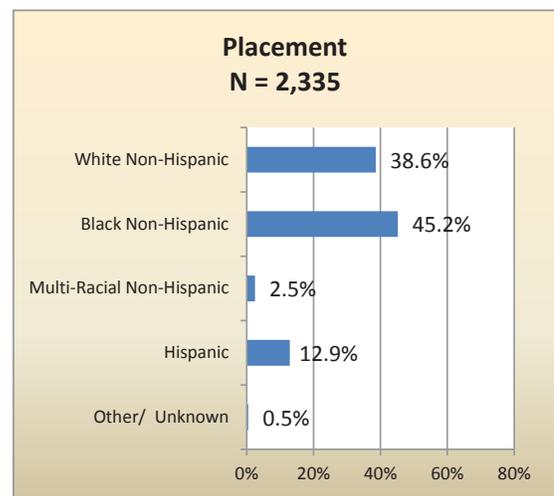

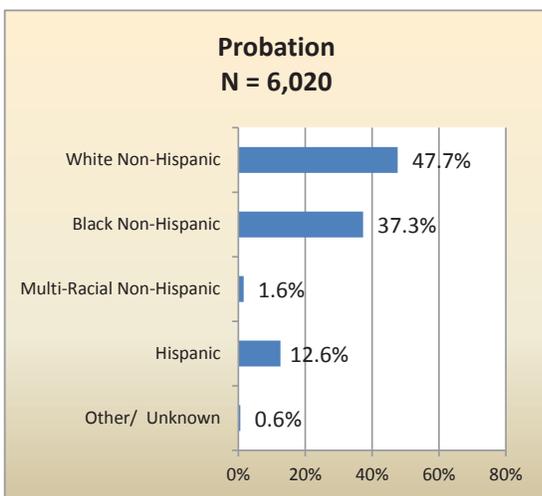

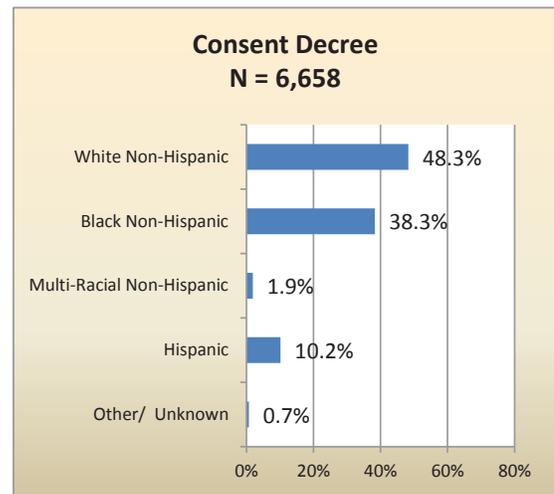

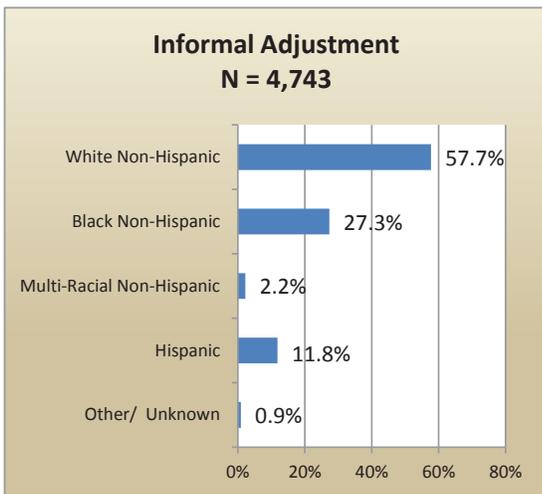

Selected Delinquency Dispositions and Secure Detention by Race and Ethnicity

The following charts show the distribution of various dispositions and secure detention by race and ethnicity.

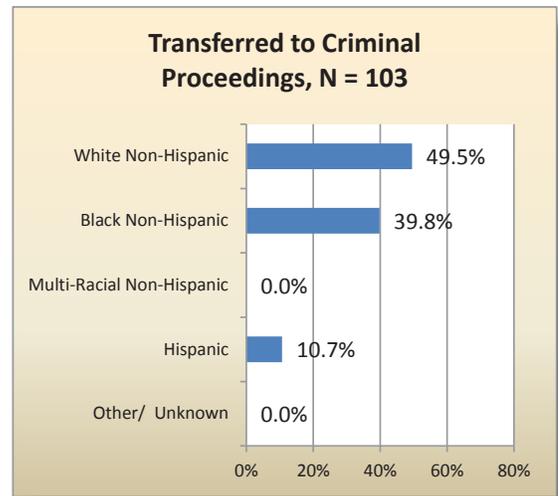

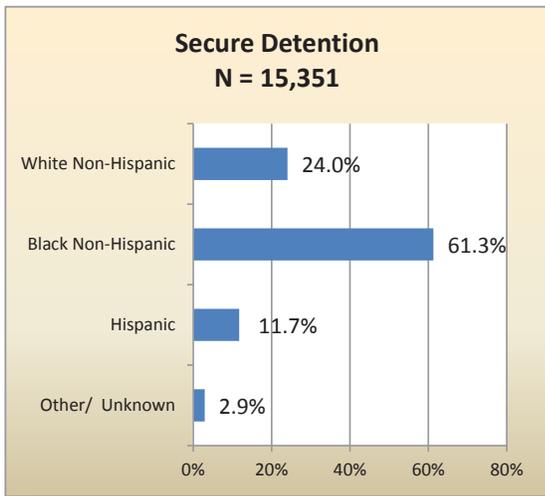

For delinquency dispositions that did not result in out of home placement (Informal Adjustment, Consent Decree and Probation), Black Non-Hispanic youth comprise a smaller proportion of cases, while White Non-Hispanic youth comprise a larger proportion of cases, than what is reflected in all delinquency dispositions. Conversely, for dispositions that resulted in an out of home placement (not including disposition and placement reviews), the proportion of both Hispanic (12.9%) and Black Non-Hispanic (45.2%) youth exceeds the representation in all delinquency dispositions.

The data reported on community-based dispositions, out of home placements, and secure detention, by race and ethnicity, indicate that, in 2011, Hispanic and Black Non-Hispanic youth were more likely to be removed from their homes for services and less likely to receive a community-based intervention.

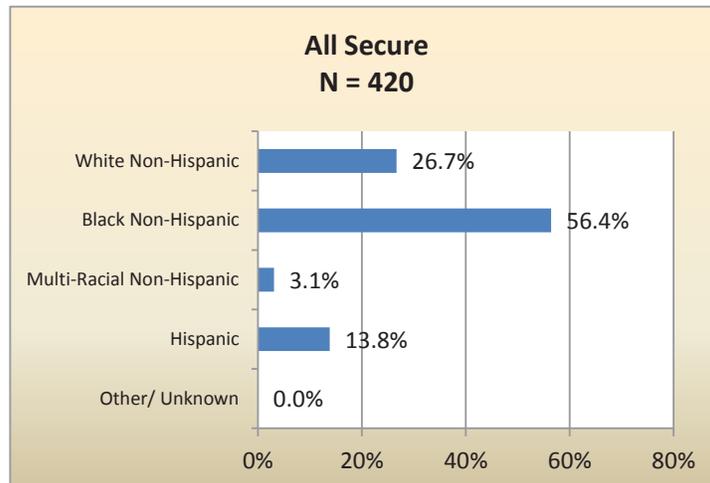

For secure detention, the statewide rate of disproportionality is more significant, with Black Non-Hispanic youth comprising more than 61% of all secure detention admissions in 2011. When excluding Philadelphia and Allegheny County, Hispanic and Black Non-Hispanic youth represent approximately 15% and 40%, respectively, of all secure detention admissions. In Philadelphia, 73% of secure detention admissions involved Black Non-Hispanic youth and 14.9% involved Hispanic youth. In Allegheny County, 83.5% of secure detention admissions involved Black Non-Hispanic youth.

The category Multi-Racial is not collected within the secure detention database.

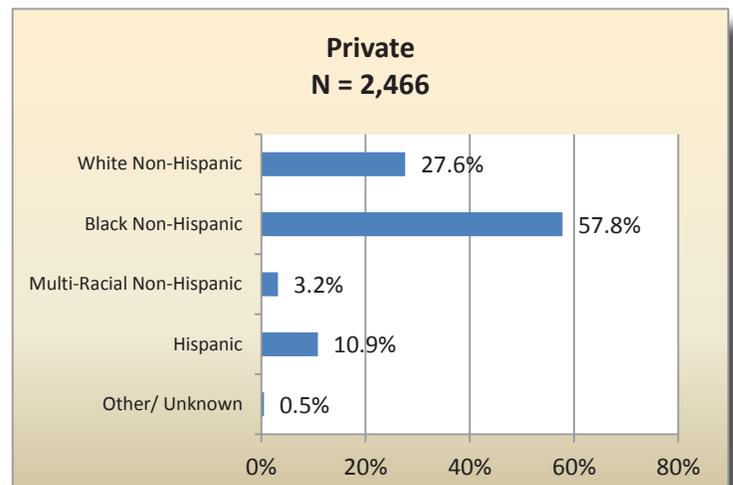

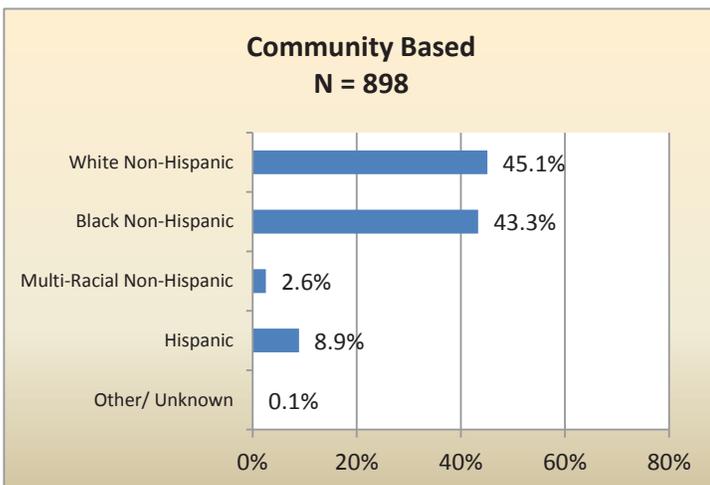

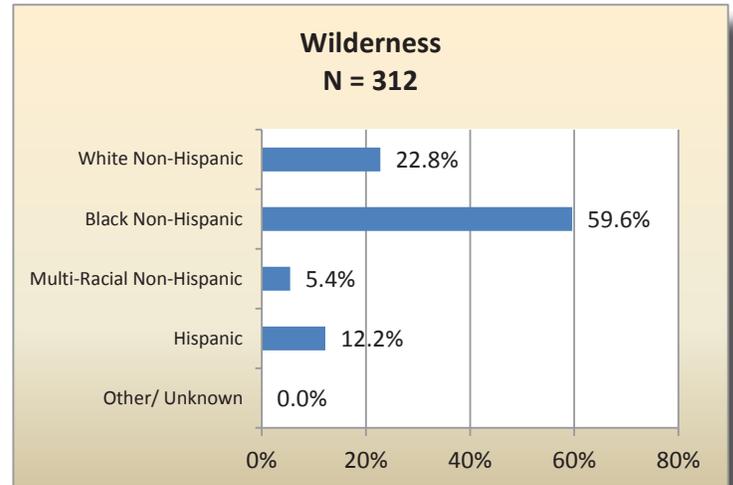

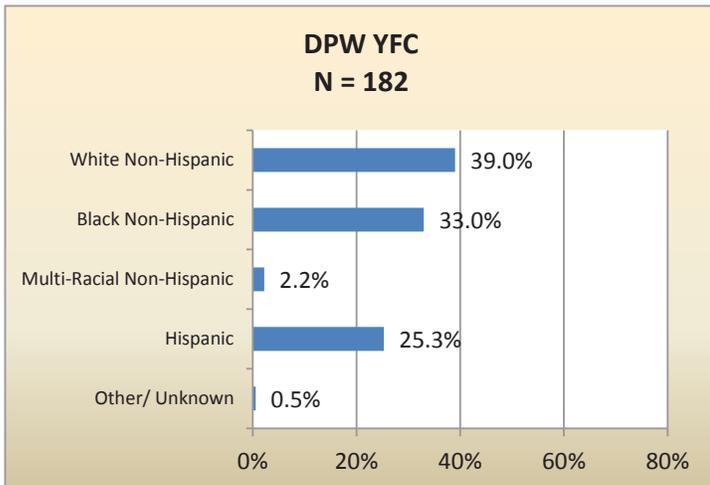

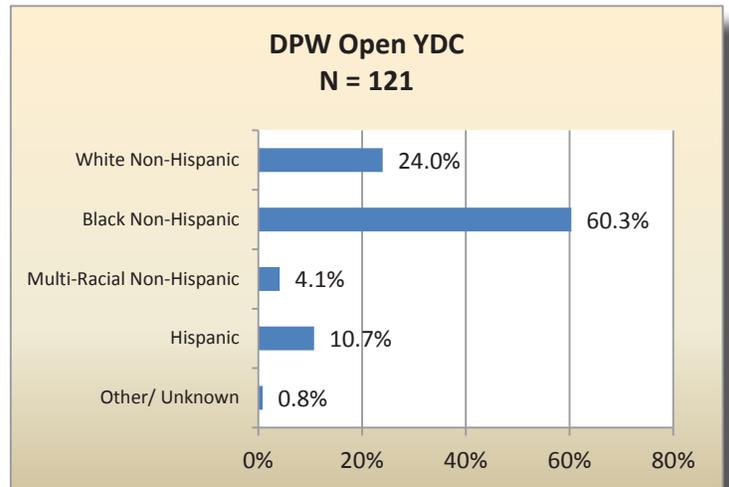

Selected Placements by Race and Ethnicity

The following charts show the distribution of various placement types by race and ethnicity. In 2011, the representation of Black Non-Hispanic youth (56.4%) for all secure placement settings was disproportionate to what is reflected among all placement dispositions, 45.2%.

Similarly, Black Non-Hispanic youth comprised approximately 60% of placements to Private Institutions, Wilderness Programs and DPW Open Youth Development Centers. Hispanic youth were disproportionately represented within DPW Youth Forestry Camps.

Dependency Dispositions, 2011

In 1991, the Commission began collecting information on dependency cases that are processed by juvenile probation departments. These figures do not reflect the total number of dependency cases in the Commonwealth, nor do they represent the total number of dependency cases handled by juvenile probation departments. A dependency case is defined as a new referral that is processed by the juvenile probation department and that does not have accompanying delinquency allegations.

Only the counties that report dependency dispositions are shown in the tables in this section.

Time Lapse from Allegation to Disposition for Delinquency Cases, 2011

Time lapse information is calculated from the date of allegation to the date of disposition. Disposition reviews, placement reviews, and dependency cases are not included. Dispositions are grouped into one of two categories: “formal” or “informal”. A disposition is counted in the “formal” category if a date was reported in the Date of Hearing field indicating that a hearing before a judge or master was conducted, other than a detention hearing, following the filing of a petition.

Number of Admissions and Length of Stay in Secure Detention, 2011*

This table reflects the median length of stay in secure detention. The median is defined as the value above and below which half the cases fall. In 2011, the median length of stay in secure detention was 6 days which is a decrease of 3 days from 2010.
