This report provides an overview of juvenile court dispositions in Pennsylvania during 2014 and preceding years, and summarizes juvenile court statistical data provided by county juvenile probation departments. Without the support of the courts and juvenile probation departments, this report would not be possible.

Although the report focuses primarily on delinquency dispositions, information has again been included on dependency cases that have been referred to juvenile probation departments. While county children and youth agencies handle the overwhelming majority of cases involving dependent children in the Commonwealth, some juvenile probation departments provide services to children who are alleged to be dependent on the basis of ungovernability or chronic truancy.

The information contained in this report is of value to all individuals, agencies and organizations having an interest in Pennsylvania's juvenile justice system. However, it is not intended to reflect the total workload of juvenile courts or juvenile probation departments.

It is with great pleasure that we dedicate this report to the judges, probation officers, victim advocates, district attorneys, defenders, service treatment providers, and other professionals who work on a daily basis in the Pennsylvania juvenile court system.

Respectfully submitted,

Keith B. Snyder
Executive Director

Honorable Kim Berkeley Clark
Chairman

The format and presentation of the data in this report are intended to help summarize various trends in juvenile court within the Commonwealth. In addition to the graphs and charts, narrative is included that is intended to help readers more quickly recognize various statewide trends, as well as highlight information not reflected in the visual displays.

Please note that some 2013 data have been updated since the initial release of the 2013 Pennsylvania Juvenile Court Disposition Report. Those updates are reflected in the current relevant charts and graphs, as well in the narrative on year-to-year comparisons.

The data within this year's report are generally organized in a manner that reflect the chronological processing of juvenile court delinquency cases. With the exception of pages 3-5 (*Delinquency Dispositions through Frequencies of Statewide Delinquency Dispositions*), the data presented flow logically from source of allegation through placement.

Within this report, some of the data are organized and presented in graphs by Class County to help readers make comparisons across counties of similar size and demographic composition.

While some county-specific data are presented within the body of the report, all of the raw data for each of Pennsylvania's 67 counties remain available for viewing. For each section within the report, please reference the appendices to review county-specific data on that topic.

This report is a compilation of the data collected from the juvenile probation departments throughout the Commonwealth of Pennsylvania.

As in the past, to avoid confusion regarding the unit of count used in tabulating juvenile court statistics and to improve the understanding of how data can be interpreted, please note:

1. The primary unit of count is the *disposition*. A *disposition* is defined as an allegation of delinquency disposed of by the juvenile probation department and/or the court. Within a single delinquency allegation, a youth may be charged with a number of offenses that may result in multiple petitions. Any one youth may be involved in a number of dispositions within a calendar year. In addition, a youth may be referred on more than one occasion and receive only one disposition. Dependency dispositions include only those referrals to probation departments alleging dependency that are not accompanied by an allegation of delinquency. *Therefore, one is cautioned NOT to attempt to interpret dispositions as the number of youth who are processed by the court or the number of offenses;*
2. There are times when you will see the word *case* used to describe the data. In this report, the word *case* is used interchangeably with the word *disposition*;
3. The *unit of count* refers to a case disposed of by a juvenile court and/or juvenile probation department. The term *disposed* means that a definite action/decision has been implemented;
4. The statistical system is constructed to collect up to the seven (7) most serious offenses per delinquency disposition;
5. The Commission collects additional information on *placement reviews*, *disposition reviews*, and selected special conditions attached to a disposition. A *disposition review* is a hearing conducted before the court regarding a previous disposition which did not result in out-of-home placement. A *placement review* is a hearing conducted before the court regarding a previous disposition which did involve out-of-home placement;
6. The data in the secure detention section of this report were collected in conjunction with the JCJC's Secure Detention Monitoring Program; and
7. The reader is cautioned that in the tables containing rows with "percent of total", the row may not total 100 percent due to rounding.

Custom reports, including any information contained in tables included in previous reports that are not included in this report, can be obtained by contacting the Center for Juvenile Justice Training & Research at Shippensburg University, 717-477-1488, Ext. 2.

Highlights

We draw your attention to the following statistical highlights of 2014:

- There were 25,568 delinquency-related dispositions in Pennsylvania during 2014. This represents an 11.7% decrease from 2013, and a 30.2% decrease since 2010 (page 4).
- Statewide, secure detention admissions have declined 12.8% since 2013 (page 13) and 39.2% since 2010.
- Statewide, delinquency placements have declined each year since 2010, and have decreased by 33.9% since 2010 (page 17).
- Seventeen year olds accounted for the most dispositions of any age group in 2014, representing 26.2% of all dispositions, followed in descending order by sixteen year olds (21.4%) and fifteen year olds (16.9%) (page 24).
- Youth whose biological parents were reported as “never married” represented more than 49% of all delinquency dispositions, while youth whose parents were reported as “married” represented 16% (page 26).
- Statewide, 47.2% of youth were reported as residing only with their mother, while 17.1% of youth resided with both biological parents (page 26).
- The majority of all delinquency dispositions involved White Non-Hispanic youth (44.6%), followed in descending order by Black Non-Hispanic youth (38.3%) and Hispanic youth (12.8%) (page 28).

In addition to this annual disposition report, another source of information on juvenile court delinquency dispositions is the Pennsylvania Juvenile Delinquency Data Analysis Tool (JDDAT). The JDDAT application was developed to facilitate independent analysis of annual dispositions reported to the Juvenile Court Judges' Commission (JCJC) by juvenile probation departments throughout the Commonwealth and can be accessed at www.jcjc.pa.gov.

Please note, the data contained in JDDAT is continually updated on a regular basis and, therefore, may not match the information contained in this report.

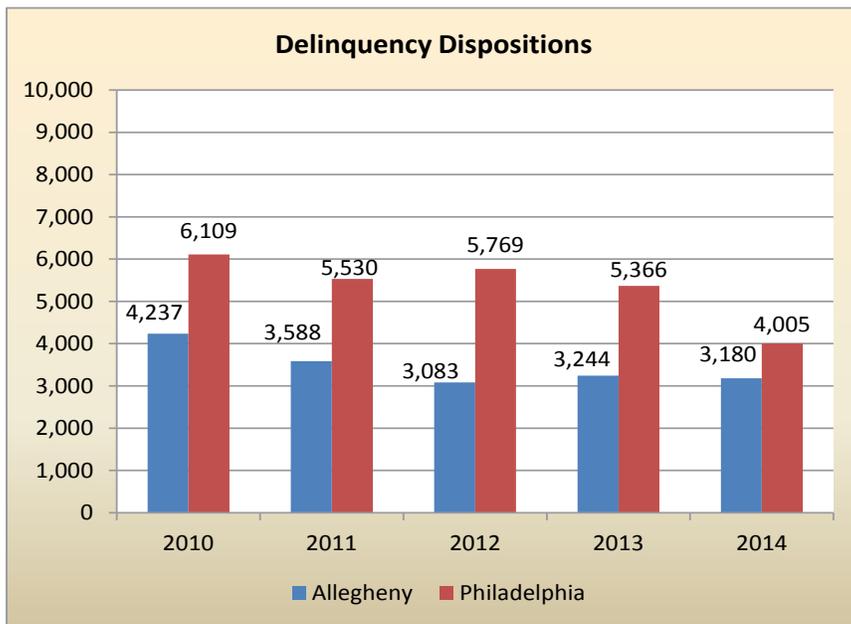

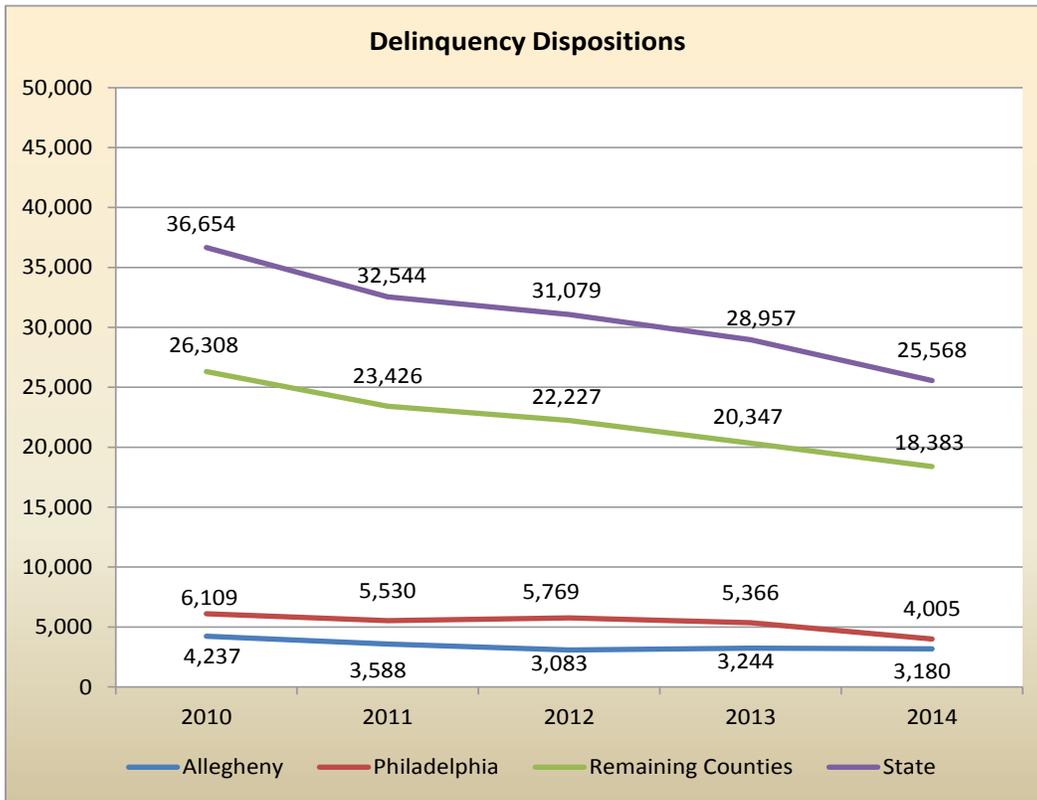

The JDDAT was developed for the JCJC by the National Center for Juvenile Justice, with funding from the Office of Juvenile Justice and Delinquency Prevention (OJJDP), Office of Justice Programs, U.S. Department of Justice and maintained by the Juvenile Court Judges' Commission's Center for Juvenile Justice Training and Research.

Delinquency Dispositions

Delinquency Dispositions, 2010-2014

There were 25,568 delinquency-related dispositions in Pennsylvania during 2014. This represents an 11.7% decrease from 2013 and a 30.2% decrease since 2010. Half (50%) of the total dispositions occurred in the seven jurisdictions reporting more than 1,000 dispositions (see map on page 3).

Dispositions resulting from Disposition Reviews and Placement Reviews, and Dependency referrals are not included.

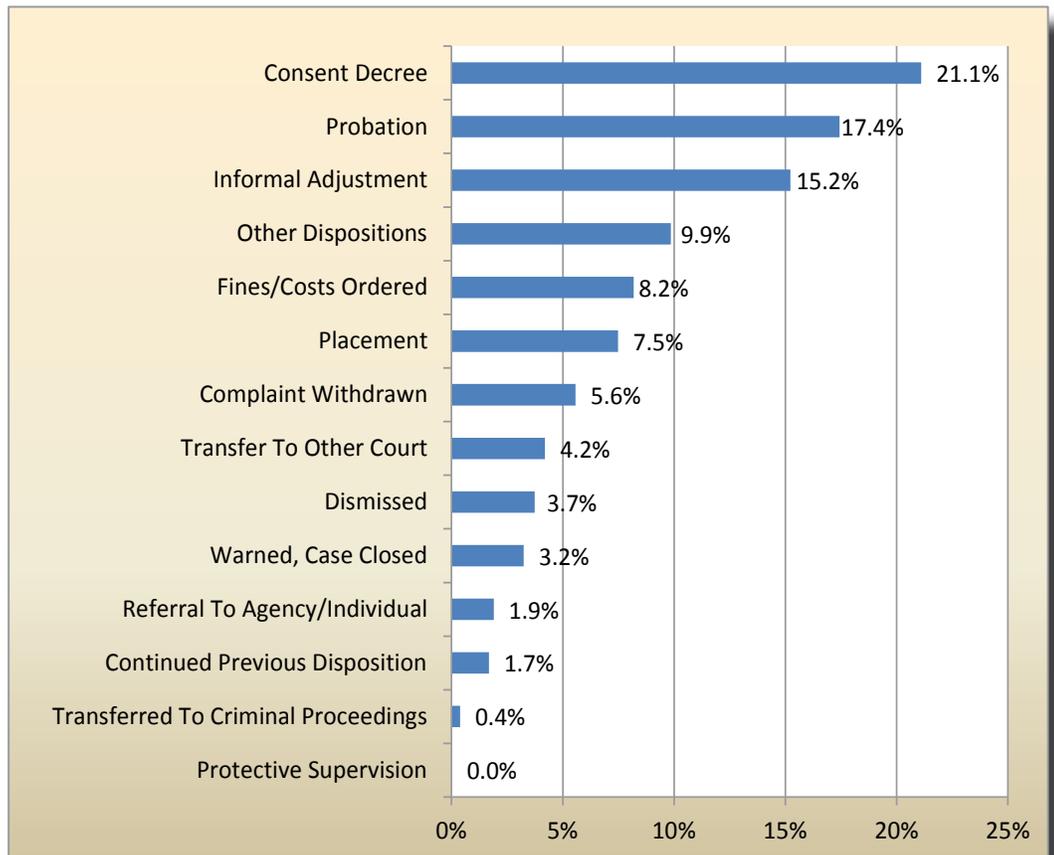

From 2013 to 2014, the Commonwealth’s largest jurisdictions, Allegheny and Philadelphia Counties, both reported decreases in delinquency dispositions. Allegheny County reported a decrease of 2% and Philadelphia County reported a 25.4% decrease.

Frequencies of Statewide Delinquency Dispositions

Dispositions of Consent Decree, Probation, and Informal Adjustment continue to represent over half (53.7%) of all dispositions. Placement dispositions resulting from new allegations of delinquency remained relatively stable (7.4% to 7.5%) from 2013 to 2014.

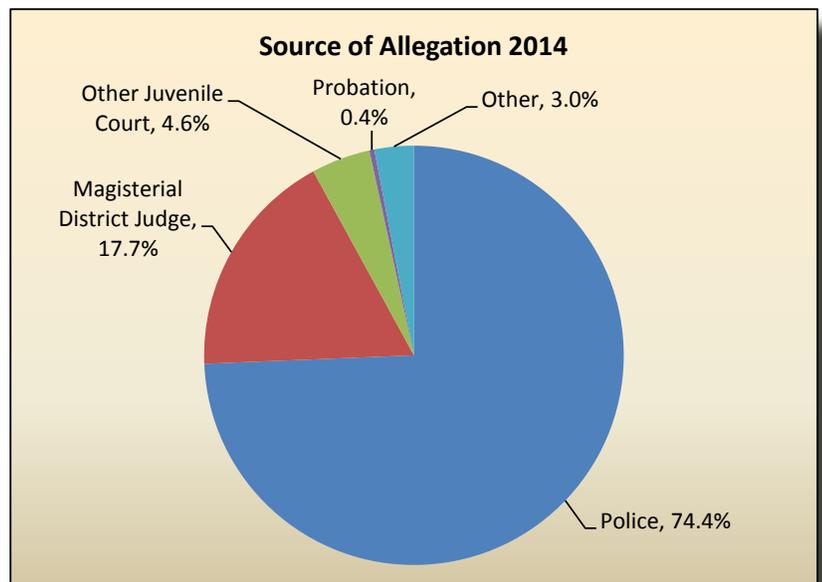

This data does not include dispositions resulting from Disposition Review or Placement Review hearings.

Source of Allegation

The Police and Magisterial District Judges continue to be the primary sources of delinquency allegations – 74.4% and 17.7% respectively.

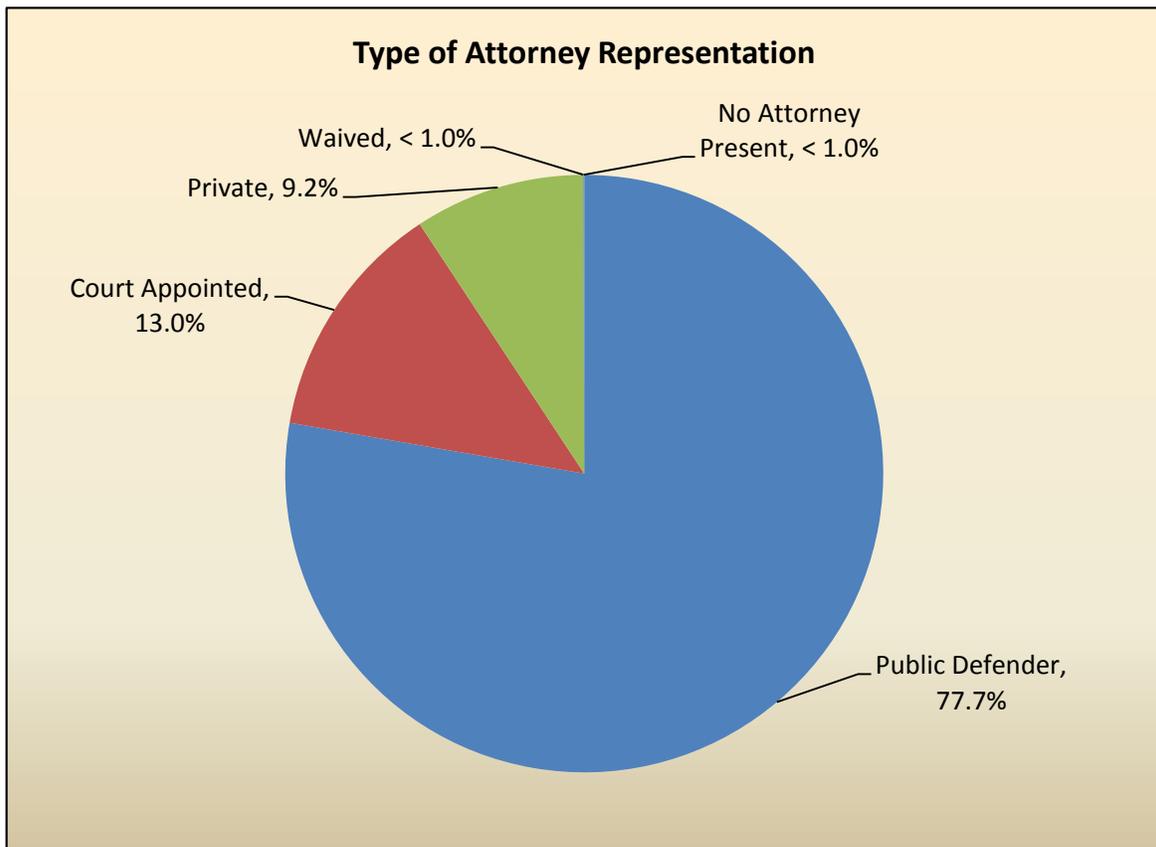

Note: The category “Other” includes delinquency allegations received from schools, social agencies, relatives and cases transferred from criminal court.

Attorney Representation in Formal Delinquency Proceedings, 2014

Legal representation provided by Public Defenders continued to be the most common form of representation in delinquency proceedings (77.7% in 2014). Legal representation was provided by Court Appointed or Private Counsel in 22.2% of delinquency proceedings. (An entry of "Court Appointed" includes cases where counsel, other than the public defender, was appointed by the court.) Delinquency proceedings were conducted without defense counsel (waived or not present) in less than 1% of all delinquency proceedings.

Median Time Lapse for Formal vs. Informal Proceedings by Type of Disposition, 2014

A formal proceeding is defined as a hearing held before a judge or master, after the filing of a petition. The time lapse is measured from the Date of Allegation to the Date of Disposition. An informal proceeding results in a decision being made without a formal appearance before a judge or master.

Statewide, cases handled through informal proceedings were typically disposed of more quickly than cases handled through formal proceedings (58 days vs. 93 days). The number of dispositions, by disposition type, are also indicated in the charts below.

NOTE: Does not include disposition reviews and placement reviews.

Formal Dispositions

Note: In the 36 cases resulting in a disposition of Informal Adjustment, a petition was filed but withdrawn at the hearing.

FORMAL DISPOSITIONS		
TYPE OF DISPOSITION	NUMBER OF DISPOSITIONS	MEDIAN DAYS
PLACEMENT.....	1,911.....	67.0
PROTECTIVE SUPERVISION	3.....	70.0
TRANSFERRED TO CRIMINAL COURT.....	96.....	76.5
CONSENT DECREE.....	4,529.....	80.0
TRANSFER TO OTHER COURT.....	980.....	82.5
INFORMAL ADJUSTMENT.....	36.....	83.0
WARNED, CASE CLOSED	179.....	96.0
REFERRED TO AGENCY/INDIVIDUAL	13.....	101.0
CONTINUED PREVIOUS DISPOSITION	321.....	102.0
OTHER DISPOSITIONS	671.....	103.0
PROBATION.....	4,457.....	104.0
DISMISSED.....	862.....	107.0
FINES/COSTS ORDERED.....	277.....	120.0
COMPLAINT WITHDRAWN.....	768.....	142.0
TOTAL.....	15,103.....	93.0

Informal Dispositions

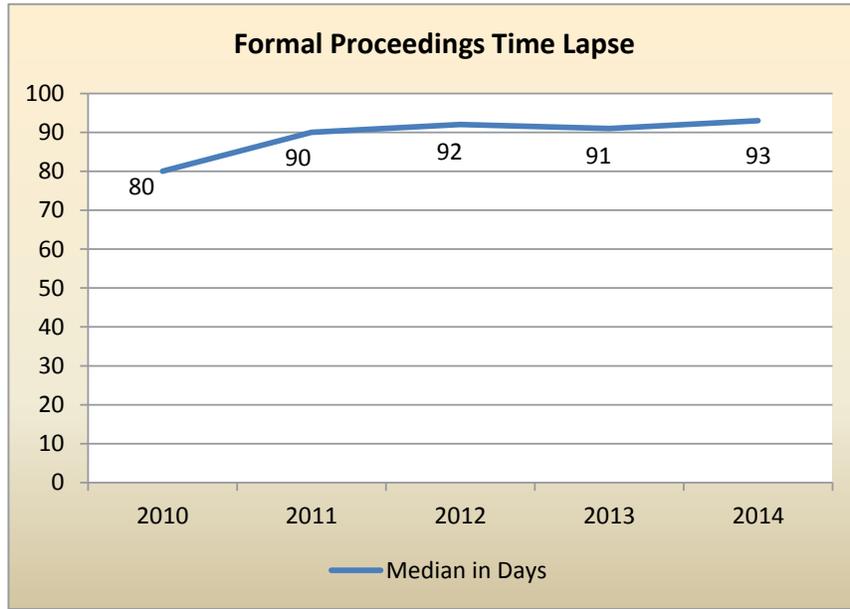

In the cases resulting in a disposition of Placement (2), the disposition was reported to have been ordered by the Court without a post-petition hearing being held. In both cases the juveniles were already active with probation, and the adjudication on the new charges was handled in conjunction with a dispositional review; all parties were in agreement to proceed with disposition by court order and without a formal hearing.

INFORMAL DISPOSITIONS		
TYPE OF DISPOSITION	NUMBER OF DISPOSITIONS	MEDIAN DAYS
REFERRED TO AGENCY/INDIVIDUAL	472.....	2.0
TRANSFER TO OTHER COURT.....	93.....	13.0
FINES/COSTS ORDERED.....	1,815.....	29.0
TRANSFERRED TO CRIMINAL COURT.....	2.....	44.5

OTHER DISPOSITIONS	1,850.....	99.0
CONTINUED PREVIOUS DISPOSITION	108.....	117.5
DISMISSED.....	92.....	163.0
PLACEMENT.....	2.....	494.5
TOTAL.....	10,465.....	58.0

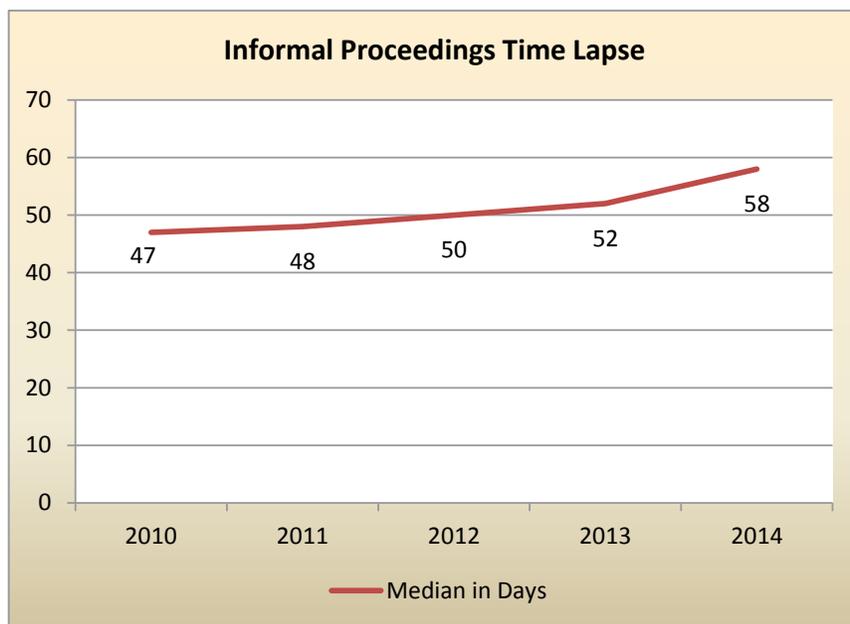

Median Time Lapse for Formal vs. Informal Proceedings, 2010-2014

The time lapse for formal proceedings, as measured by the Date of Allegation to the Date of Disposition, has increased by 2.2% since 2013 (from 91 to 93 days). This slight increase is consistent with the median time lapse trend for the last five years. Since 2010, the median time lapse has increased 16.3%.

The time lapse for informal proceedings, also measured by the Date of Allegation to the Date of Disposition, increased by 11.5% since 2013 (from 52 to 58 days). This is also consistent with the median time lapse trend for the last five years. Since 2010, the median time lapse for informal proceedings has increased by 23.4%.

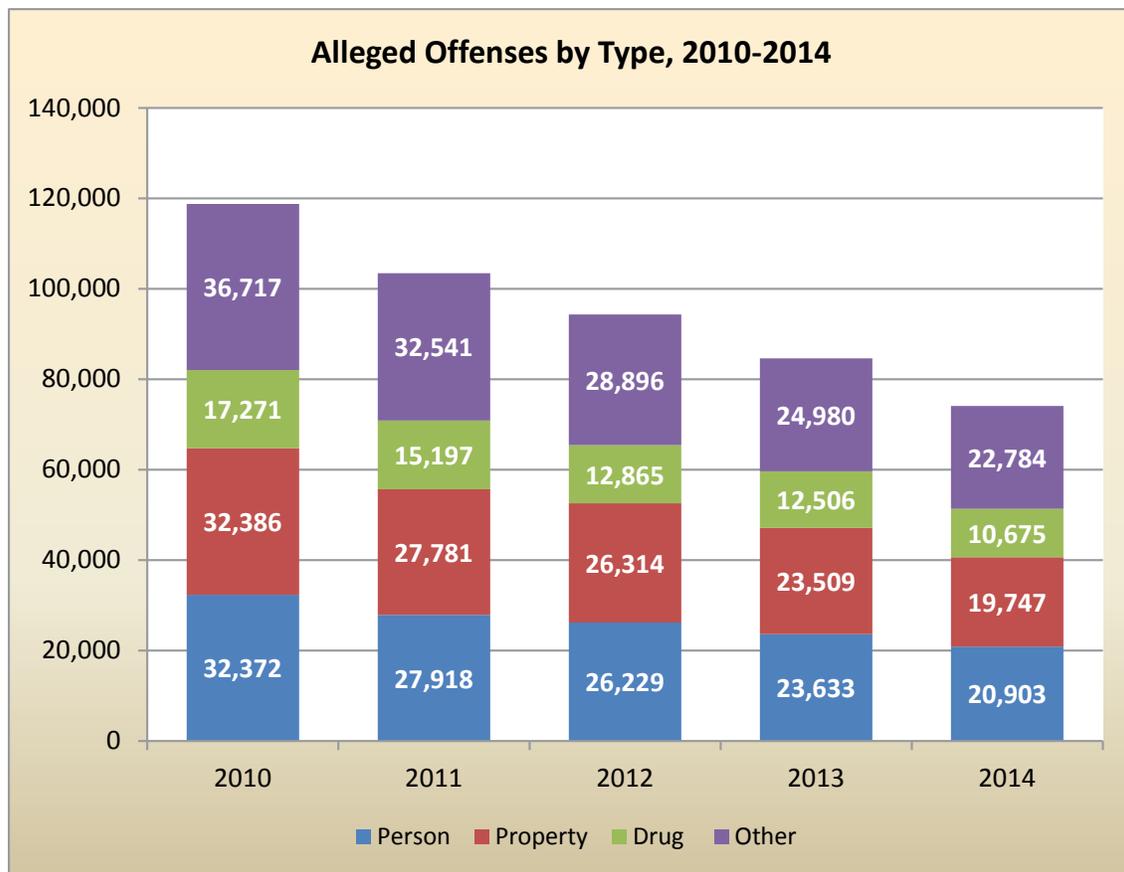

Alleged Offenses, 2010-2014

Alleged Offenses have decreased by 12.4% from 2013 to 2014 and have decreased by 37.6% since 2010. The Property offense category has shown the largest decrease (16%) from 2013, and Drug offenses decreased by 14.6%.

Since 2010, Property offenses have shown the sharpest decline (39%) since 2010. Drug and “Other” offenses have also declined significantly, 38.2% and 37.9% respectively, with Person offenses decreasing 35.4% over the same period.

Note: (The “Other” offenses category includes, but is not limited to: Public Order offenses such as Disorderly Conduct or Weapon on School Property; Firearms Offenses; and Certifications from the minor judiciary that a juvenile failed to comply with a lawful sentence imposed for a summary offense).

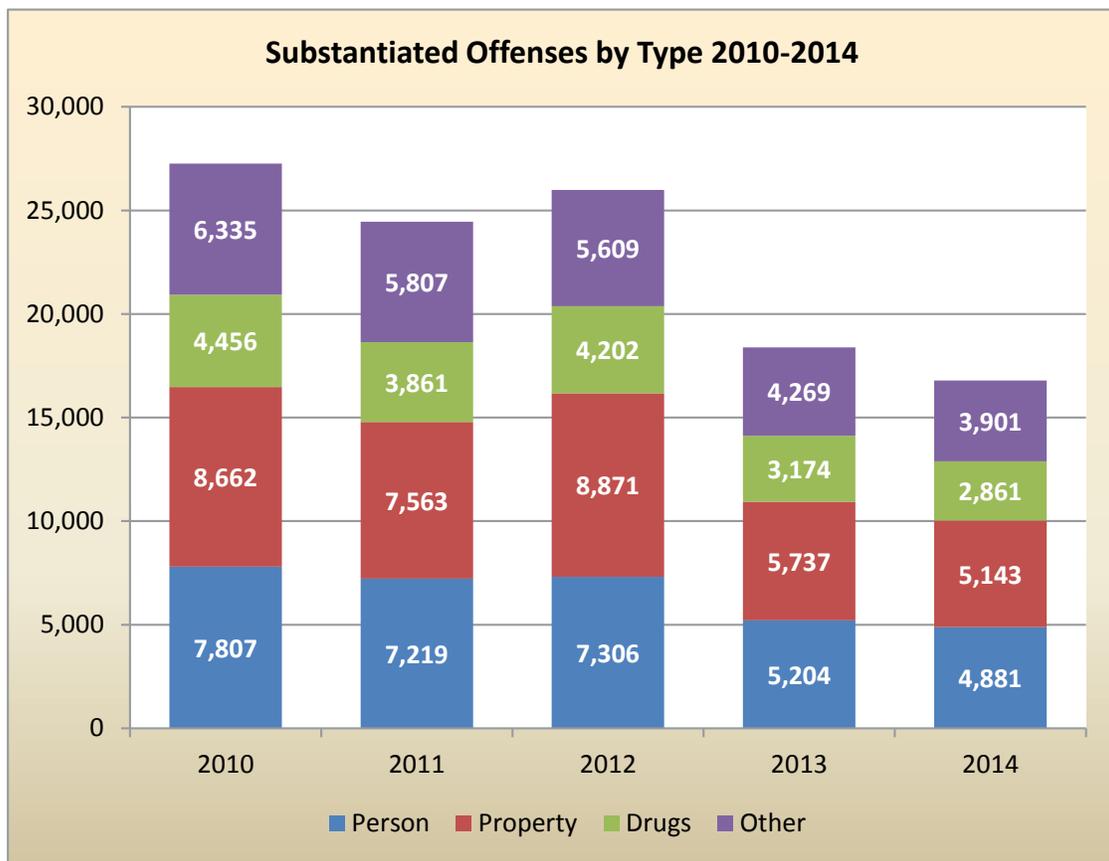

Delinquency Offenses

Substantiated Offenses, 2010-2014

Substantiated offenses decreased (8.7%) from 2013 to 2014, with the largest decrease occurring in the Property offense category (10.4%). Drug offenses decreased by 9.9%, “Other” offenses decreased by 8.6%, and Person offenses decreased by 6.2%.

The total number of substantiated offenses remains well below 2010 levels. Similarly, each category of substantiated offenses (Person, Property, Drugs and “Other”) remains below their respective 2010 levels.

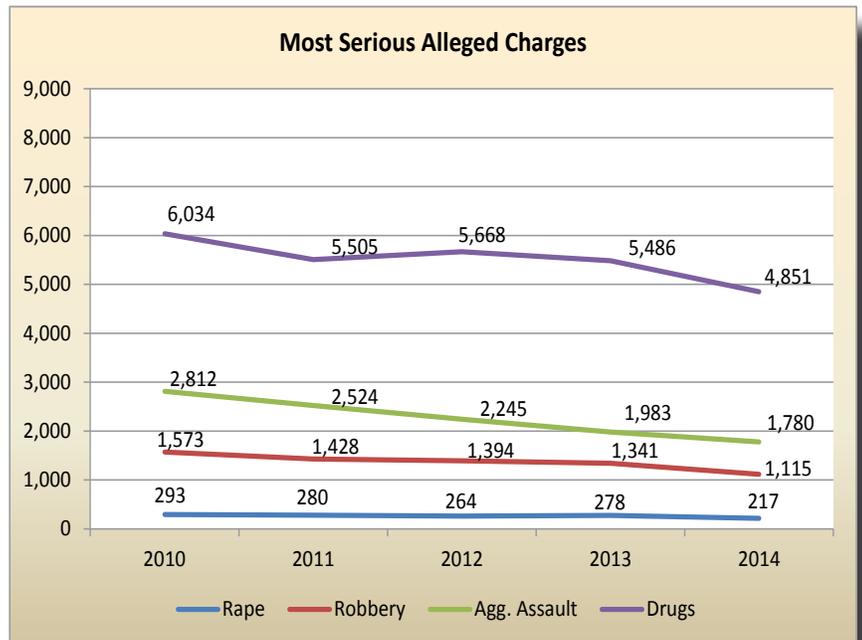

Note: (The “Other” offenses category includes, but is not limited to: Public Order offenses such as Disorderly Conduct or Weapon on School Property; Firearms Offenses; and Certifications from the minor judiciary that a juvenile failed to comply with a lawful sentence imposed for a summary offense).

Most Serious Offenses, 2010-2014

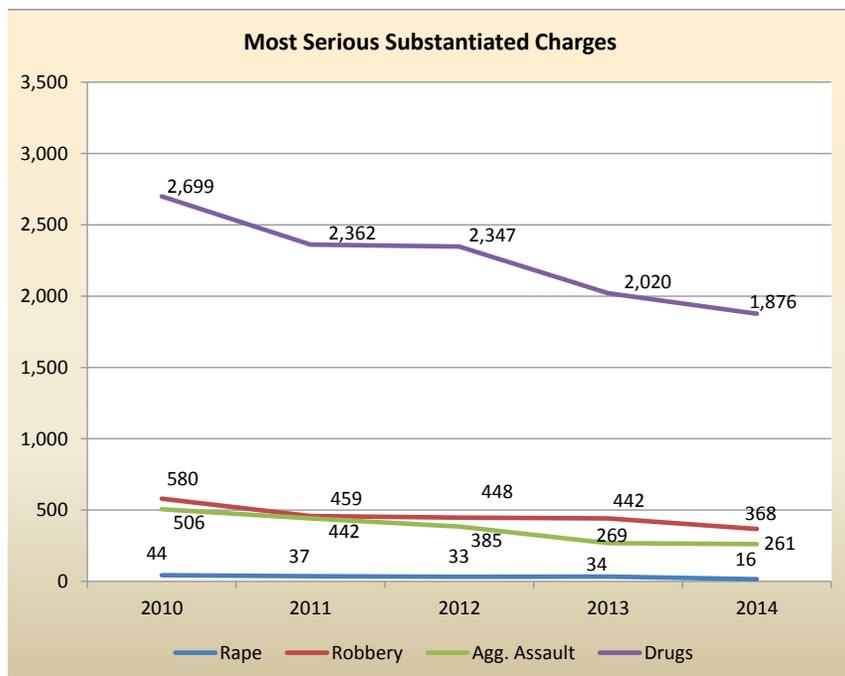

The chart at the right shows the statewide total of the most serious alleged charges from 2010-2014. Only the most serious charge per disposition is depicted. The Crime Severity key below shows the crime severity ranking employed for coding purposes. A disposition with an alleged robbery charge and an alleged drug charge was counted in the robbery category.

There were decreases in each of the most serious alleged charge categories from 2013 to 2014. Alleged Rape charges decreased by 21.9%, Robbery charges decreased by 16.9%, Drug charges decreased by 10.2%.

CRIME SEVERITY

1. Rape
2. Robbery
3. Aggravated Assault
4. Drug

The chart at the left shows the most serious substantiated charges. The same Crime Severity Ranking methodology was utilized here.

All categories of substantiated offenses decreased from 2013. Substantiated Rape charges decreased by 52.9%, Robbery charges decreased by 16.7%, Drug charges decreased by 7.1%, and Aggravated Assault charges decreased by 3%.

Secure Detention Overview

In accordance with the Standards Governing Secure Detention, all counties report their secure detention admissions to the Juvenile Court Judges' Commission. Detention information was extracted from either the Pennsylvania Juvenile Case Management System or the secure detention database at the Center for Juvenile Justice Training and Research. The secure detention database is populated with data reported directly from juvenile detention centers each month.

When interpreting the data contained in these tables, the reader should note the following:

1. The unit of count is the admission of a juvenile to a secure detention center;
2. A juvenile who is admitted to a secure detention center and subsequently transferred to another secure detention center without release is counted as two admissions.

Codes Related to JCJC Standards Governing the Use of Secure Detention Under The Juvenile Act

Each month, all juvenile detention centers report a Statement of Facts and Reasons that must accompany every probation-authorized admission to secure detention. Below are the Section Codes related to this process.

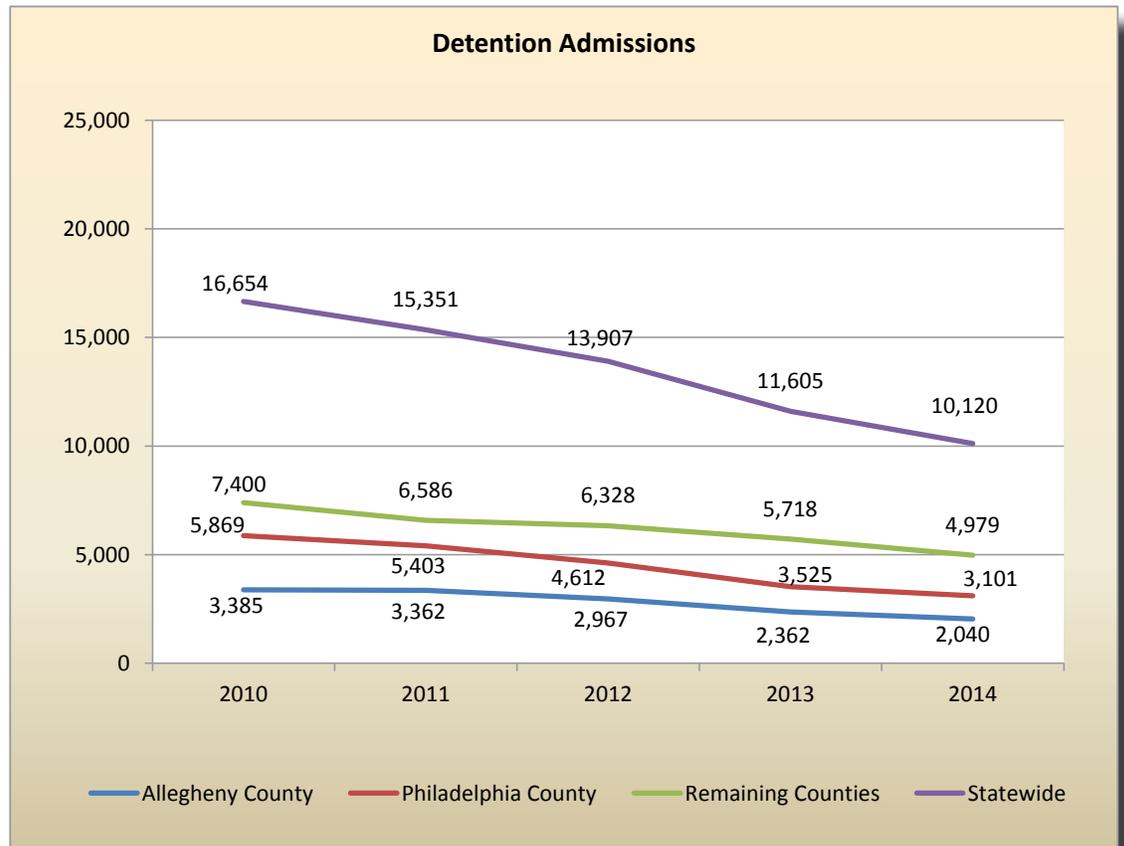

- | | |
|------------------|---|
| 100 Codes | Circumstances under which secure detention may be authorized on the basis of an alleged offense or on the basis of an alleged offense and the child's current status with the court or prior record. |
| 200 Codes | Circumstances under which secure detention may be authorized on the basis of a child's status as an absconder or fugitive; on the basis of a child's record of failing to appear at previous juvenile proceedings; or because of extraordinary circumstances which require secure detention to prevent a child from absconding. |
| 300 Codes | Circumstances under which secure detention may be authorized on the written request of the child or child's attorney. |
| 400 Codes | Circumstances under which secure detention may be ordered pending disposition, subsequent to a finding that a child committed a delinquent act or is a delinquent child. |
| 500 Codes | Circumstances under which secure detention may be ordered following disposition pending transfer to placement. |
| 600 Codes | Circumstances under which secure detention may be authorized on the basis of the child's status, pending or subsequent to a disposition review proceeding. |
| Code 701 | Circumstances under which secure detention may be authorized on the basis of extraordinary and exceptional circumstances. |

Secure Detention Admissions, 2010-2014

Statewide, detention admissions have declined each year since 2010, with a 39.2% overall decrease and a 12.8% decrease since 2013. Allegheny County detention admissions decreased by 13.6% from 2013 to 2014, while Philadelphia County admissions declined by 12% during the same time period. Overall statewide admissions, excluding Allegheny and Philadelphia, decreased by 12.9% from 2013.

Philadelphia and Allegheny County account for 30.6% and 20.2%, respectively, of all secure detention admissions.

	2010-2011	2011-2012	2012-2013	2013-2014
STATEWIDE	-7.8%	-9.4%	-16.6%	-12.8%
ALLEGHENY COUNTY	-0.7%	-11.7%	-20.4%	-13.6%
PHILADELPHIA COUNTY	-7.9%	-14.6%	-23.6%	-12.0%
REMAINING COUNTIES	-11.0%	-3.9%	-9.6%	-12.9%

Length of Stay in Secure Detention, 2014

In 2014, the statewide median length of stay in secure detention was 8 days, which is an increase of one day from 2013. The table below shows the median length of stay by county, from greatest to least number of days. Multiple counties with identical length of stay are listed alphabetically. This data, sorted by greatest to least number of admissions, can be found in the appendix.

COUNTY	NUMBER OF ADMISSIONS	MEDIAN LENGTH OF STAY IN DAYS
SULLIVAN	1	64.0
MCKEAN	2	37.5

*TOTAL	10,111	8.0

NOTE: This table only includes those admissions for which a date of release was reported.

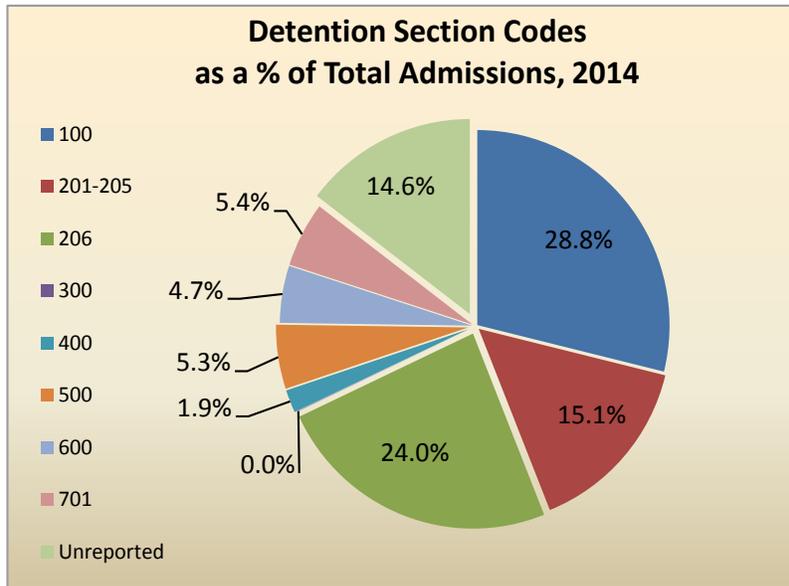

*Includes 224 secure detention admissions to the Jefferson Detention Center in Ohio by the following counties: Beaver (44); Butler (4); Fayette (13); and Washington (163).

Secure Detention Admissions by Standard Section Codes

In 2014, the overwhelming majority of secure detention admissions were authorized under the 100 and 200 Codes – 28.8% and 39.1% respectively. This trend has remained constant since 2010.

Special attention is given to the utilization of Codes 206, 701, and Unreported. In instances where secure detention is authorized under Codes 206 or 701, the juvenile probation officer is required to provide a detailed written explanation of the reasons that necessitate secure detention. These codes were intended to be utilized in limited circumstances where none of the other codes are applicable.

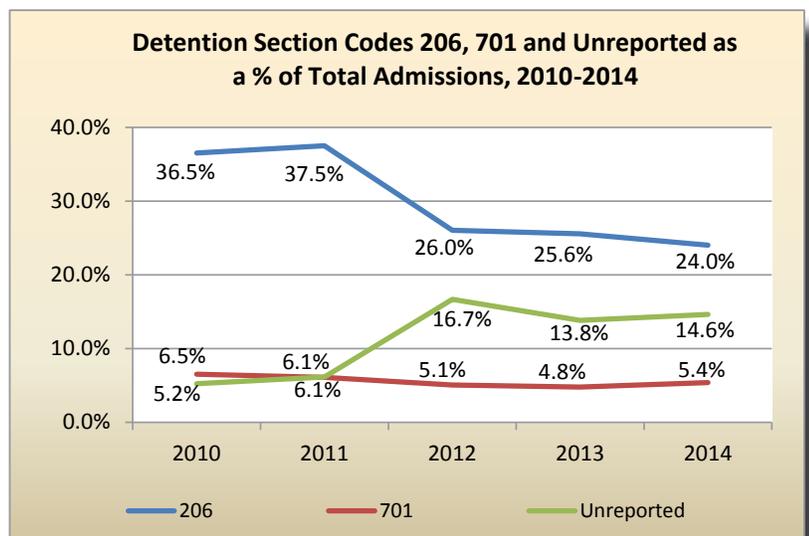

Code 206 - The child presents extraordinary circumstances requiring secure detention to prevent him/her from absconding. (Such circumstances may include, but are not limited to: the child's age, character, mental condition, ties to the community, the nature of the child's family relationships, drug or alcohol addiction and substance abuse.)

Code 701 - Circumstances under which secure detention may be authorized on the basis of extraordinary and exceptional circumstances.

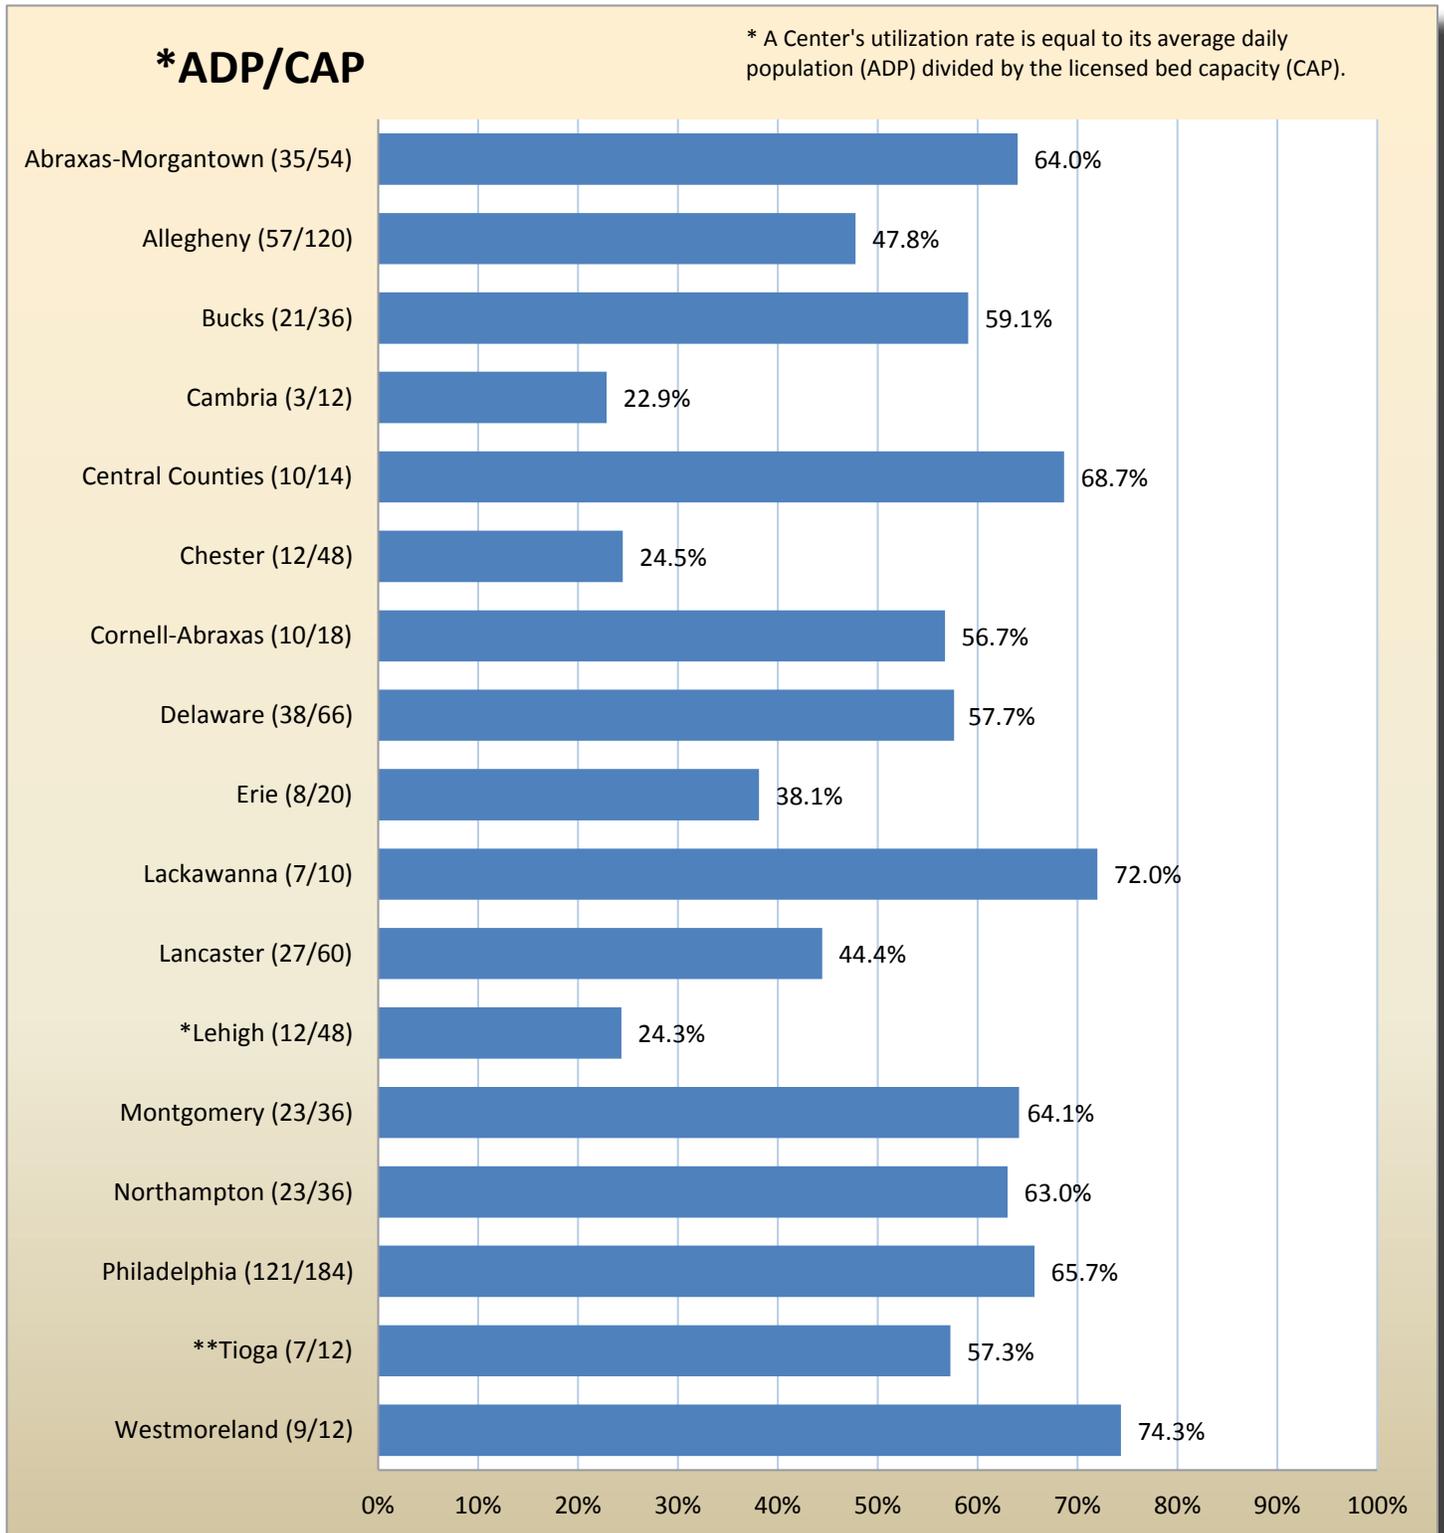

The Unreported category, as shown in this report, indicates that a code was not reported to the JCJC. Secure detention admissions that are authorized without codes are not in compliance with JCJC Standards.

The utilization of Codes 206, 701, and admissions with an Unreported code, accounted for 44% of all secure detention admissions in 2014. While the utilization of Code 206 decreased from 25.6% in 2013 to 24% in 2014, the percentage of Unreported codes increased from 13.8% in 2013 to 14.6% in 2014.

Utilization Rates for Pennsylvania Juvenile Detention Centers, 2014

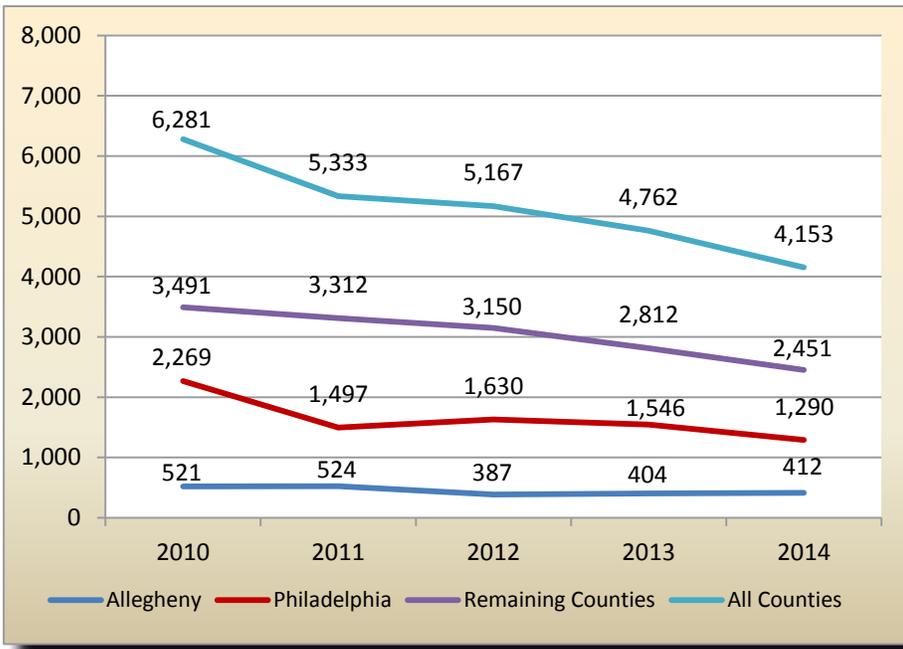

* The Lehigh County Juvenile Detention Center closed in March 2014.

** The Tioga County Juvenile Detention Center closed in June 2014.

Delinquency Placements including Disposition Reviews, 2010-2014

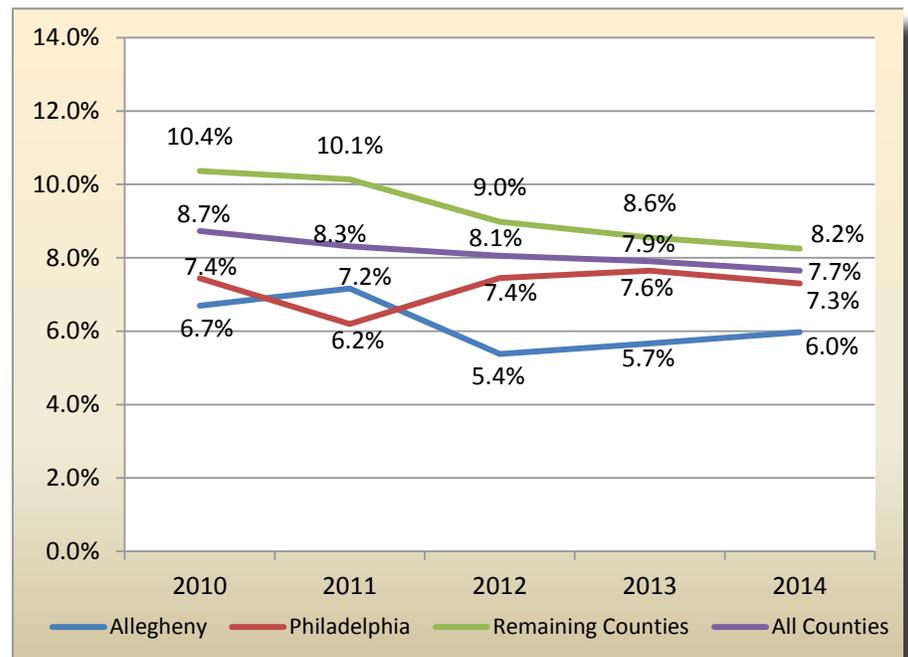

Statewide, delinquency placements have declined each year since 2010, with an overall decrease of 33.9%. Placements in all counties other than Allegheny and Philadelphia decreased each year since 2010 representing an overall decrease of 29.8% in these jurisdictions. Delinquency placements in Allegheny County increased slightly (2%) from 2013 to 2014. Philadelphia placements decreased (16.6%) from 2013 to 2014.

Delinquency Placements as a Percent of Dispositions, 2010-2014

The number of placements as a percentage of total dispositions, including disposition reviews, decreased from 2013 (7.9%) to 2014 (7.7%). Philadelphia County placements, as a percentage of total dispositions, also decreased from 7.6% in 2013 to 7.3% in 2014. However, Allegheny County placements increased from 5.7% in 2013 to 6.0% in 2014. In all counties other than Allegheny and Philadelphia, the percentage decreased from 8.6% in 2013 to 8.2% in 2014.

See the map on the next page for individual county delinquency placements as a percentage of total dispositions.

New Allegation Placements vs. Disposition Review Placements

The following chart depicts the relative percentage of placements that resulted from new allegations versus disposition review proceedings. A *disposition review* is a hearing conducted by the court regarding a previous disposition which did not result in out-of-home placement.

The percentage of placements resulting from both new allegations and disposition reviews is shown for each county by Class County.

Statewide, over half of delinquency placements (53.9%) were ordered as a result of a disposition review. This figure, however, is significantly influenced by Philadelphia, which accounts for 31.1% of all delinquency placements statewide, and where 65.7% of all delinquency placements were ordered as a result of a disposition review.

Across all other Class County groups, the average distribution of delinquency placements is 51.3% from new allegations and 48.7% from disposition reviews. Philadelphia, Allegheny, Class 2A and Class 7 are the Class County groups with a majority of delinquency placements originating from disposition reviews.

**Total Delinquency Placements by Type, 2014
Including Disposition Reviews**

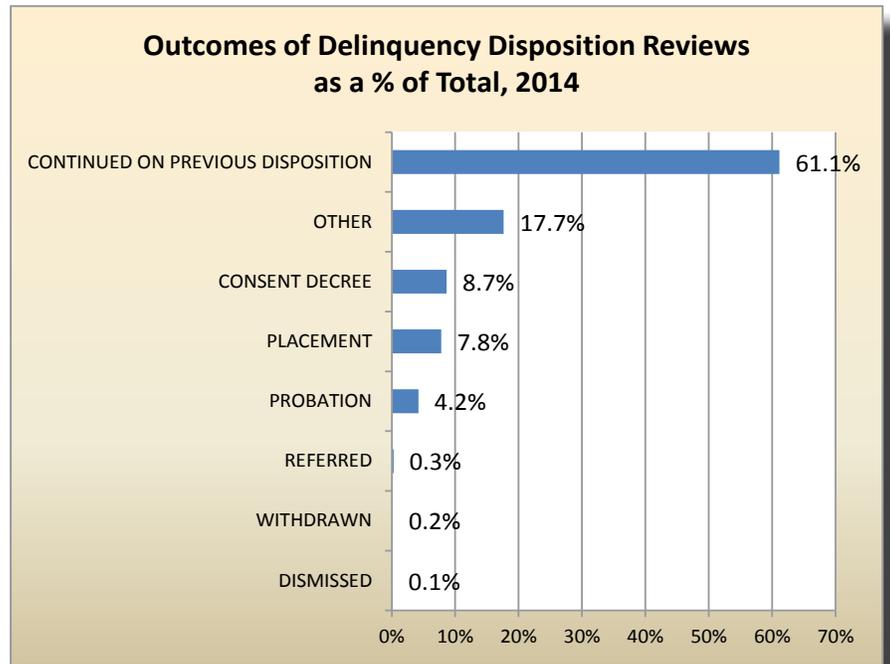

Delinquency placements to private institutions continue to represent the most frequent type of delinquency placements in 2014 - representing 58.5% of all placements. Commitments to drug and alcohol programs and group homes represented 20.5% of all delinquency placements, while all secure programs comprised 10.4%. Delinquency placements to private institutions demonstrated a slight decrease from 2013 to 2014 (59.2% - 58.5%), as did group home placements from 9.0% in 2013 to 7.8% in 2014. Drug and alcohol placements demonstrated an increase from 10.6% in 2013 to 12.7% in 2014.

Outcomes of Delinquency Disposition Reviews, 2014

Although the majority of delinquency placements resulted from disposition reviews (see page 21), less than 1 in 10 disposition review proceedings resulted in a delinquency placement. The vast majority of disposition reviews resulted in an order of Continued on Previous Disposition.

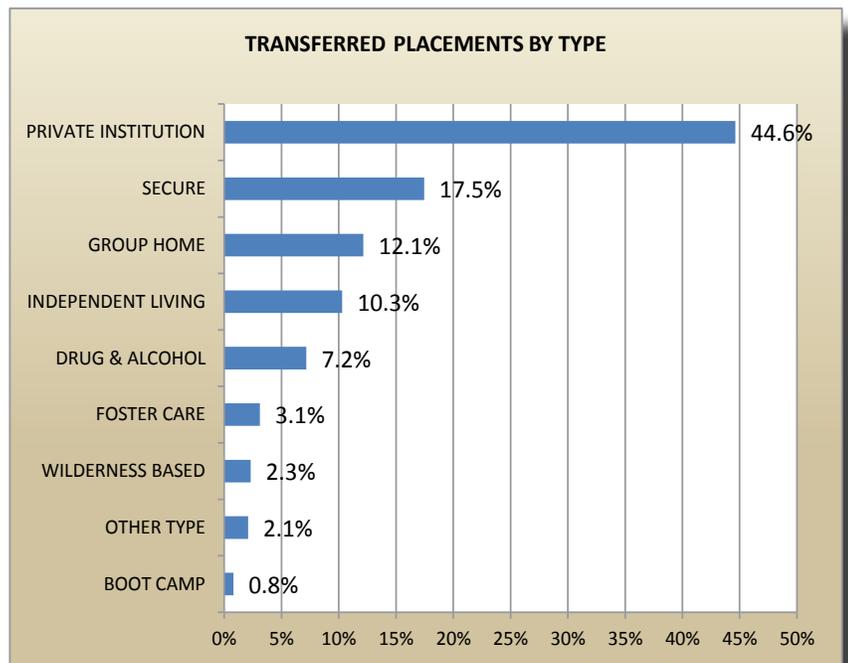

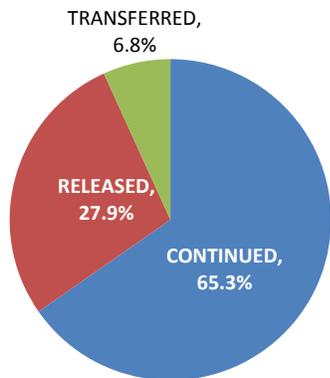

Outcomes of Delinquency Placement Reviews, 2014

A placement review is a hearing conducted by the court regarding a previous disposition which resulted in out-of-home placement.

In the small percentage of placement reviews in which a transfer to another placement was ordered, most transfers were to a private institution.

The majority of delinquency placement review proceedings resulted in an order of Continued in Previous Placement.

Outcomes of Delinquency Placement Reviews

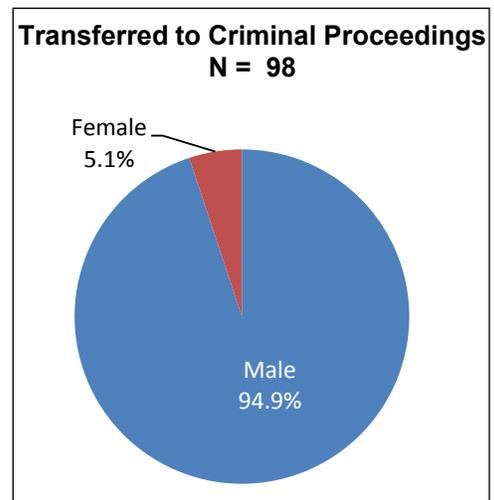

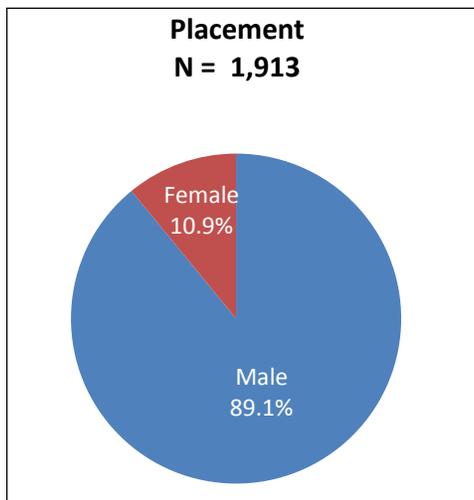

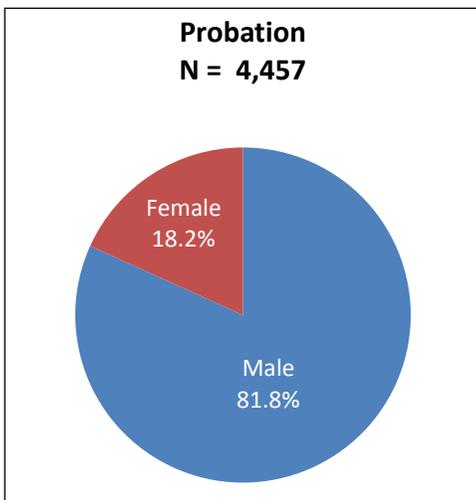

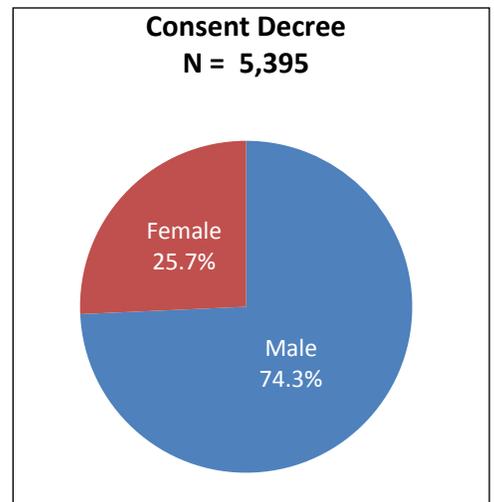

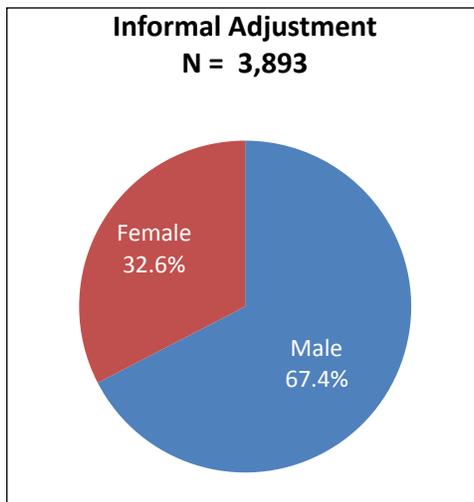

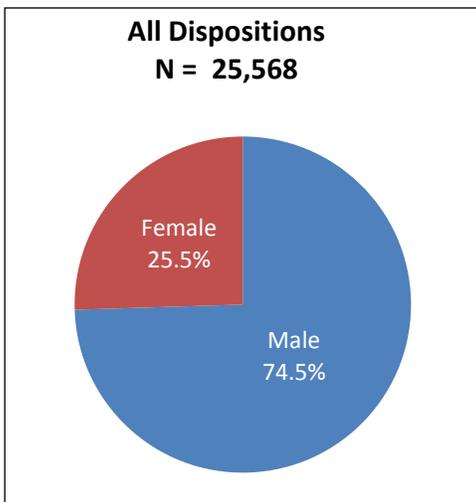

Selected Dispositions by Gender, 2014

Juvenile Court dispositions in Pennsylvania continue to primarily involve males. As reflected in the charts below, the proportion of males receiving delinquency dispositions related to new allegations of delinquency increases as a case penetrates through the juvenile justice system.

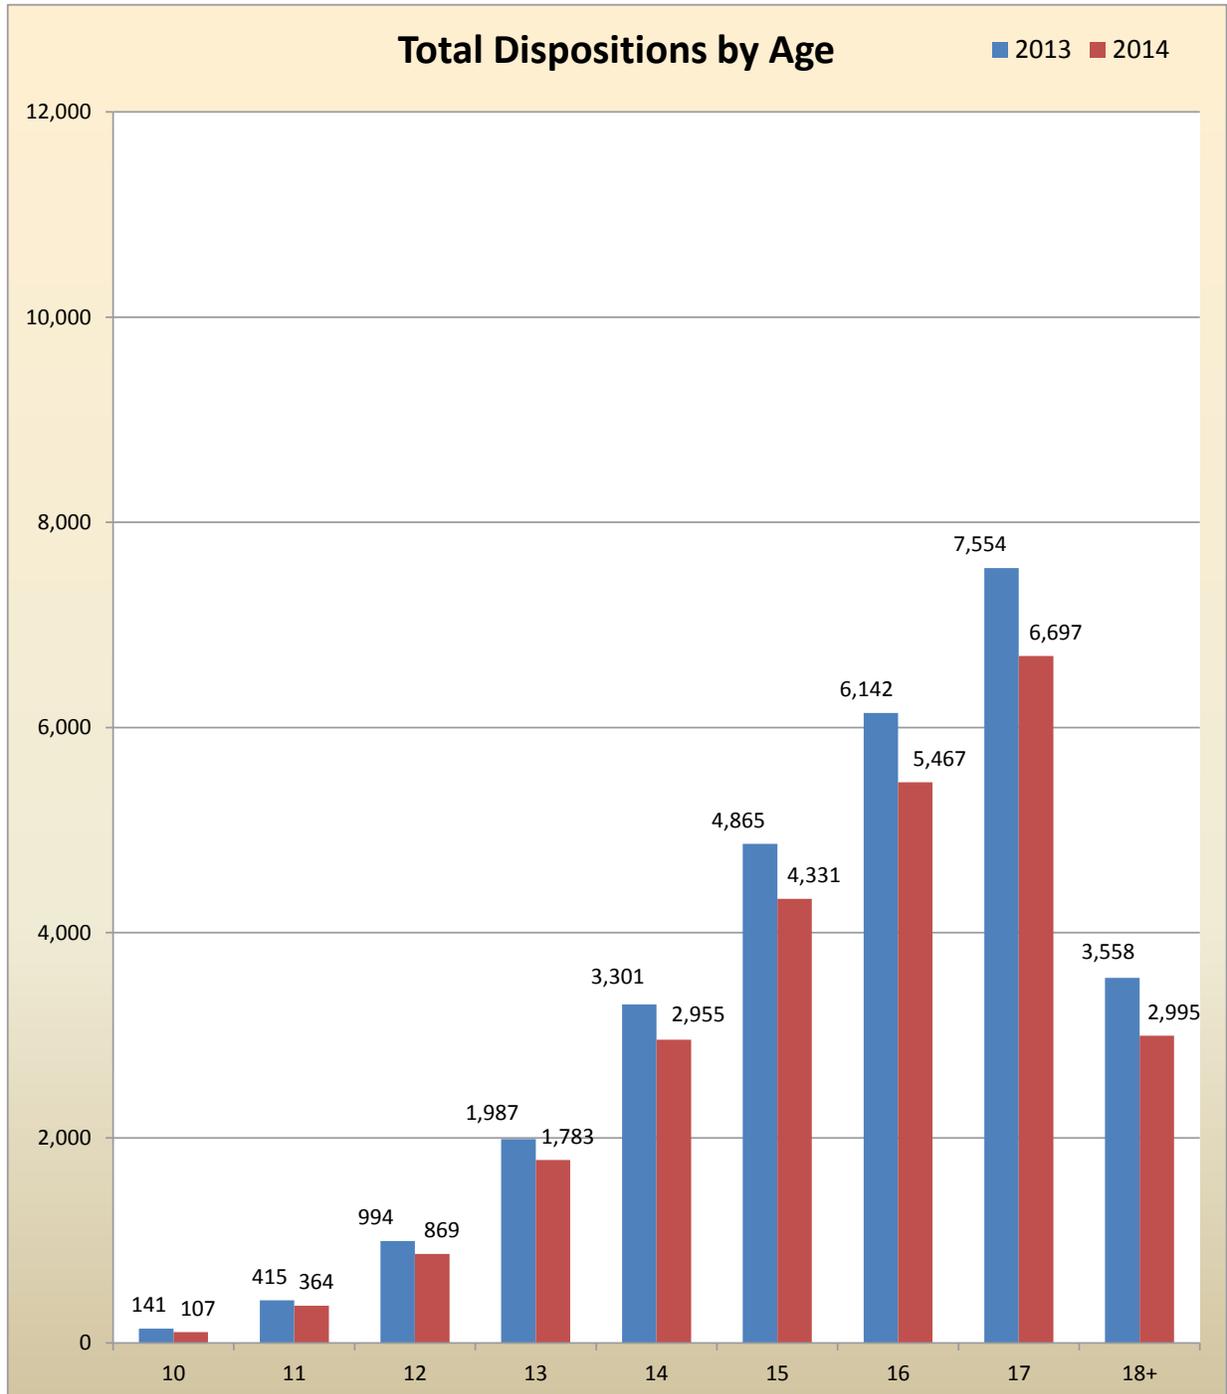

SELECTED DISPOSITIONS	TOTAL	MALE	FEMALE
ALL DISPOSITIONS	25,568	74.5%	25.5%
INFORMAL ADJUSTMENT	3,893	67.4%	32.6%
CONSENT DECREE	5,395	74.3%	25.7%
PROBATION	4,457	81.8%	18.2%
PLACEMENT	1,913	89.1%	10.9%
TRANSFERRED TO CRIMINAL PROCEEDINGS	98	94.9%	5.1%

Total Dispositions by Age, 2013-2014

Seventeen-year-olds accounted for 6,697 (26.2%) of all juvenile delinquency dispositions in 2014, representing the most dispositions for any age group. Juveniles aged 16 accounted for 5,467 (21.4%), while 15-year-olds accounted for 4,331 (16.9%) of the dispositions. While these percentages remain consistent with that of 2013, all age groups decreased in the number of dispositions from 2013 to 2014.

This table reflects the age of the juvenile at the time of disposition.

Note: The data does not include dispositions resulting from disposition review and placement review hearings.

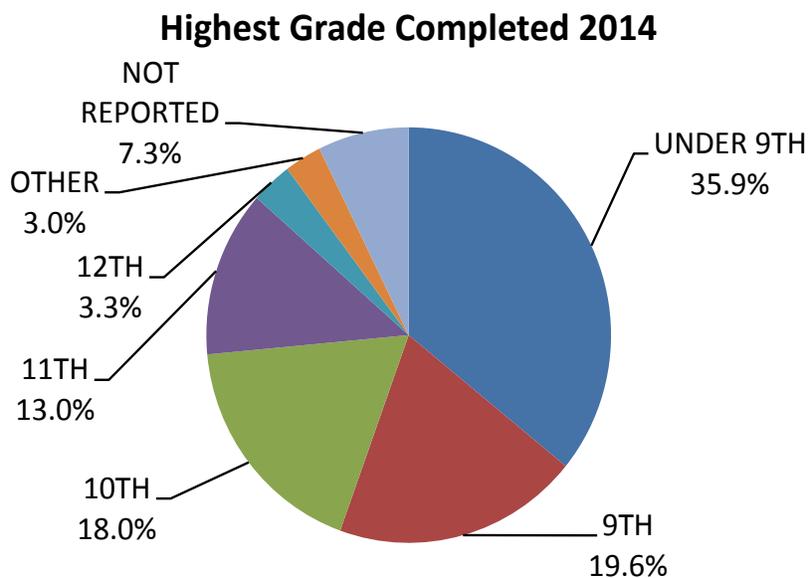

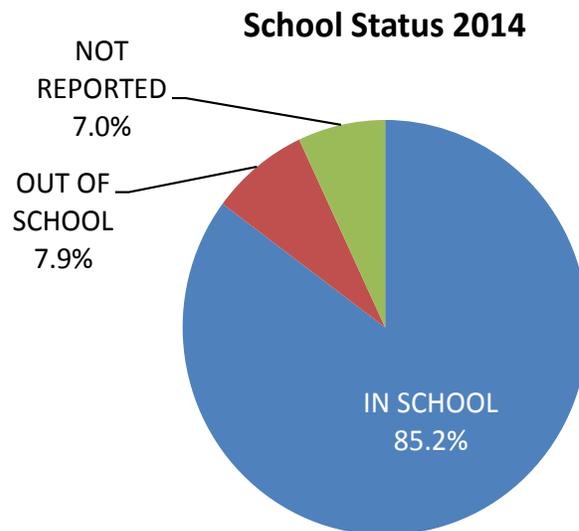

Total Dispositions by Selected Variables, 2014

The following charts reflect the distribution of all juvenile delinquency dispositions in 2014 by the selected variables.

Note: The data on pages 25 and 26 does not include dispositions resulting from disposition review and placement review hearings.

Educational Status

The vast majority (85.2%) of delinquency dispositions in 2014 reflected youth who were reported as “In School” at the time of disposition. Fifty-seven percent of youth were reported as having completed grades 9, 10, 11, or 12, or as being in an “Other” educational program.

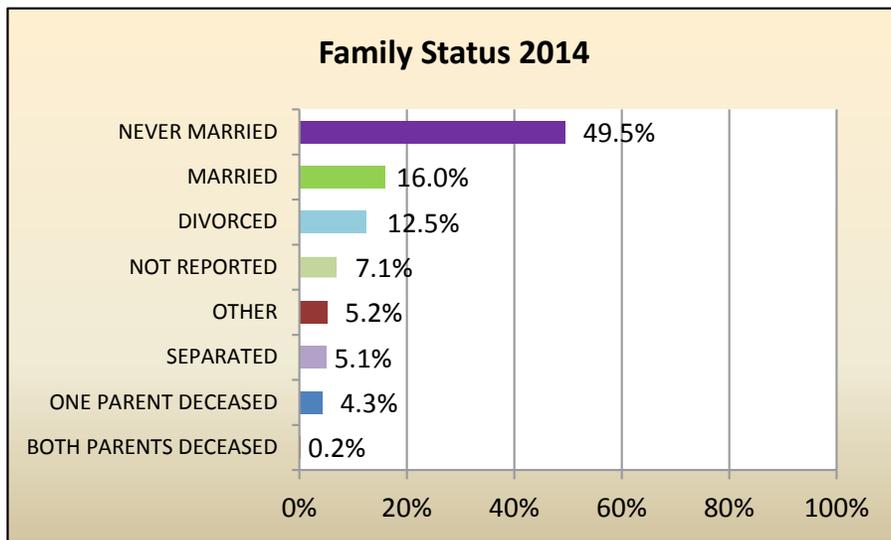

Total Dispositions by Selected Variables, 2014

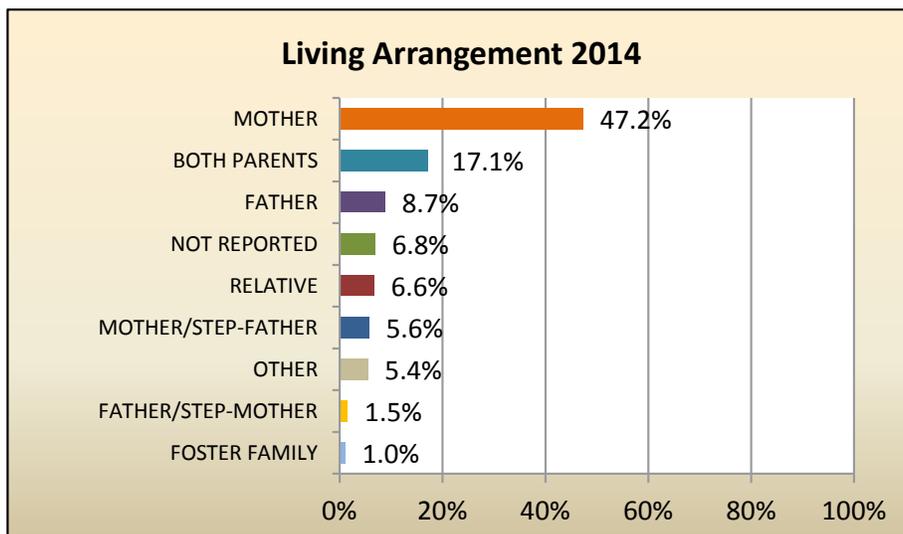

Family Status

In juvenile delinquency dispositions, youth whose biological parents were reported as Never Married represents the largest group – more than 49%. In only 16% of cases, the biological parents were reported as Married at the time of disposition.

Note: The data on pages 25 and 26 does not include dispositions resulting from disposition review and placement review hearings.

In 2014, 47.2% of youth resided only with their mother, while only 17.1% of juveniles resided with both biological parents.

Race and Ethnicity

On the following pages, data on race and ethnicity trends related to Juvenile Court dispositions are provided. A few points of clarification regarding the reading and interpretation of this data should be noted.

The Juvenile Court Judges' Commission's Center for Juvenile Justice Training and Research collects data on race and ethnicity from each of Pennsylvania's 67 counties. The collection of this data is done in concert with the protocols outlined in *Guidelines for Collecting & Recording the Race and Ethnicity of Juveniles in Conjunction with Juvenile Delinquency Disposition Reporting to the Juvenile Court Judges' Commission* (National Center for Juvenile Justice, 2006). As such, race and ethnicity are collected and recorded as two separate and distinct sets of data.

Relative Rate Index (RRI) data, which is a federally defined measure of Disproportionate Minority Contact (DMC), is included in this section. The RRI calculates, at specific decision points in juvenile court processing, a rate of occurrence for various racial and ethnic groups, and compares the rates between groups. In short, the RRI measures the rate of juvenile justice occurrences for racial and ethnic minorities as compared to White Non-Hispanic youth.

For example, if the rate of admission to secure detention is 8 per 100 White Non-Hispanic youth and 32 per 100 Black Non-Hispanic youth, the RRI ($32/8$) would be 4.0. In this example, an RRI of 4.0 would suggest that African-American youth were placed in secure detention at 4 times the rate of White Non-Hispanic youth. This RRI is then evaluated to determine if it is statistically significant, meaning if it deviates from what is expected by more than chance. An index value of 1.00 would indicate that the rates are the same.

OJJDP defined decision points	Base used for RRI Calculation	Pennsylvania Unit of Count/Source of Data
1. Population at risk (age 10 through 17)		US Census data estimates
2. Juvenile Arrests	Per 1000 youth	Pa State Police UCR report arrests
3. Refer to Juvenile Court	Per 100 arrests	Juvenile Court dispositions/Juvenile Court Judges' Commission disposition database
4. Cases Diverted	Per 100 referrals	Juvenile Court dispositions diverted/JCJC
5. Cases Involving Secure Detention	Per 100 referrals	Secure Detention Admissions/Pa detention center admission logs
6. Cases Petitioned (Charge Filed)	Per 100 referrals	Juvenile Court dispositions formally processed/JCJC
7. Cases Resulting in Delinquent Findings	Per 100 petitioned	Juvenile Court dispositions adjudicated delinquent/JCJC
8. Cases Resulting in Probation	Per 100 found delinquent	Juvenile Court dispositions resulting in probation /JCJC
9. Cases Resulting in Out of Home Residential Placement	Per 100 found delinquent	Juvenile Court dispositions resulting in out of home placement in a residential setting/JCJC
10. Cases Resulting in Confinement in Secure Juvenile Correctional Facilities	Per 100 found delinquent	Juvenile Court dispositions resulting in out of home placement in a secure setting/JCJC
11. Cases Transferred to Adult Court	Per 100 petitioned	Juvenile Court dispositions resulting in Transfer for Criminal Proceedings/JCJC

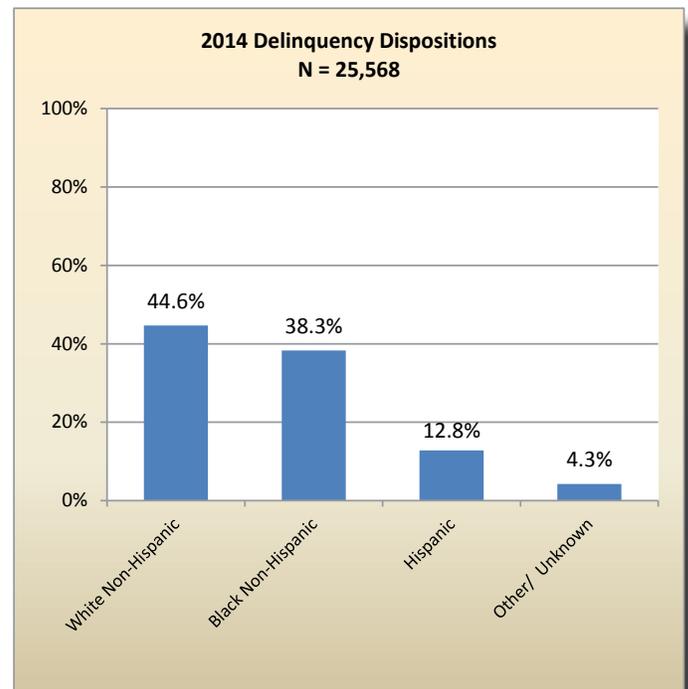

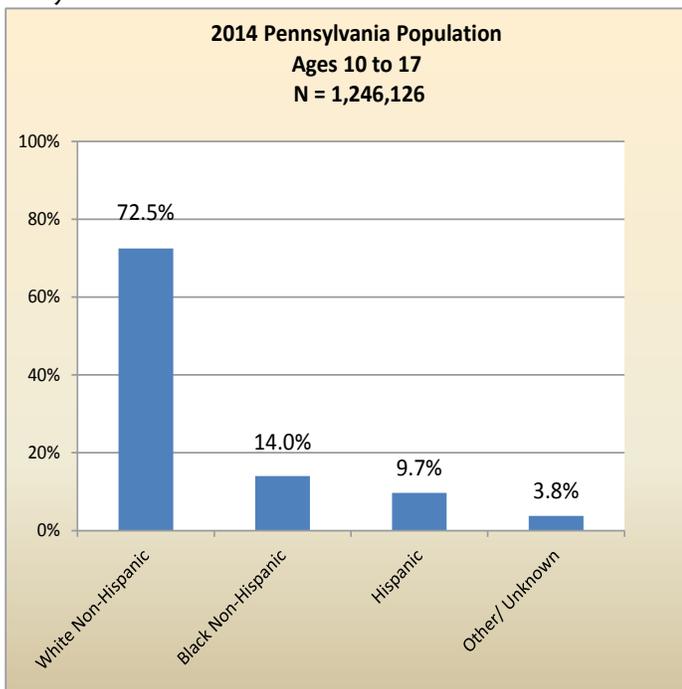

Trends related to both race and ethnicity are presented within the following charts, graphs, and tables. References to racial or ethnic groups are defined as follows:

White Non-Hispanic	reported as Non-Hispanic for ethnicity and White for race
Black Non-Hispanic	reported as Non-Hispanic for ethnicity and Black for race
Hispanic	reported as Hispanic for ethnicity regardless of reported race
Other and Unknown	reported as Non-Hispanic for ethnicity and one of the following races: Asian, Pacific Islander, Native Hawaiian, Native Alaskan, Native American or Multi-Racial; or race and ethnicity was reported as unknown

Total Delinquency Dispositions by Race and Ethnicity

In 2014, White Non-Hispanic youth represented the largest racial/ethnic category for all delinquency dispositions. However, in comparison to the racial/ethnic distribution of all youth in Pennsylvania, ages 10-17, the representation of Black Non-Hispanic youth receiving delinquency dispositions is disproportionate: 14.0% of the total population versus 38.3% for Black Non-Hispanic youth. When excluding Philadelphia and Allegheny County, Black Non-Hispanic youth represent 8.1% of the youth population, but 26.8% of all delinquency dispositions. Please see Appendix 23 for the number of delinquency dispositions by race and ethnicity for each county.

While statewide rates of disproportionality are not evident among Hispanic youth, the sparse distribution of the Commonwealth's Hispanic population influences the statewide aggregate figures. Counties with significant Hispanic populations should review the appendix for county-specific data on total and selected dispositions by race and ethnicity.

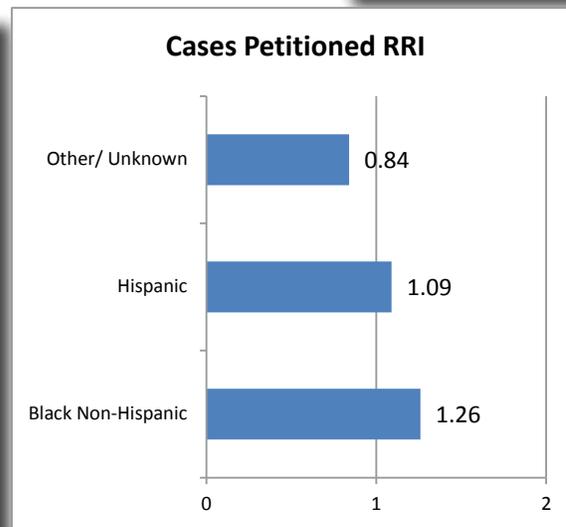

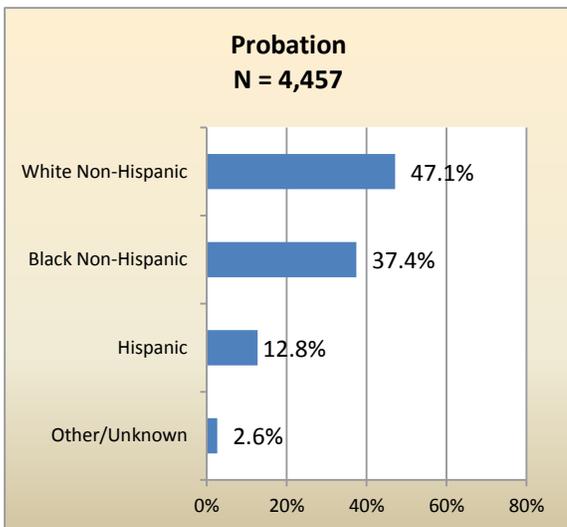

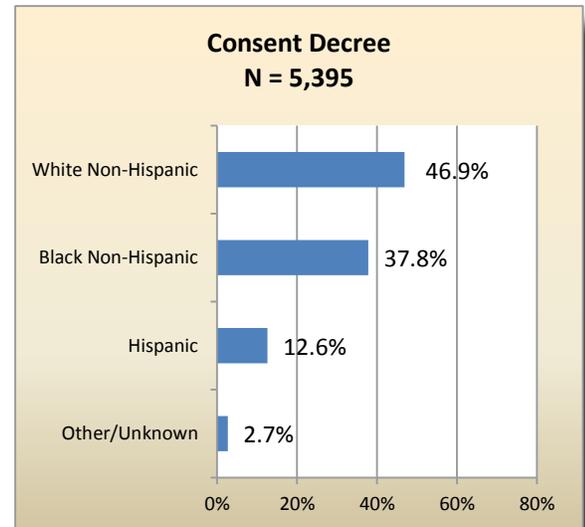

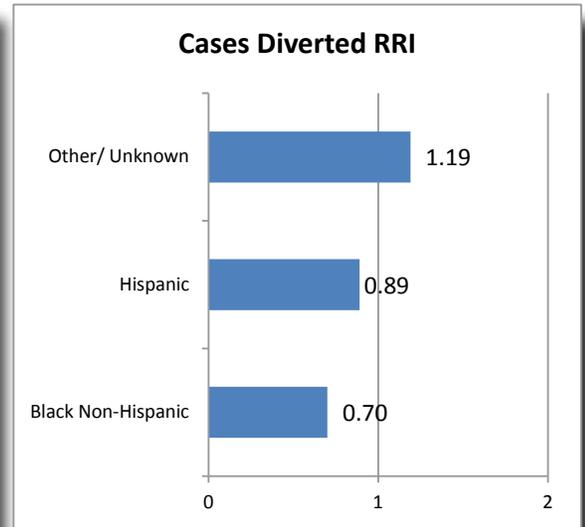

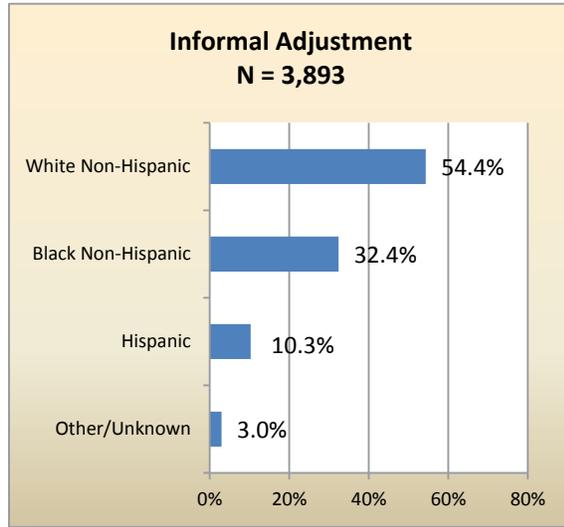

Selected Delinquency Dispositions by Race and Ethnicity

The following charts show the distribution of various dispositions by race and ethnicity.

For some delinquency dispositions that did not result in out of home placement (Informal Adjustment and Consent Decree), Black Non-Hispanic youth comprise a smaller proportion of cases, while White Non-Hispanic youth comprise a larger proportion of cases than what is reflected in all delinquency dispositions.

The RRI for Diverted Cases (number of dispositions not petitioned to court) and Cases Petitioned is consistent with the distribution of delinquency dispositions for Informal, Consent Decree and Probation.

In 2014, Black Non-Hispanic youth were diverted at $\frac{2}{3}$ the rate of White Non-Hispanic youth, and petitioned for juvenile court at $\frac{1}{4}$ the rate of White Non-Hispanic youth. Hispanic youth were diverted and petitioned for court at similar rates as White Non-Hispanic youth.

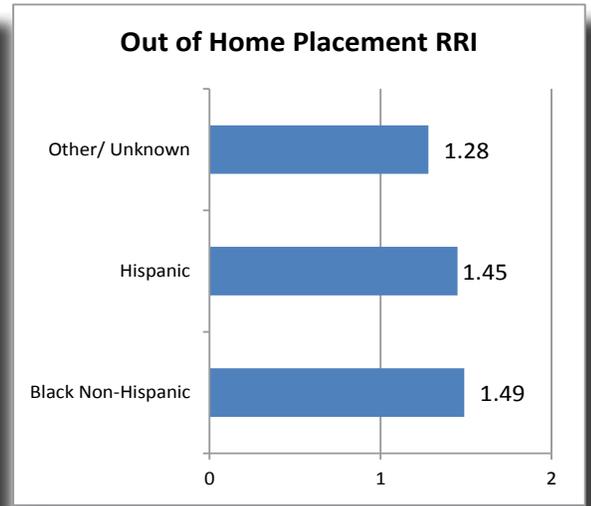

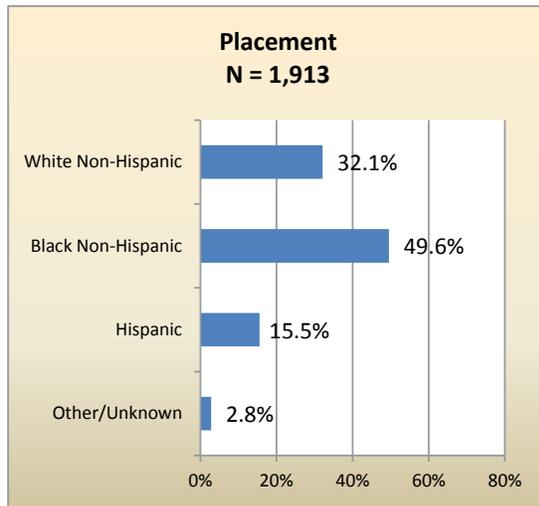

Selected Delinquency Dispositions by Race and Ethnicity

continued

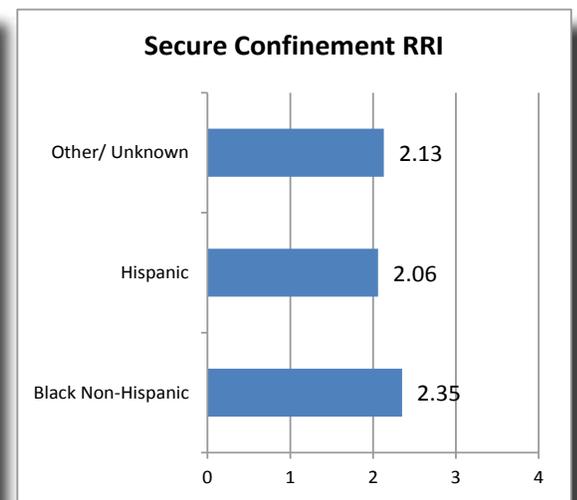

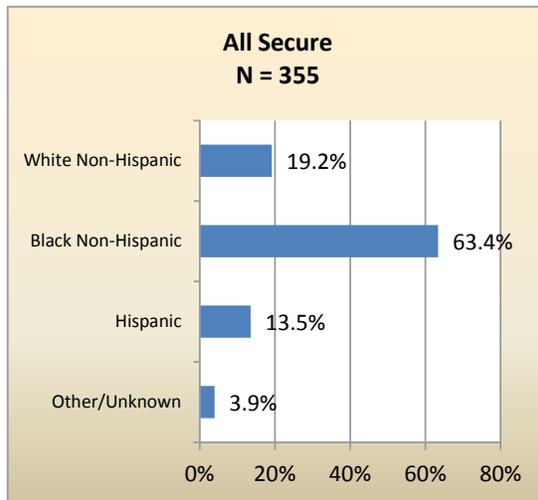

For dispositions that resulted in an out of home placement (not including disposition reviews and placement reviews), the proportion of both Hispanic (15.5%) and Black Non-Hispanic (49.6%) youth exceeds the representation of all delinquency dispositions.

The RRI for Out of Home Placement for both Hispanic and Black Non-Hispanic youth is approximately 1½ the rate of White Non-Hispanic youth.

As in 2013, the data reported on community-based dispositions, out of home placements, and secure detention by race and ethnicity indicate that, in 2014, Hispanic and Black Non-Hispanic youth were removed from their homes for services at a higher rate, and received community-based interventions at a lower rate than White Non-Hispanic youth.

In 2014, the representation of Black Non-Hispanic youth (63.4%) for all secure placement settings was disproportionate to what is reflected among all placement dispositions (49.6%).

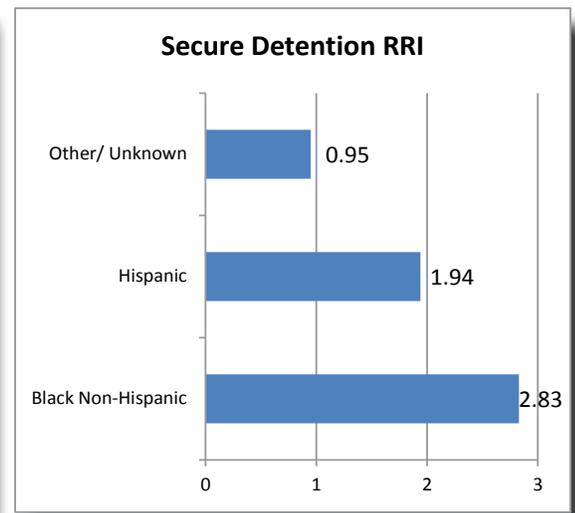

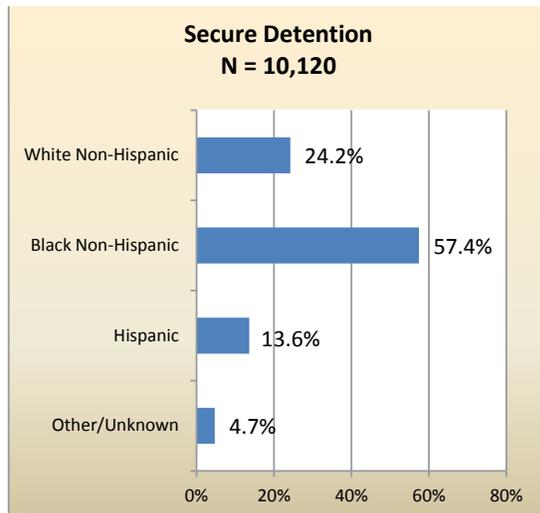

Black Non-Hispanic youth were committed to secure placement facilities at 2 ⅓ times the rate of White Non-Hispanic youth. Other/Unknown youth were committed at more than 2 times the rate of White Non-Hispanic youth, while Hispanic youth were committed at 2 times the rate of White Non-Hispanic youth.

Secure Detention by Race and Ethnicity

For secure detention, the statewide rate of disproportionality is more significant, with Black Non-Hispanic youth comprising 57.4% of all secure detention admissions in 2014. When excluding Philadelphia and Allegheny County, Hispanic and Black Non-Hispanic youth represent approximately 16.5% and 40.6%,

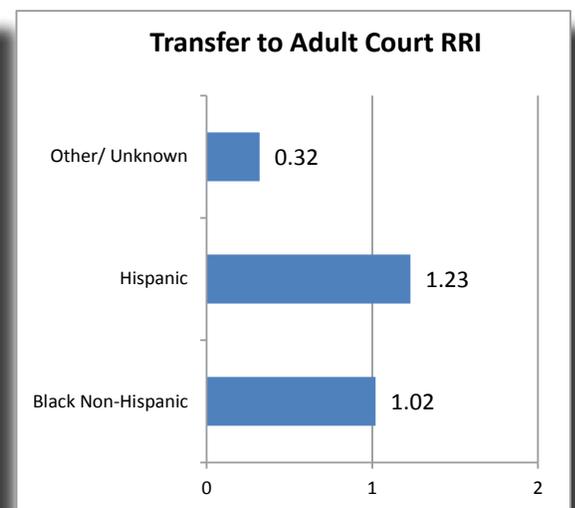

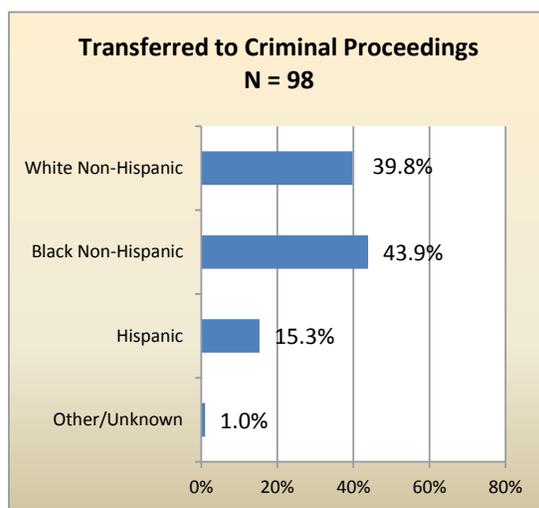

respectively, of all secure detention admissions. In Philadelphia, 73% of secure detention admissions involved Black Non-Hispanic youth and 17.1% involved Hispanic youth. In Allegheny County, 74.9% of secure detention admissions involved Black Non-Hispanic youth.

The statewide RRI for secure detention indicates that Black Non-Hispanic youth were admitted to secure detention at more than 2¾ times the rate of White Non-Hispanic youth, and Hispanic youth were admitted at almost 2 times the rate of White Non-Hispanic youth.

Transferred to Criminal Proceedings by Race and Ethnicity

Statewide, Black Non-Hispanic youth comprised a greater proportion of cases transferred to criminal proceedings than what is reflected in all delinquency dispositions. Black Non-Hispanic youth were transferred at fairly similar rates to White Non-Hispanic youth; however, Hispanic youth were transferred at almost 1¼ times the rate of White Non-Hispanic youth.

Dependency Dispositions

Dependency Dispositions, 2014

Since 1991, the Commission collects information on dependency cases processed by juvenile probation departments. These figures do not reflect the total number of dependency cases in the Commonwealth, nor do they represent the total number of dependency cases handled by juvenile probation departments. A dependency case is defined as a new referral that is processed by the juvenile probation department and that does not have accompanying delinquency allegations.

Only the counties that report dependency dispositions are shown in the tables in this section.

Time Lapse from Allegation to Disposition for Delinquency Cases, 2014

Time lapse information is calculated from the date of allegation to the date of disposition. Disposition reviews, placement reviews, and dependency cases are not included. Dispositions are grouped into one of two categories: “formal” or “informal”. A disposition is counted in the “formal” category if a date was reported in the Date of Hearing field indicating that a hearing before a judge or master was conducted, other than a detention hearing, following the filing of a petition.

Appendix 10

Number of Admissions and Length of Stay in Secure Detention, 2014

This table reflects the median length of stay in secure detention. The median is defined as the value above and below which half the cases fall. In 2013, the median length of stay in secure detention was 7 days.

COUNTY	NUMBER OF ADMISSIONS	MEDIAN LENGTH OF STAY IN DAYS
