Pennsylvania Juvenile Justice System Outcomes

Total cases closed that involved an allegation of delinquency and resulted in probation supervision or other service provided through a county juvenile probation department:

2005 = 18,803	2006 = 17,576	2007 = 17,657	2008 = 16,788
2009 = 17,702	2010 = 16,027	2011 = 14,849	2012 = 13,235
	2013 = 12,620	2014 = 10,593	

Community Protection:

The citizens of Pennsylvania have a right to safe and secure communities.

The juvenile justice system has a responsibility to protect the community from known juvenile offenders. Juveniles who do not commit a new offense while under court supervision have a higher probability of remaining crime free.

Since 2005, county juvenile probation departments have supervised and closed 155,506 cases. The proportion of cases closed successfully during this time is 85.1%.

- # and % of juveniles who successfully completed supervision without a new offense resulting in a Consent Decree, Adjudication of Delinquency, ARD, Nolo Contendere, or finding of guilt in a criminal proceeding:

2005 = 16,501 (87.8%)	2006 = 15,257 (86.8%)	2007 = 15,053 (85.3%)	2008 = 14,290 (85.1%)

Accountability:

In Pennsylvania, when a crime is committed by a juvenile, an obligation to the victim and community is incurred.

The juvenile justice system has a responsibility to ensure that juvenile offenders meet their obligation to repair the harm caused by their crimes. It is important that juvenile offenders make and fulfill a commitment to living crime-free lives. Through the completion of meaningful community service, juvenile offenders demonstrate their commitment to making amends for the harm their actions have caused.

The number and percentage of juveniles who complete assigned community service obligations and the number of community service hours completed are the primary measures of success. Most juvenile offenders complete their community service assignments, and the community receives valuable service from these juveniles.

Victims of juvenile crime are entitled to be restored, to the extent possible, to their pre-crime economic status. The payment of restitution by the juvenile offender is one of the most important outcomes sought by victims. The number and percentage of juveniles who make full restitution to their victims, and the amount of restitution paid are measures of how successful the system is in achieving offender accountability and victim restoration.

Since 2005, juvenile offenders have completed 5,075,247 hours of community service. The value of the community service hours completed equates to services worth approximately \$36,795,540.75 based upon a minimum wage of \$7.25 per hour. Additionally, victims of juvenile crime have received \$23,611,626 in restitution from juvenile offenders.

Competency Development:

Juveniles, who come within the jurisdiction of Pennsylvania's juvenile justice system, should leave the system more capable of being responsible and productive members of their communities.

Areas in which one could reasonably expect young people in trouble with the law to build and demonstrate competencies depending on their age and stage of development are Pro-Social Skills, Moral Reasoning Skills, Academic Skills, Workforce Development Skills, and Independent Living Skills.

Additionally, juveniles who are either in school or working have a significantly greater chance of not belonging to a gang, and avoiding criminal behaviors such as theft, assault, selling drugs, and carrying a handgun.

1. # and % of juveniles directed/ordered to participate in a competency development activity while under supervision:

2005 = 13,704 (72.9%)	2006 = 13,301 (75.7%)	2007 = 13,017 (73.7%)	2008 = 12,871 (76.7%)

Placement Summary:

The following information pertains to juveniles who, while under the jurisdiction of the Juvenile Court, were committed to out-of-home placement for a period greater than 28 days at least one time in conjunction with a juvenile delinquency disposition.

The proportion of juveniles whose cases were closed in 2014 and experienced a placement episode was 21.3%, however, the total number of juveniles who experienced a placement episode is the lowest since this data has been collected. At the same time, the median length of placement increased from 6.8 months in 2013 to 7.8 months in 2013.

- # and % of juveniles committed to out-of-home placement for 28 or more consecutive days (excluding detention, shelter care, and diagnostic placements):

2005 = 3,516 (18.7%)	2006 = 3,244 (18.5%)	2007 = 3,107 (17.6%)	2008 = 2,900 (17.3%)
